

Dt. 15.11.2025

Addendum in Technical specifications of Supply of 220kV/400kV Transmission line Tower Material.

Following addition to the existing Technical Specifications for the supply of 220kV/400kV Transmission line tower material:

“Use of Mild Steel (MS) / High Tensile (HT) Steel material shall be as per the BOM approved by GETCO for respective structures. For tender quantities of MS/HT material refer schedule A of tender / BOQ.”
