

I would appreciate it if you could accept my sincere apologies for the delay. The delay was caused by several technical difficulties, including the failure of the 40kVA UPS for the FM transmitter, issues with the FM live studio hard disk, the technical arrangements for live recording, and organizing the invited audience program for the 90th anniversary of Akashvani. As a result, I unfortunately lost track of the contract's expiration date. Previously, the contract was awarded based on a locally solicited quotation; however, this is the first occasion it is being processed through the GEMS portal, following the guidance of the cluster head. I kindly request your understanding and approval to proceed with hiring the gardener through the GEMS portal. In the future, I should exercise caution to ensure that this does not occur again
