Condition: -

1. The outside registered contractor who wish to participate in the tendering process in MCD shall submit a copy of their registration certificate in which they are registered to the concerned division as well as to office of ADC (Engg.) HQ.
2. An affidavit on a non judicial stamp paper of Rs. 100/- (not older than one month) from last date of submission of bid) shall be submitted by the outside registered contractor with each tender swearing therein that the agency is not blacklisted / debarred by any Govt. / PSU of Private organization.
3. The outside registered contractors who wish to participate in tendering process of MCD shall submit their registration certificate to Engineer Department (HQ) along with an affidavit as mentioned at Sl. No. 2 above.
4. Engineering Department (HQ) shall accordingly prepare a data base of the outside registered contractors and circulate the same to all divisions of Engineering Department.
5. The division of Engineering Department where the outside registered contractor has participated in the tender process shall confirm the status of the contractor regarding validity of his registration from Engineer Department (HQ), MCD before processing the case further.
6. The status of MCD registered contractor regarding revalidation of his enlistment in MCD shall also be got confirmed by the concerned division from Engineer Department (HQ).

SPECIAL CONDITIONS AS PER DIRECTIVES OF HON'BLE NATIONAL GREEN TRIBUNAL AND EIA GUIDANCE MANUAL.

1. The contractor shall not store/dump construction material or debris on metalled road.
2. The contractor shall get prior approval from Engineer-in-Charge for the area where the construction material or debris can be stored beyond the metalled road. This area shall not cause any obstruction to the free flow of traffic/ inconvenience to the pedestrians. It should be ensured by the contractor that no accidents occur on account of such permissible storage.
3. The contractor shall take appropriate protection measures like raising wind breakers of appropriate height on all sides of the plot/area using CGI sheets or plastic and or other similar material to ensure that no construction material dust fly outside the plot area.
4. The contractor shall ensure that all the trucks or vehicle of any kind which are used for construction purposes or are carrying construction material like cement, sand and other allied material are fully covered. The contractor shall take every necessary precaution that the vehicles are properly cleaned and dust free to ensure that enroute their destination, the dust, sand or any other particles are not released in air/contaminate air.
5. The contractor shall provide mask to every worker working on the construction side and involved in loading, uploading and carriage of construction material and construction debris to prevent inhalation of dust particles.
6. The contractor shall provide all medical help, investigation and treatment to the workers involved in the construction of building and carry of construction material and debris relatable to dust emission.
7. The contractor shall ensure that C&D waste is transported to the C&D waste site only and due record shall be maintained by the contractor.
8. The contractor shall compulsory use of wet jet in grinding and stone cutting.
9. The contractor shall comply all the preventive and protective environment steps as stated in the MOEF guidelines, 2010.
10. The contractor shall carry out on Road inspection for black smoke generating machinery. The contractor shall use cleaner fuel.

11. The contractor shall ensure that all DG sets comply emissions norms modified by MOEF.
12. The contractor shall use vehicles having pollution under control certificate. The emissions can be reduced by a large extent by reducing the speed of a vehicle to 20mph. Speed bumps shall be used to ensure speed reduction. In case where speed reduction cannot effectively reduce fugitive dust the contractor shall divert traffic to nearby paved areas.
13. The contractor shall ensure that the construction material is covered by tarpaulin. The contractor shall take all other precaution to ensure that no dust particles are permitted to pollute air quality as a result of such storage.
14. The paving of the path for plying of vehicles carrying construction material is more permanent solution to dust control and suitable for longer duration projects. The NIT approving authority shall carry out cost benefit ratio analysis of the same.
15. All the conditions of CMDF/MLALAD/MPLAD/MSPYLAD/Councillor Local Area Development Fund Scheme etc. are also applicable.
