(A) INSTRUCTIONS TO THE BIDDERS

A. INTRODUCTION

1.0 General Particulars

1.1 The Gujarat Energy Transmission Corporation Ltd., Baroda hereinafter called 'GETCO'/ 'OWNER' intends to receive bids Tender for Work for height raising of Control Room with dismantling of old 11 kV VCB Panels, 66 KV C&R Panels, battery charger, LT panel etc. & Erection of new 11kV VCB Panels on newly height raised CR floor, erection of old 66 kV C&R Panels, battery charger, LT panel etc. at new location at 66kV Atladra SS under Gotri AM Division in respect to mitigate the waterlogging issue during monsoon under R & M Plan 25-26 RE as detailed in the accompanying specifications in accordance with Terms and Conditions herein. The bids shall be prepared and furnished as per these Instructions.

2.0 Bidding Costs

All costs/expenses in the preparation and submission of the Bid (including any post Bid discussions/presentations) shall be fully borne by the Bidder. Owner will not be responsible/liable for these costs irrespective of the course and conclusion of this Bidding.

3.0 BID DOCUMENTS

Details of Documents

The following Bid documents apart from Invitation to Bid detail the material and equipment specifications/characteristics, the bidding procedures and the terms & conditions of contract:

a. Instructions to Bidders (ITB-Part I)
b. General Conditions of Contract (GCC-Part I)
c. Erection Conditions of Contract (ECC-Part I)
d. Special Conditions of Contract (SCC-Part I)
e. Technical Specifications (TSP-Part IIA)
f. Technical Data Sheets (TDS-Part IIB)
g. "Schedule-B" Bid Form and Price Schedules (BF/PS-Part III)

4.0 Knowing the Bid Documents

4.1 Every intending Bidder is to examine and understand all instructions, forms, terms, conditions and specifications in the Bid Documents and fully know himself all the conditions and contents therein, which may in any manner, affect the scope & content of work and the costs thereof. Submission of a Bid not substantially responsive to the Bid Document in all respects and/or failure to furnish all information required by the Bid Document may entail rejection of the Bid at the Bidder's risk.

5.0 Clarifications on Bid Documents

5.1 In case an intending Bidder finds any discrepancy or omission in the documents and specifications or is in doubt as to the true meaning of any part, he shall make a request, in writing not later than the date of pre Bid discussion, to the owner in triplicate. The owner will issue explanations, interpretations and clarifications as deemed fit in writing as a response to this request. On receipt of such interpretations/clarifications, the Bidder may submit his Bid within the date and time stipulated in the Bid invitation, All such explanations, interpretations and clarifications from the Owner shall be deemed as part of Bid Documents and shall invariably accompany the Bidder's proposal.

5.2 Any verbal/telephonic clarifications and information given by the Owner or his employee (s) or his representative(s) will not in any way be binding on the Owner.

6.0 Amendment of bidding document:

6.1 At any time prior to the deadline for submission of Bids the Owner may, for any reason, whether at his own initiative or in response to a clarification requested by the intending Bidder, modify the Bidding Document with amendment(s).

6.2 The amendment will be notified in writing or Fax /web site to all intending Bidders who have received the Bidding Document at the address contained in the letter of request for issue of Bidding document from the Bidders. Owner will bear no responsibility or liability arising out of non-receipt of the same in time or otherwise.

6.3 In order to afford prospective bidders reasonable time in which to take the amendment into account in preparing their bids, the Owner may, at his discretion, extend the deadline for the submission of bids.

6.4 Such amendments, clarifications etc. shall be binding on bidders and will be given due consideration by the Bidders while they submit their bids and shall invariably enclose such documents as a part of the bid.

7.0 PREPARATION OF BIDS

7.1 Language of Bid:

The Bid prepared by the Bidder and all correspondence and documents relating to the Bid, exchanged by the Bidder and the Owner, shall be written in the English language, provided that any printed literature furnished by the Bidder may be written in another language so long as accompanied by an English

translation of its pertinent passages. Failure to comply with this may disqualify a bid. For purposes of interpretation of the bid, the English translation shall govern.

7.2 Bid Format

Bidders have to make the Bid in the formats furnished with this Document. Verbatim without adding any printed/typewritten text of their own.

8.0 Local Conditions:

8.1 It will be imperative on each Bidder to fully inform himself of all local conditions and factors, which may have any effect on the execution of the Contract covered under these documents and specifications. The Owner shall not entertain any request for clarifications from the bidders, regarding such local conditions.

8.2 It must be understood and agreed that such factors have properly been investigated and considered while submitting the proposals. No claim for financial adjustment to the Contract awarded under these specifications and documents will be entertained by the owner. Neither any change in the time schedule of the Contract nor any financial adjustments arising thereof shall be permitted by the Owner, which are based on the lack of such clear information or its effect on the cost of the works to the Bidder.

9.0 Documents comprising the Bid:

9.1 The Bidder shall complete the Bid form inclusive of Price Schedules; Technical Data Requirements etc. furnished in the Bidding Documents, indicating, for the services to be rendered, a brief description of services, quantity and price.

9.2 All tender documents, scanned copies of original (Notarized / self-attested copies of original – as specified in tender document) documents along with scanned copy of original document for Tender Fee & EMD shall be uploaded through on line only (which is mandatory) on (n) procure Portal to establish that the Bidder meets the Qualification Requirements.**No physical documents to be submitted by the bidder**.

9.3 Complete technical bid / Tender Documents / formats are to be filled in all respects. Same shall be sealed and signed by the Company Authorized Signatory wherever specified and scanned copies of original (Notarized / self-attested copies of original – as specified in tender document) documents along with scanned copy of original document shall be uploaded through on line only (which is mandatory) on (n) procure Portal.

9.4 Bidder shall have to made payment for Tender fee and **EMD though RTGS / NEFT only on before due date and time of submission of tender**. **Tender fee and EMD paid though Demand Draft / Banker's cheque or Pay order will not be accepted and no any further communication in the matter will be entertained.**

9.5 It shall be sole responsibility of the bidder that the uploaded scanned documents (in PDF form) remain legible & should not be password protected.

9.6 Bidder shall have to upload scanned copies of complete technical bid filled in all respect and sealed and signed by Company Authorized Signatory through on line only (which is mandatory) on (n) procure Portal

10.0 Bid Price:

10.1 The Bidder shall indicate percentage above/below of total bid price indicated in the appropriate price Schedules, enclosed in bid proposal sheets for erection, testing and commissioning, and other services it proposes to furnish under the contract. The % age above/below indicated shall be inclusive of all taxes and duties applicable inclusive of GST applicable on required inputs and services.

10.2 The Bidder shall specifically note that the Tenders are invited on percentage rate increase/decrease based in relation to unit rates of tender price schedule.

11.0 Price Basis:

11.1 The Price shall be quoted on firm basis.

11.2 The Price quoted by the bidder shall remain fixed during the bidder's performance of the contract and shall not be subject to variation on any account save for change in quantity. A bid submitted with an adjustable price quotation shall be treated as non-responsive and rejected.

12.0 Taxes and Duties:

12.1 **Goods and Service Tax (GST)**:

12.1.1 The F.O.R. Destination prices are excluding GST and Cess as applicable which will be paid extra on a given taxable goods and/or services within the original contractual delivery period. The amount and% of GST and Cess as applicable should clearly be indicated separately. (GST/Cess means all applicable Tax/Cess under GST Laws. GST Laws means IGST Act, GST(Compensation to the State for Loss of Revenue) Act, CGST Act, UTGST Act and SGSCT Act, 2017and all related ancillary legislations).

12.1.2 You shall have to submit a C.A Certificate& duly authorized Signatory of successful bidder, certifying that you have not claimed Refund of any applicable GST and Cess, charged to COMPANY or shall not claim any such Refund, on a future date, from the concerned Authorities and if, any Refund, in respect of such GST

and Cess, is claimed by you, it will be immediately passed on to the COMPANY, without COMPANY making any specific Claim, for the same, either from the Department or from you.

12.1.3 The offers having price INCLUSIVE OF GST and Cess is likely to be rejected if the rate of GST and Cess is not mentioned clearly unless the bidder has opted for Compostion Scheme under GST Act, which should be clearly indicated in the price bid. COMPANY may at its discretion consider such offer with presumption of highest applicable rate of VAT/GST/Cess prevailing when the price quoted is inclusive of GST and Cess.

12.1.4 If the Supplier/Contractor has opted for the Composition scheme of GST, the same must be clearly specified with valid Declaration & Certificate from Department. In the event of withdrawal/cessation of the Supplier from Composition scheme during the tenure of the contract, the rate mentioned in the price bid shall be final and any additional GST will have to be borne by the tenderer. In no case additional amount towards tax or otherwise will be paid / reimbursed to supplier/contractor. Further Statutory Variation clause will not be applicable in case of Supplier / Contractor has opted for Composition Scheme under GST.

12.1.5 Supplier/Contractor should charge GST in Invoice at the rate as agreed to / mentioned in acceptance of tender only and any deviation in the same shall not be accepted. Further, any additional liability of GST (later on due to wrong mentioning of GST rate, mis-interpretation of HSN/SAC Code, etc.) over and above as charged in the invoice shall be borne by the Supplier/Contractor. However, any refund received by the supplier / contractor on account of GST charged from the company; such refund shall have to be passed on to the company, along with interest if any. Such refund along with interest needs to be passed on suo-moto by the supplier / contractor.

12.1.6 Further, the Company has a right to recover the amount of GST along with penal interest at the rate of 15% per annum if GST charged is not paid / short paid to the government or fail to upload the details or uploads inaccurate particulars on GSTIN portal by the Supplier / Contractor within the stipulated time limit.

12.1.7 In case, Govt. revises the rate of GST rate / Code during the tenure of the contract, the provision of GUVNL's statutory variation clause shall apply.

12.1.8 INPUT TAX CREDIT BENEFIT

In the event of any statutory increase in the rate of Input Tax Creditand / or due to inclusion of any other additional item of their inputs / input services under the ambit of the Input Tax Credit provisions under the GST Act, subsequent to the date of submission of the offer, the same should be passed on to COMPANY and you should inform such changes to COMPANY from time to time.

12.1.9 GST, other taxes and other levies and duties including custom duty solely in respect of the transaction between the owner and the contractor under this contract, if any, shall be included in the bid price. These shall also be indicated separately wherever applicable as mentioned in the Tender.

12.2 As regards the income Tax, surcharge on income tax and any other corporate tax, including GST if any ,the owner shall not bear any tax liability whatsoever. The bidder shall be liable and responsible for payment of such taxes as attracted under the provisions of the law.

12.3 Notwithstanding the tax liabilities as per the sub-clause 12.1 above the owner shall have the right to make deduction at source from the amounts payable to the contractor in respect of Income Tax (on the cost of items of supply included in the works contract) as may be mandatory in terms of the law. The owner shall not bear any liability in this regard but shall issue necessary certificate in respect of such deduction made.

12.4 In case any tax or duty is newly introduced by the Government applicable for this contract with effect from the next day of the date submission of the bid and if the contractor is required to pay additional tax or duty, then the owner shall reimburse the contractor the additional tax or duty so paid by the contractor against submission by the contractor of documentary evidence to the satisfaction of the owner. This provision will not be applicable to transaction between the contractor and his sub-contractors and will be applicable only to the direct transaction between the contractors and owner. Besides the said statutory variation, no other statutory variation shall be payable by the owner.

12.5 The owner's liability for all taxes and duties including GST under the contract shall be limited to those indicated by the Bidder in the Bid Proposal Sheets, subject to the statutory variations and variations as per Clause No. 12.10 para.

12.6 If the cost to the Contractor during the performance of the 'Contract' shall be increased or reduced by reasons of the making, passing or promulgation of any law after the date of submission of bid or by any order, regulation or bye-law having the force of law the amount of such increase or reduction shall be added to or deducted from the "Contract Price" as the case may be for direct transactions between contactor & owner, and not for bought out items. It is the Bidders responsibility to furnish details of taxes, duties, levies etc. applicable as on the date of submission of the bid.

12.7 No claim for any increase towards the statutory variation regarding enhancement of existing tax or duty or introduction of a new tax or duty applicable shall be entertained by the Owner during the extended period of contract, if any, provided the extension of the contract is required by causes attributable to the contractor.

12.8 The provision of statutory variation regarding enhancement of existing tax or duty or introduction of a new tax or duty will be applicable only to the direct transaction between the contractor and the owner.

12.9 Before quoting, the bidder may ascertain from the concerned tax authorities of Government of Gujarat the applicability of Entry Tax, GST in respect of this work and include the same in the quoted price. The Owner in this regard will entertain no separate claim, as it is the responsibility of the Bidder to pay all these taxes.

12.10 In addition, the conditions detailed under Special Conditions of Contract shall apply.

13.0 Time Schedule:

13.1 The basic consideration and the essence of the contract shall be strict adherence to the time schedule for performing the specified works.

13.2 The Owner's requirements of completion schedule for the Works are mentioned in the accompanying Special Conditions of Contract.

13.3 The completion schedule as stated in the special conditions of contract shall be one of the major factors in consideration of the bids.

13.4 The owner reserves the right to request for a change in the work schedule during pre- award discussions with successful bidder.

13.5 The successful bidder will be required to prepare detailed Bar chart and finalize the same with the owner as per the requirement of Clause no 27.0 of GCC

14.0 Contract Quality assurance:

14.1 The Bidder shall include in his proposal the Quality Assurance Program containing the overall quality management and procedures which he proposes to follow in the performance of the Works during various phases as detailed in relevant clause of the General Technical Conditions.

14.2 At the time of Award of Contract, the detailed Quality Assurance Program to be followed for the execution of the Contract will be mutually discussed and agreed and such agreed Program shall form a part of the Contract.

14.3 The Bidder shall clearly specify the list of sub-vendors from whom the bought out items are being supplied wherever specifically indicated in the tender document shall supply only from those vendors. Such details shall be accompanied by their list of previous supplies made performance reports etc. However, in case of orders are placed, specific approval shall be obtained from the owner for the vendor-supplied materials. The quality assurance program shall be furnished for each material separately for approval.

15.0 Insurance:

The Bidder's insurance liabilities pertaining to the scope of Works are detailed out in Clauses titled Insurance, in General Terms and Conditions of Contract and in Erection Conditions of this Part-I. Bidder's attention is specifically invited to these clauses. Bid price shall include all the costs in fulfilling all the insurance liabilities under the Contract.

16.0 Erection Tools and Tackles:

The Bidder under a separate schedule, in his proposal shall include a list of all-special equipment tools & tackles etc. which he proposes to bring to site for the purpose of erection, handling, testing and commissioning including performance and guarantee tests of the equipment. If any such equipment is listed anywhere else in the proposal and not specially mentioned in the above schedule, it shall be deemed to have been included in the Bidder's proposed scope of supply.

17.0 Brand Names:

17.1 The specific reference in these specifications and documents to any material/equipment by brand name makes or catalogue number shall be construed as establishing standards of quality and performance and not as limiting competition. However, Bidders may offer other similar material/equipment provided they meet the specified standard, design and performance requirements. The Bidder shall furnish adequate technical information about such alternative material equipment to enable the Owner to determine its acceptability. The Owner shall be the sole judge on the acceptability or otherwise of such alternatively material/equipment.

17.2 The bidder shall note that standards for workmanship material and equipment, and reference to brand name of catalogue numbers designed by the Owner in its Technical Specifications are intended to be descriptive only and not restrictive. The Bidder may substitute alternative standards, brand name and/or catalogue numbers in its bid, provided that it demonstrates to the Owner's satisfaction that the substitutions are substantially equivalent or superior to those designed in the Technical Specification.

18.0 Bid Security/EMD:

The bidder shall furnish, as a part of its bid EMD, bid security for an amount of one percent of estimated cost to be paid as under:

a) Payment of Earnest Money Deposit (EMD) can be accepted by RTGS/ NEFT only.

1. In case of payment through RTGS/NEFT the scan copy of payment made (transaction slip of payment made) shall be uploaded online with the Tender documents on n-procure portal.
2. Bidder has to provide following detail on the same date of payment made so that receipt can be generated at below mentioned e-mail ids:
   1. **decmcjmbco.getco@gebmail.com**
   2. **nvp.getco@gebmail.com**
   3. **aotr.jambuva@gebmail.com**

Sr. No.	Required Details
1	Name & Postal Address of the bidder
2	Contact Detail & e-mail id of the bidder

6	Name of Account	GETCO , JAMBUVA
7	Account No.	06340200000181
8	GST No.	24AABCG4029R2ZC

18.1 The offer should be valid for a minimum period of 180 days from the date of opening of technical bid.

18.3 The bid security is required to protect the owner against the risk of Bidder's conduct, which would warrant the guarantee forfeiture, pursuant to relevant paras elsewhere The bid guarantee shall be made payable to the Owner without any condition whatsoever.

18.4 The Owner as non-responsive will reject any bid not secured in accordance with Para 18.1 above. No exemptions are made in the furnishing of the security.

18.5 Unsuccessful Bidder's bid security/EMD will be returned/refunded on finalization of tender or three months from the date of submission of tender whichever is later.

18.6 The successful bidders, Bid Security will be discharged upon, furnishing the contract performance guarantee

18.7 The bid guarantee may be forfeited.

a) If a Bidder withdraws its bid during the period of bid validity specified by the bidder on the bid Form:
b) If a bidder refuses to accept the contract or fails to commence the works including supplies within thirty days of letter of award of contract)

18.8 **If successful bidder fails to furnish the Security deposit to execute the contract for the work offered to him, his EMD shall be forfeited.**

19.0 Format of Bid:

19.1 The original and all copies of the bid shall be typed or written in indelible ink and shall be signed by the Bidder or a person or persons duly authorized by the Bidder to sign the Contract. The letter of authorization shall be indicated by written power-of-attorney accompanying the bid. All pages of the bid, except for un-amended printed literature, shall be initiated by the person or persons signing the bid.

19.2 Complete technical bid / all Tender Documents / formats are to be filled in all respects. Same shall be sealed and signed by the Company Authorized Signatory wherever specified and scanned copies of original (Notarized / self-attested copies of original – as specified in tender document) documents along with scanned copy of original document shall be uploaded through on line only (which is mandatory) on (n) procure Portal. No physical documents to be submitted by the bidder

19.3 The bid shall contain no interlineations, erasures or overwriting except as necessary to correct errors made by

the Bidder, in which case such corrections shall be initiated by the person or persons signing the bid.

19.4 The bid shall contain no interlineations, erasures or overwriting except as necessary to correct errors made by the Bidder, in which case such corrections shall be initiated by the person or persons signing the bid.

19.5 Bids shall be submitted as under:

Complete Technical Bid, Tender documents as per QR , Price Bid and transcation slip for payment made for tender fee & EMD through RTGS / NEFT ,shall be submitted 'online' only.

20.0 Signature of Bids:

20.1 The bid must contain the name, residence and place of business of the person or persons making the bid and must be signed and sealed by the Bidder with his usual signature. The names of all persons signing should also be typed or printed below the signature.

20.2 Bid by a partnership must be furnished with full names of all partners and be signed with the partnership name, followed by the signature(s) and designation(s) or the authorized partner(s) or other authorized representative(s).

20.3 Bids by Corporation/Company must be signed with the legal name of the Corporation/Company by the President/Managing Director or by the Secretary or other person or persons authorized to bid on behalf of such Corporation/Company in the matter.

20.4 A bid by a person who affixes to his signature the word 'President', 'Managing Director', 'Secretary', 'Agent' or other designation without disclosing his Principal will be rejected.

20.5 If it is found that two or more persons who are connected with one another either financially or as a principal and agent have bid under different names without disclosing their connection then such bids will be liable for rejection. Satisfactory evidence of authority of the person signing on behalf of the Bidder shall be furnished with the bid.

20.6 The Bidder's name stated on the proposal shall be the exact legal name of the firm.

20.7 Bids not conforming to the above requirements of signing may be disqualified and EMD forfeited.

21.0 Submission of bids:

21.1 **Complete Technical Bid, Tender documents as per QR , Price Bid and transcation slip for payment made for tender fee & EMD through RTGS / NEFT ,shall be submitted 'online' only.**

Price Bid : Technical & Price bid shall be submitted 'online' only through n-code.

21.2 The Technical Bid and accompanying documents, RTGS/ NEFT transaction slip for payment made for tender fee and EMD shall be uploaded (scanned copies of original document) through on line only (which is mandatory) on (n) procure Portal by the bidder.

21.3 Address of the Owner is as under:

The Superintending Engineer
GETCO, Circle Office,
220kv Jambuva sub-station compound,
NH -8, Jambuva PIN CODE- 390014
Vadodara.

22.0 Deadline for submission of bids:

22.1 The Bidders have to submit the bid documents with detail of payment of tender / Fee /EMD paid though NEFT / RTGS by online mode only as per schedule closing date of submission of online bid.

22.2 The Owner may, at its discretion, extend this deadline for the submission of bids by amending the Bidding Document in which case all rights and obligations on the Owner and Bidders previously subject to the deadline will thereafter be subject to the deadline as extended.

23.0 Late Bids

23.1 Any bid received by the Owner after the time and date fixed or extended for submission of bids prescribed by the Owner, will be rejected and not considered for evaluation.

24. Modification and withdrawal of bids:

24.1 The Bidder may modify or withdraw its bid after the bid's submission provided that written notice of the modification or withdrawal is received by the Owner prior to the deadline prescribed for submission of bids.

24.2 The Bidder's modification or withdrawal notice shall be prepared, sealed, marked and dispatched in accordance with the provisions of clause 23.0. The envelope should clearly indicate whether the modification

is for the Technical bid or the Price bid. No bid modifications notice by Telex/Grams/Fax shall be entertained by the Owner.

24.3 No bid shall be modified in any manner, whatsoever subsequent to the deadline for submission of bids.

24.4 No bid may be withdrawn in the interval between the deadline for submission of bids and the expiration of the period of bid validity specified by the Bidder on the Bid Form. Withdrawal/modification of a bid during this interval may result in the Bidder's forfeiture of its bid security.

25.0 Information required with the proposal:

25.1 The bids must clearly indicate the name of the manufacturer, the type and/or model of each principal item of equipment proposed to be furnished and erected. The bid should also contain drawings and descriptive materials indicating general dimensions, materials from which the parts are manufactured, principles of operation, the extent of pre-assembly involved, major construction equipment proposed to be deployed, method of erection and the proposed erection organizational structure.

25.2 The above information shall be provided by the Bidder in the form of separate sheets, drawings, catalogues, etc. in five copies.

25.3 Any bid not containing sufficient descriptive material to describe accurately the equipment proposed may be treated as incomplete and hence rejected. Such descriptive materials and drawings submitted by the Bidder will be retained by the Owner. Any major departure from these drawings and descriptive material submitted will not be permitted during the execution of the Contract without specific written permission of the Owner.

25.4 Oral statements made by the Bidder at any time regarding quality, quantity or arrangement of the equipment or any other matter will not be considered.

25.5 Standard catalogue pages and other documents of the Bidder may be used in the bid to provide additional information and data as deemed necessary by the Bidder.

25.6 The Bidder, along with his Proposal, shall submit a list of recommended erection equipment and materials which will be required for the purpose of erection of equipment and materials supplied under the Contract.

25.7 In case the 'Proposal' information contradicts specification requirements, the specification requirements will govern, unless otherwise brought out clearly in the technical commercial deviation schedule.

26.0 BID OPENING AND EVALUATION

Opening of bids by owner:

26.1 The Owner will open the technical bids online on Date of opening online technical bid.

26.2 The Bidder's names, Technical modifications, bid withdrawal and such other details as the Owner, at his discretion may consider appropriate, will be announced in the Technical Bid Opening.

26.3 Price bid will be open 'online' only through n-code after technical scrutiny of tender.
Technical bid and Price bid will be open 'online' only through n-code.

27.0 Purpose of evaluation of bids:

27.1 The Bids received/accepted/opened will be evaluated by the Owner to ascertain the technical responsiveness of the bid for the complete scope of the proposal, as covered under these specifications and documents. All technically responsive bids shall then be examined to determine the LOWEST EVALUATED COMMERCIALLY AND TECHNICALLY RESPONSIVE BIDS.

27 (A) Policy for bids under consideration:

27.A.1 Bids shall be deemed to be under consideration immediately after opening of Technical Bid and until such time official intimation of award/rejection is made by the Owner to the Bidders. While the Bids are under consideration, Bidders and/or their representatives and other interested parties are advised to refrain from contacting by any means, the owner and/or his employee's representatives on the matters related to Bids under consideration.

28.0 Submission and Evaluation of Documents / Clarification:

28.1 The Bidder shall submit/upload all the documents, certificates, declarations, statements and other information required under the Tender Document along with its original online bid within the stipulated date and time for submission of bids. The Bidder shall be solely responsible for ensuring completeness, correctness, legibility and validity of all such documents.

28.2 The Technical/Qualification Requirement (QR) evaluation of the bid shall be carried out only on the basis of the Data / Details / Documents submitted/uploaded by the Bidder as part of its original online offer on or before the stipulated last date and time for submission of the bid.

28.3 After the stipulated last date and time for submission of bids, no new, additional, substitute or replacement document shall be accepted or considered for establishing or improving the eligibility, Qualification Requirement (QR), technical qualification or experience of the Bidder.

28.4 In case any document, certificate, work order, completion certificate, experience certificate, registration certificate or other document required for establishing the eligibility/QR of the Bidder has not been submitted/uploaded with the original online bid, the same shall not be subsequently submitted or considered for establishing or improving the eligibility/QR of the Bidder.

28.5 The Owner/Tendering Authority may, wherever considered necessary, seek clarification only in respect of the Data / Details / Documents already submitted/uploaded by the Bidder with its original online offer, provided that such clarification does not result in any change, addition, substitution or improvement in the substance of the original bid or in the eligibility/QR of the Bidder.

28.6 No clarification shall be sought or accepted for introducing a new experience, new work order, new completion certificate or any other new document which was required to be submitted with the original online bid but was not submitted/uploaded within the stipulated bid submission period.

28.7 No post-bid clarification or document submitted voluntarily by the Bidder shall be considered for evaluation. Any clarification, if required by the Owner/Tendering Authority, shall be sought in writing and shall be limited to the original online submission.

28.8 In case the required Data / Details / Documents are not available in the original online offer, the bid shall be evaluated on the basis of the documents actually submitted/uploaded with the original online bid and dealt with in accordance with the Tender conditions.

28.9 In case any document uploaded/submitted by the Bidder along with the original online bid is found to be unreadable, illegible, corrupted, damaged or otherwise not accessible/openable, the Owner/Tendering Authority may seek clarification/re-submission only for such document(s) which are specifically required as per the duly filled online Annexures submitted by the Bidder, and only to the extent permissible under the Tender Conditions.

If the Bidder has not duly filled the relevant online Annexure(s), or has merely mentioned **"As per attached documents"** or any similar general remark in place of providing the required details in the prescribed Annexure(s), then **no further communication, clarification or opportunity for submission/re-submission of such document(s) shall be entertained,** and the bid shall be evaluated on the basis of the documents/data available in the original online offer.

The responsibility for ensuring that all uploaded documents are complete, properly filled, legible, accessible, valid and correctly linked/referenced through the prescribed Annexures shall rest solely with the Bidder.

29.0 Evaluation of Online Offer :

Tender shall be evaluated on the basis of the Data / Details / Documents forming part of the original online offer submitted/uploaded by the Bidder on or before the stipulated last date and time for submission of the bid.

No new, additional, substitute or replacement document submitted after the stipulated last date and time for submission of the bid shall be considered for establishing or improving the eligibility, Qualification Requirement (QR), technical qualification or experience of the Bidder.

Clarification, if any, shall be governed strictly by Clause No. 26 of the Tender Document and shall not result in any change or improvement in the substance of the original bid.

30.0 Online Annexures and Supporting Documents:

Bidders shall fill all online Annexures, wherever required, and shall upload all supporting authentic documents as specified in the Tender Document.

The Bidder shall ensure that all documents required for establishing eligibility, Qualification Requirement (QR), technical qualification and experience are duly uploaded/submitted along with the original online bid within the stipulated date and time for submission of the bid.

The responsibility for submission/uploading of complete and valid documents required under the Tender Document shall rest solely with the Bidder.

In case any required Data / Details / Documents are not submitted/uploaded with the original online bid, the same shall not subsequently be accepted or considered for establishing or improving the eligibility/QR, except for clarification strictly within the scope permitted under Clause No. 26.

The Owner reserves the right to evaluate the bid on the basis of the Data / Details / Documents available in the original online offer and in accordance with the provisions of the Tender Document.

28.0 Preliminary Examination:

28.1 The Owner will examine the bids to determine whether they are complete, whether any computational errors have been made, whether required sureties have been furnished, whether the documents have been properly signed, and whether the bids are generally in order.

28.2 **Arithmetical errors will be rectified on the following basis:**
If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected. If there is a discrepancy between the total bid amount and the sum of total costs, the latter shall prevail and the total bid amount will be corrected accordingly. If there is a discrepancy between words and figures, the amount advantageous to the Owner will prevail. If the Bidder does not accept the correction of the errors as above, his Bid will be rejected and the amount of Bid Security will be forfeited. The Bidder should ensure that the prices furnished in various price schedules are consistent with each other. In the case of any inconsistency in the prices furnished in the specified prices schedules to be identified in Bid Form for this purpose, the Owner shall be entitled to consider the highest price for the purpose of evaluation and for the purpose of award of Contract use the lowest of the prices in these schedules.

28.3 Prior to the detailed evaluation, the Owner will determine the substantial responsiveness of each bid to the Bidding Document. For purpose of these Clauses, a substantially responsive bid is one which conforms to all the terms and conditions of the Bidding Document without material deviations. A material deviation is one which affects in any way the prices, quality, quantity or delivery period of the equipment, completion of works or which limits in any way the responsibilities or liabilities of the Bidder of any right of the Owner as required in these specifications and documents. The Owner's determination of a bid's responsiveness shall be based on the contents of the bid itself without recourse to extrinsic evidence.

28.4 A bid determined as not substantially responsive will be rejected by the Owner and may not subsequently be made responsive by the Bidder by correction of non-conformity.

28.5 The Owner may waive any minor informality or non-conformity or irregularity in a bid which does not constitute a material deviation, provided such waiver does not prejudice or affect the relative ranking of any Bidder.

29.0 Evaluation of Price Bids:

29.1 Definitions and Meanings:
For the purpose of the evaluation and comparison of bids, the following meanings and definition will apply: -

a) 'Bid Price' shall mean the price quoted by each Bidder in his proposal for the complete scope of works.
b) 'Evaluated Bid Price' shall be summation of 'Bid Price', 'Differential Price' and 'Cost Compensation for Deviations.'

30.0 Calculation of differential Price & Cost Compensation for Deviations.

The Differential Price to be added to the Bid Price of each bid during evaluation and comparison shall be derived as under:

Differential Price (DP)=n1F1+n2F2…+nn Fn, where F1, F2…Fn are the various factors in Indian Rupees per unit of parameter differential or deficiency in the equipment and services offered as stipulated in these specifications: n1, n2…nn are the respective parameter differential or deficiency in the corresponding units to be determined from the Bidder's proposal. The above factors and corresponding units of parameter differential are derived from the Technical Specifications, Data sheets and/or Special Conditions of Contract.

Deviations from the Bidding Documents in so far as practicable will be converted to a Rupee value (D) and from the Bidding Document while evaluating the bids. In determining the Rupee value of the deviations the Owner will use parameters consistent with those specified in the specifications and documents and or other information as necessary and available to the Owner.

30.1 Comparison of Bids

The bids shall be compared on the basis of lumpsum prices (i.e., for erection services to be rendered as quoted by the Bidder) for the entire scope of the proposal as defined in the Bidding Document.

For comparison purposes all the evaluated bid prices shall be in Indian Rupees as under:
W = Q + DP + D
Where
W = Total Comparison Price
Q = Bid Price quoted by the bidder in Indian Rupees (Value of erection cost including other components if any.)

DP = Different price in Indian Rupees calculated as above
D = Cost compensation for deviations calculated as above.

All evaluated bid prices of all the bidders shall be compared among themselves to determine the lowest evaluated bid and, as a result of this comparison, the lowest bid will be selected for the award of the Contract.

31.0 AWARD OF CONTRACT

Award Criteria

31.1 The owner will award the contract to the successful Bidder, whose bid has been determined to be substantially responsive and has been determined as the lowest evaluated bid, providing further that the Bidder is determined to be qualified to perform the contract satisfactorily. The Owner shall be the sole judge in this regard.

32.0 MATCHING OF END COST:

32.1 In case the GETCO decides to award contract on matching end-cost basis, the bidder has to reduce all the quoted rates proportionately. The reduction on overall basis will not be accepted (i.e. all unit rates of erection schedule shall be reduced proportionately by difference in percentage). The confirmation for matching end cost shall be given within 7 (seven) days from the letter from GETCO.

32.2 Further, the Owner reserves the right to award separate contracts to two or more parties in line with the terms and conditions specified in the accompanying Technical Specifications.

33.0 Owner's right to accept any bid and to reject any or all bids:

33.1 The Owner reserves the right to accept or reject any bid, and to annual the bidding process and reject all bids at time prior to award of contract, any without thereby incurring any liability to the affected Bidder or Bidders or any obligation to inform the affected Bidder or Bidders of the grounds for the Owner's action.

34.0 Notification of award:

34.1 Prior to the expiration of the period of bid validity and extended validity period, if any, the Owner will notify the successful Bidder in writing by registered letter or cable or telex or FAX, to be confirmed in writing by registered letter, that its bid has been accepted.

34.2 The notification of award will constitute the formation of the Contract.

34.3 Upon the successful Bidder's furnishing of performance guarantee pursuant to relevant clause 36.0, the Owner will promptly notify each unsuccessful Bidder and will discharge its bid security, pursuant to Clause 18.0.

35.0 Signing of contract:

35.1 At the same time as the Owner notifies the successful Bidder that his bid has been accepted, the Owner will send the Bidder the detailed of Award, incorporating all agreements between the parties.

35.2 Within 15 days of receipt of the detailed of Award, the successful bidder shall sign the same with date and return it to the Owner.

35.3 The Bidder will prepare the Contract Agreement as per the Performa prescribed and the same will be signed within 30 (Thirty) days of notification of Award.

36.0 Contract Performance Guarantee:

36.1 As a contract performance security, the successful bidder, to whom the work is awarded, shall be required to furnish a performance guarantee in form of Bank guarantee from a Public Sector Indian bank/Scheduled, Commercial Bank in the form to be furnished. The guarantee amount shall be equal to ten percent (10%) of the Contract price and it shall guarantee the faithful performance of the Contract in accordance with the terms and conditions specified in these documents and specifications. the guarantee shall be valid up to 90 days after the end of Warranty Period.

36.2 The Performance Guarantee shall cover additionally the following guarantees to the Owner:

a) The successful Bidder guarantees the successful and satisfactory operation of the equipment furnished and erected under the Contract, as per the specifications and documents.

b) The successful Bidder further guarantees that the equipment provided by him/his sub-vendors and installed by him shall be free from all defects in design, material and workmanship and shall upon written notice from the Owner fully remedy free of expenses to the Owner such defects as developed under the normal use of the said equipment within the period of guarantee specified in the relevant clause of the General Terms and Conditions in the Part-I / Special Conditions of Contract.

36.3 The Contract Performance Guarantee is intended to secure the performance of the entire contract. However, it is not to be construed as limiting the damages under clause entitled "Equipment Performance Guarantee" in Technical Specifications, Part-II and damages stipulated in other clauses in the Bid documents.

36.4 The performance guarantee will be discharged without any interest at the end of guarantee period, unless otherwise specified in Special Conditions of Contract.

37.0 Scope of the proposal

37.1 The Scope of the proposal shall be on the basis of a single Bidder's responsibility, completely covering all the equipment erection and other installation services specified under the accompanying Technical Specifications. It will include among others as specified therein the following: -

a) Receipt of equipments and material from GETCO's store, transportation, storage, preservation and conservation of equipment at the Site.

b) Pre-assembly, if any, erection, testing and commissioning of all the equipments.

c) Reliability tests and performance and guarantee tests on completion of commissioning.

37.2 **No deviation** whatsoever to certain conditions of the bidding documents permitted by the Owner and therefore, the Bidders are advised that while making Bid Proposals and quoting prices these conditions may appropriately be taken into consideration. Bidders are required to furnish a certificate in this regard **as per the format provided in Special Conditions of Contract in a separate sealed envelope containing Bid security, which shall accompany the Technical Bid.** Any Bid not accompanied by such certificate shall be rejected by the Owner and shall not be opened.

37.3 Bids not covering the above cited entire scope of works may be treated as incomplete and hence rejected.

37.4 The Bidder shall complete all the schedules & annexure in the Bid Proposal Sheets, Technical Data Sheets and specified elsewhere. The Qualifying Data should be filled in the required schedule of Bid Proposal Sheets.

37.5 The scope of work is **Work for height raising of Control Room with dismantling of old 11 kV VCB Panels, 66 KV C&R Panels, battery charger, LT panel etc. & Erection of new 11kV VCB Panels on newly height raised CR floor, erection of old 66 kV C&R Panels, battery charger, LT panel etc. at new location at 66kV Atladra SS under Gotri AM Division in respect to mitigate the waterlogging issue during monsoon under R & M Plan 25-26 RE** as per standard specification and standard practice of GETCO and as per EIC.

Technical Qualification requirement

The bidder should satisfy following minimum technical requirements….

Sr. No.	Qualifying Requirements
1.	**Registration** :The bidder shall be registered contractor of GETCO
2.	**Technical Criteria**: 1. Bidder shall have executed minimum 01 No. of 66/11KV substation with State or Central Transmission utility or major Industries. Substations include minimum two nos. of feeder bays, one no. of Transformer bay. **OR** executed similar nature of work i.e. dismentalling of old 11KV VCB Panels,66KV C&R Panel & erection of new 11KV VCB Panels ,66KV C&R Panel on newly height raised CR floor in 66 /11KV Substation **OR** Control room shifting work of 66KV S/S. 2. Bidders shall have valid Electrical Contract License and approved vendor of GETCO/STU/CTU, registered under GST Act and Should have CPF/PF Registration Certificate.
3.	**Financial Criteria**: 1) The bidder shall submit the Bank solvency of the amount which is 20% of the total estimated cost of tender.
4.	**Additional Documents:** 1. Electrical Contractor License with latest validation 2. Payment of Tender fee and EMD. 3. GST registration certificate. (Certificate of Provisional GST registration shall not be accepted). 4. Details of Proprietorship / Partners/Directors of the Firm/Company. Partnership deed, MOA, BR, if applicable. 5. Copy of power of attorney as the case may be. 6. PF registration 7. The Bidder should have to submit copy of PAN card. 8. Income Tax returns along with profit Loss and Balance sheet of Last three financial years.

Note :

1. Complete Technical bid ,all tender documents (Scan copy of notarized/self-attested as per tender specification) ,RTGS/ NEFT transaction slip for payment made for tender fee and EMD to be submitted on line only (which is mandatory) on (n) procure Portal. No physical documents to be submitted by the bidder. Aslo , refer clause no. 28,29,30 of Instruction to bidders

2. The owner reserves the right to reject the Bid proposal of any Bidder, if in the Owner's opinion the Qualification data is incomplete and Bidder is not qualified to perform the Contract satisfactorily. Aslo , refer clause no. 28,29,30 of Instruction to bidders
3. All above Qualification Requirement documents must be submitted online with Self attested by Bidder (With seal & signature of bidder).

Scope of Work

1. The Scope of the proposal shall be on the basis of a single Bidder's responsibility, completely covering all the services specified under the accompanying Technical Specifications.
2. The Bidder shall complete all the schedules & annexure in the Bid Proposal Sheets, technical Data Sheets and specified elsewhere.
3. The scope of work is **"Work for height raising of Control Room with dismantling of old 11 kV VCB Panels, 66 KV C&R Panels, battery charger, LT panel etc. & Erection of new 11kV VCB Panels on newly height raised CR floor, erection of old 66 kV C&R Panels, battery charger, LT panel etc. at new location at 66kV Atladra SS under Gotri AM Division in respect to mitigate the waterlogging issue during monsoon under R & M Plan 25-26 RE"** as per standard specification and standard practice of GETCO and as per EIC.
4. The above work shall be done as per GETCO's approved drawing/layout.
5. Necessary field quality plan of GETCO shall be implemented and necessary documentation shall also be maintained as per GETCO's norms and instruction of EIC. If required field quality plan shall be available at field offices.
6. During the work of Line/SS, safety check list shall be followed. Necessary check list will be available at our field office.
7. Successful bidder has to appoint site Engineer to maintained site register & FQP as per ISO.
8. All work should be done accordingly to ISO & FQP and all require documents including Filled FQP, testing results etc. should be submitted while handing over the completed work.
9. The quantity mentioned in price bid is tentative and may vary in actual work order.
10. Contractor has to co-ordinate E.I.C. for planning of outage and work schedule thereof, so as to complete all the planned work during outage period. Contractor has to deploy adequate manpower & required tools-tackles accordingly.
11. Contractor has to complete all the work related to this title in stipulated outage period as per instruction of EIC.
12. Subjected work is required to be carried out during fix outage. Hence, contractor has to deploy adequate man power along with material, tools & tackles etc. well in advance and has to complete the entire work during this specific outage period only, failing to which GETCO shall deduct the amount of revenue loss due to prolong outage.
13. **List of Work Execution -** Work for height raising of Control Room with dismantling of old 11 kV VCB Panels, 66 KV C&R Panels, battery charger, LT panel etc. & Erection of new 11kV VCB Panels on newly height raised CR floor, erection of old 66 kV C&R Panels, battery charger, LT panel etc. at new location at 66kV Atladra SS under Gotri AM Division in respect to mitigate the waterlogging issue during monsoon under R & M Plan 25-26 RE.

PART- I (GCC)
GENERAL TERMS AND CONDITIONS OF CONTRACT

A. INTRODUCTION

1.0 DEFINITION OF TERMS

1.1 The 'Contract' means the agreement entered into between the Owner and the Contractor as per the Contract Agreement signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.

1.2 ''Owner' shall mean the Gujarat Energy Transmission Corporation Ltd, Vadodara or any of its group companies. i.e. GUVNL, GSECL, MGVCL, DGVCL, PGVCL, UGVCL and shall include its legal representatives, successors and assigns.

1.3 'Contractor' shall mean the Bidder whose bid is accepted by the Owner for the award of the Works and shall include such successful Bidder's legal representatives, successors and permitted assigns.

1.4 'Sub-Contractor' shall mean the person named in the Contract for any part of the Works or any person to whom any part of the Contract has been sublet by the Contractor with the consent in writing of the Engineer and will include the legal representatives,successors and permitted assigns of such person.

1.5 'Engineer' shall mean the officer appointed in writing by the Owner to act as Engineer from time to time for the purpose of the Contract.

1.6 The terms 'Stores' and 'Materials' shall mean and include equipment, stores and materials to be issued to the Contractor under the Contract.

1.7 'Works' shall mean and include taking delivery of line materials labour and services, as per the Specifications and complete erection, testing and putting into satisfactory operation including all transportation, handling, unloading and storage at the Site as defined in the Contract.

1.8 'Specifications' shall mean the Specifications and Bidding Document forming a part of the Contract and such other schedules and drawings as may be mutually agreed upon.

1.9 'Site' shall mean and include the land and other places on, into or through which the works and the related facilities are to be erected or installed and any adjacent land, paths, street or reservoir which may be allocated or used by the Owner or Contractor in the performance of the Contract.

1.10 The term 'Contract Price' shall mean the lump-sum price quoted by the Contractor in his bid with additions and/or deletions as may be agreed and incorporated in the Letter of Award and the contract agreement for the entire scope of the works.

1.11 The term 'Erection Portion' of the Contract price shall mean the value of field activities of the works including erection, testing and putting into satisfactory operation including successful completion of performance and guarantee tests to be performed at Site by the Contractor including cost of insurances.

1.12 Site Engineer 'Inspector' shall mean the owner's Engineers or any person nominated by the time to inspect the equipment; stores or Works under the Contract and/or the duly authorized representative of the Owner.

1.13 'Notice of Award of Contract'/'Letter of Award'/'Telex of Award' shall mean the official notice issued by the Owner notifying the Contractor that his bid has been accepted.

1.14 'Order' shall mean the official letter issued by the Owner informing the acceptance of the bid.

1.15 'Date of Contract' shall mean the date on which letter of commencement of work issued by the respective sub division deputy engineer.

1.16 'Month' shall mean the calendar month. 'Day' or 'Days' unless herein otherwise expressly defined shall mean calendar day or days of 24 hours each.
A 'Week' shall mean continuous period of seven (7) days.

1.17 Writing' shall include any manuscript, type written or printed statement, under or over signature and/or seal as the case may be.

1.18 When the words 'Approved', 'Subject to Approval', 'Satisfactory', 'Equal to', 'Proper', 'Requested', 'As Directed', 'Where Directed', 'When Directed', 'Determined by', 'Accepted', 'Permitted', or words and phrases of like importance are used the approval, judgment, direction etc. is understood to be a function of the Owner/Engineer.

1.19 Test on completion shall mean such tests as prescribed in the Contract to be performed by the Contractor before the work is taken over by the Owner.

1.20 'Performance and Guarantee Tests', shall mean all operational checks and tests required to determine and demonstrate capacity, efficiency, and operating characteristics as specified in the Contract Documents.

1.21 The term 'Final Acceptance'/'Taking Over' shall mean the Owner's written acceptance of the Works performed under the Contract, after successful commissioning/completion of Performance and Guarantee Tests, as specified in the accompanying Technical Specifications or otherwise agreed in the Contract.

1.22 'Guarantee Period' shall mean the period during which the Contractor shall remain liable for repair or replacement of any defective part of the works performed under the Contract.

1.23 'Latent Defects' shall mean such defects caused by faulty designs, material or work-man- ship which cannot be detected during inspection, testing etc, based on the technology available for carrying out such tests.

1.24 'Drawing', 'Plans, shall mean all:

a) Drawings furnished by the Owner to the Contractor during before execution of work / the progress of the work; and

b) Engineering data and drawings submitted by the Contractor during the progress of the work provided such drawings are acceptable to the Engineer/Owner after duly approved.

1.25 'Codes' shall mean the following including the latest amendments and/or replacements, if any:

a) Indian Electricity Act, 1905 and Rules and Regulations made there under.
b) Electricity Act 2003 and Rules & Regulations made there under.
c) Indian Factory Act, 1948 and Rules and Regulations made there under.
d) Indian Explosives Act, 1884 and Rules and Regulations made there under.
e) Indian Petroleum Act, 1934 and Rules and Regulations made there under.
f) A.S.M.E. Test Codes.
g) A.I.E.E. Test Codes.
h) American Society of Materials Testing Codes.
i) Standards of the Indian Standards Institution.
j) Other Internationally approved standards and/or rules and regulations touching the subject matter of the Contract.

1.26 Words imparting the singular only shall also include the plural and vice –versa where the context so requires.

1.27 Words imparting 'Person' shall include firms, companies, corporations and associations or bodies of individuals, whether incorporated or not.

1.28 Terms and expressions not herein defined shall have the same meaning as are assigned to them in the Indian Sale of Goods Act (1930), failing that in the Indian Contract Act (1872) and failing that in the General Clauses Act (1897) including amendments thereof, if any.

Or

1.29 In addition to the above the following definitions shall also apply.

a) 'All equipment and materials' to be supplied shall also mean 'Goods'.
b) 'Constructed' shall also mean 'erected and installed'.
c) 'Contract Performance Guarantee' shall also mean 'Contract Performance Security'.

1.30 GST / Cess means all applicable tax / cess under GST Laws ,GST laws means IGST Act, GST (compensation to the state for loss of Revenue) Act, CGST Act, UTGST Act & SGSCT Act, 2017 and all related ancillary legislations.

1.31 Works contract means a contract for composit supply & covered under the definition of works contract as defined under section 2 (119) , of the CGST act , 2017 or SGST act ,2017 & similar provisions, applicable under the UTGST act, 2017 & the IGST act , 2017.

2.0 APPLICATION

These General Conditions shall apply to the extent that they are not superseded by provisions in other parts of the Contract.

3.0 STANDARDS

The works carried out under this Contract shall conform to the all statutory regulation and provisions the acts, mentioned in the Technical Specifications, and, when no regulations or standard is mentioned, to the authoritative regulations or standards/ Act, appropriate to the works and such stipulations shall be the latest issued by the concerned institution.

4.0 LANGUAGE AND MEASURES

All documents pertaining to the Contract including specifications, schedules, notices, correspondences, operating and maintenance instructions, drawings or any other writing shall be written in English language. The Metric System of measurement shall be used exclusively in the Contract.

5.0 CONTRACT DOCUMENTS

5.1 The term Contract Documents shall mean and include the following which shall be deemed to form an integral part of the Contract:

a) Invitation to Bid including letter forwarding the Bidding Documents, Instructions to Bidders, General Terms and Conditions of Contract and all other documents included under Volume- I and the Special Conditions of Contract.
b) Specifications of the erection of the equipments and other technical services to be provided under the Contract as brought out in the accompanying Technical Specifications.
c) Contractor's Bid Proposal and the documents attached there to including the letters of clarifications thereto between the Contractor and the Owner prior to the Award of Contract except to the extent of repugnancy.
d) All the materials, literature, data and information of any sort given by the Contractor along with his bid, subject to the approval of the Owner /Consultant.
e) Letter of Award and any agreed variations of the conditions of the documents and special terms and conditions of Contract, if any.

5.2 In the event of any conflict between the above mentioned documents the matter shall be referred to the Engineer whose decision shall be considered as final and binding upon the parties.

6.0 USE OF CONTRACT DOCUMENTS AND INFORMATION

6.1 The Contractor shall not, without the Owner's prior written consent, disclose the Contract, or any provision thereof, or any specification, plan, drawing, pattern, sample or information furnished by or on behalf of the Owner in connection therewith, to any person other than a person employed by the Contractor in the performance of the Contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for the purpose of such performance.

6.2 The Contractor shall not, without the Owner's prior written consent, make use of any document or information enumerated in various Contract documents except for the purpose of performing the Contract.

6.3 The Contractor shall not communicate or us in advertising, publicity, sales releases or in any other medium, photographs or other reproduction of the Works under this Contract, or descriptions of the site, dimensions, quantity, quality or other information, concerning the works unless prior written permission has been obtained from the Owner.

6.4 Any document, other than the Contract itself, enumerated in various Contract documents shall remain the property of the Owner and shall be returned (in all copies) to the Owner on completion of the Contractor's performance under the Contract if so required by the Owner.

7.0 CONSTRUCTION OF THE CONTRACT

7.1 Notwithstanding anything stated elsewhere in the bid documents, the Contract to be entered into will be treated as a single Contract.
Award shall be placed on the successful Bidder as follows:

For providing services like inland transportation, insurance for delivery at site, unloading, storage, handling at site, installation, testing and commissioning including performance testing in respect of all the equipment material equipment/materials given by the owner after observing standard store procedures for transport from owner's stores, insurance, unloading storage handling at site installation testing & commissioning.

7.2 In case erection Contract, or where the Owner hands over his equipment to the Contractor for executing, then the Contractor shall at the time of taking delivery of the equipment/dispatch documents be required to execute an Indemnity Bond in favor of the Owner in the form acceptable to the SE(TR) GETCO Jambuva for keeping the equipment in safe custody and to utilize the same exclusively for the purpose of the said Contract. Samples of Performa for the Indemnity Bond will be furnished during award of Contract.

7.3 The Contract shall in all respects be construed and governed according to Indian Laws.

7.4 It is clearly understood that the total consideration for the Contract(s) has been broken up into various components only for the convenience of payment under the Contract(s) and for the measurement of deviations or modifications under the Contract(s).

8.0 JURISDICTION OF CONTRACT

8.1 The laws applicable to the Contract shall be the laws in force in India. The Courts of Vadodara shall have exclusive jurisdiction in all matters arising under this Contract.

9.0 EXECUTION OF CONTRACT:

9.1 The Owner, after the issue of the Letter of Award to the Contractor, will send one copy of the final agreement to the Contractor for his scrutiny and approval.

9.2 The Agreement, unless otherwise agreed to, shall be signed within 10 days of the acceptance of the Letter of Award, at the office the Owner at Jambuva on a date and time to be mutually agreed. The Contractor shall

provide for signing of the Contract, Performance Guarantee, appropriate power of attorney and other requisite materials. In case the Contract is to be signed beyond the stipulated time, the Bid Guarantee submitted with the Proposal will have to be extended accordingly.

9.3 The Agreement will be signed in copies to be specified and the Contractor shall be provided with one signed original and the rest will be retained by the Owner.

9.4 The Contractor shall provide free of cost to the Owner all the Engineering data, drawings, and descriptive materials submitted with the bid, to form a part of the Contract immediately after issue of Letter of Award

9.5 Subsequent to signing of the Contract, the Contractor at his own cost shall provide the Owner with copies of agreement within fifteen (15) days after the signing of the Contractor.

10.0 ENFORCEMENT OF TERMS

10.1 The failure of either party to enforce at any time any of the provisions of this Contract or any rights in respect thereto or to exercise any option therein provided, shall in no way be construed to be a waiver of such provisions, rights or options or in any way to affect the validity of the Contract. The exercise by either party of any of its rights herein shall not preclude or prejudice either party from exercising the same or any other right it may have under the Contract.

11.0 COMPLETION OF CONTRACT

11.1 Unless otherwise terminated under the provisions of any other relevant clause, this Contract shall be deemed to have been completed on the expiry of the guarantee period as provided for under the clause entitled 'Guarantee' in this section of the Volume-I.

B. GUARANTEES & LIABILITIES

12.0 TIME – THE ESSENCE OF CONTRACT

12.1 The time and the date of completion of the Contract as stipulated in the Contract by the Owner without or with modifications, if any, and so incorporated in the Letter of Award, shall be deemed to be the essence of the Contract. The Contractor shall so organize his resources and perform his work as to complete it not later than the date agreed to.

12.2 The Contractor shall submit a detailed bar chart within the time frame agreed consisting of adequate number of activities covering various key phases of the work such as field erection activities within five (5) days of the date of Notification of Award. This network shall also indicate the interface facilities to be provided by the Owner and the dates by which such facilities are needed. The Contractor shall discuss the network so submitted with the Owner and the agreed network shall form part of the Contract documents. During the performance of the Contract, if in the opinion of the Engineer, proper progress is not maintained, suitable changes shall be made in the Contractor's operations to ensure proper progress without any cost implication to the Owner. The interface facilities to be provided by the Owner in accordance with the agreed network shall also be reviewed while reviewing the progress of the Contractor.

12.3 Based on the above agreed network/bar chart fortnightly reports shall be submitted by the Contractor as directed by the Engineer.

12.4 Subsequent to the finalization of the network, the Contractor shall make available to the Engineer a detailed program in line with the agreed Contract network. Such program shall be reviewed, updated and submitted to the Engineer every month thereafter.

12.5 The above bar charts/ program shall be compatible with the Owner's computer environment and furnished to the Owner on such media as may be desired by the Owner.

13.0 EFFECTIVENESS OF CONTRACT

The Contract shall be considered as having come into force from the date of the commencement given by the respective construction sub division unless otherwise provided in the notification of award.

14.0 PENALTY FOR DELAY

14.1 If the Contractor fails to successfully complete the work within the time fixed under the Contract, the Contractor shall pay to the Owner as penalty a sum specified for each specified period of delay. The details of such penalty are brought out in the accompanying Special Conditions of Contract (SCC).

14.2 Any delay that may take place in work execution beyond Contractual cutoff date stated as per stipulated delivery period shall be subject to the penalty at the rate of ½ % of the delayed work value plus applicable taxes (if any) per week or part thereof, with a ceiling of 10 % of the total contract value plus applicable taxes (if any), detailed in the Special Conditions of Contract (SCC).

14.3 In event of failure of the Contractor to pay the amount of Penalty as demanded, the Owner shall be entitled to deduct the amount of Penalty for delay from the amounts payable to the Contractors under any bills raised under this contract or any other contract with the GUVNL and its Subsidiary Companies i.e. GETCO,

GUVNL, GSECL, MGVCL, DGVCL, PGVCL UGVCL. It is permissible for the Owner to adjust the amount of Penalty of delay against any Bank Guarantee furnished by the Contractor under this contract or any other contract with GUVNL and/or its subsidiary companies.

14.4 The penalty will be deducted from bills payable either against this contract or from any Bank Guarantee or any other amount payable under any other contract with the GETCO.

15.0 GUARANTEE

15.1 In the event of any emergency where in the judgment of the Engineer, delay would cause serious loss or damages, repairs or adjustment may be made by the Engineer or a third party chosen by the Engineer without advance notice to the Contractor and the cost of such work shall be paid by the Contractor. In the event such action is taken by the Engineer, the Contractor will be notified promptly and he shall assist wherever possible in making necessary corrections. This shall not relieve the Contractor of his liabilities under the terms and conditions of the Contract.

15.3 If it becomes necessary for the Contractor to rectify or renew any defective portions of the works the provision of this clause shall apply to portion of the works so rectified or corrected until the expiry of **twelve(12) months** from the date of such rectification or correction. If any defects are not rectified within a reasonable time, the Engineer may proceed to do the work at the Contractor's risk and cost but without prejudice to any other rights which the Owner may have against the Contractor in respect of such defects.

15.4 The rectification or correction of the work will be carried out free of cost by the Contractor. If any rectification or correction is carried out on his behalf at the site, the Contractor shall bear the cost of such rectification or correction.

15.5 The acceptance of the works by the Engineer shall in no way relieve the Contractor of his obligations under this clause.

15.6 At the end of the guarantee period, the Contractor's liability ceases except for latent defects. For latent defects, the Contractor's liability as mentioned in Clause Nos. 15.1 through 15.5 above, shall remain till the end of 6 months from the date of completion of guarantee period.

15.7 It is the responsibility of the contractor to handover the complete work free of all defects. If within a period of **one year** from the date of handing over the work it is noticed that any defects occurs due to bad workmanship, it is the duty of the contractor to rectify / replace the same at his own cost. If within seven days from the date of receipt of such notice, the contractor does not take up the work, same will be carried out at his risk and cost.

16.0 TAXES, PERMITS & LICENCES

The Contractor shall be liable and pay all non-Indian taxes, duties, levies lawfully assessed against the Owner or the Contractor in pursuance of the Contract. In addition the Contractor shall be responsible for payment of all Indian duties **including GST**, levies and taxes lawfully assessed against the Contractor for his personal income & property only.

17.0 DEFENCE OF SUITS

If any action in court is brought against the Owner or Engineer or an officer or agent of the Owner, for the failure, omission or neglect on the part of the Contractor to perform any acts, matters, covenants or things under the Contract, or for damage or injury caused by the alleged omission or negligence on the part of the Contractor, his agents, representatives or his Sub-Contractors, or in connection with any claim based on lawful demands of Sub-Contractors, workmen, suppliers or employees, the Contractor shall in all such cases indemnify and keep the Owner, and the Engineer and/or his representative, harmless from all losses, damages, expenses or decrees arising of such action.

18.0 LIMITATION OF LIABILITIES

The final payment by the Owner in pursuance of the Contract shall mean the release of the Contractor from all his liabilities under the Contract. Such final payment shall be made only at the end of the Guarantee/Warranty period or after finalization of material account and final bill and till such time as the Contractual liabilities and responsibilities of the Contractor, shall prevail. All other payments made under the Contract shall be treated as on-account payments.

19.0 ENGINEER'S DECISION

19.1 In respect of all matters which are left to the decision of the Engineer including the granting or with-holding of the certificates, the Engineer shall, if required to do so by the Contractor, give in writing a decision thereon.

19.2 If, in the opinion of the Contractor, a decision made by the Engineer is not in accordance with the meaning and intent of the Contract, the Contractor may file with the Engineer, within fifteen (15) days after receipt of the decision, a written objection to the decision.

Failure to file an objection within the allotted time will be considered as an acceptance of the Engineer's decision and the decision shall become final and binding.

19.3 The Engineer's decision and the filing of the written objection thereto shall be a condition precedent to the right to request arbitration. It is the intent of the Agreement that there shall be no delay in the execution of the works and the decision of the Engineer as rendered shall be promptly observed.

20.0 POWER TO VARY OR OMIT WORK

20.1 No alterations, amendments, omissions, suspensions or variations of the Works (hereinafter referred to as 'variation') under the Contract as detailed in the Contract Documents, shall be made by the Contractor except as directed in writing by the Engineer, but the Engineer shall have full powers subject to the provisions hereinafter contained, from time to time during the execution of the Contract, by notice in writing to instruct the Contractor to make such variation without prejudice to the Contract. The Contractor shall carry out such variation and be bound by the same conditions as far as applicable as though the said variations occurred in the Contract Documents. If any suggested variations would, in the opinion of the Contractor, if carried out, prevent him from fulfilling any of his obligations or guarantees under the Contract, he shall notify the Engineer thereof in writing and the Engineer shall decide forthwith whether or not, the same shall be carried out and if the Engineer confirms his instructions, the Contractor's obligations and guarantees shall be modified to such an extent as may be mutually agreed. Any agreed difference in cost occasioned by any such variation shall be added to or deducted from the Contract Price as the case may be.

20.2 In the event of Engineer requiring any variation, a reasonable and proper notice shall be given to the Contractor to enable him to work his arrangement accordingly, and in cases where goods or materials are already prepared or any design, drawings or pattern made or work done as per the contract requires to be altered, a reasonable and agreed sum in respect thereof shall be paid to the Contractor.

20.3 In any case in which the Contractor has received instructions from the Engineer as to the requirement of carrying out the alterations or additional or substituted work which either then or later on, will in the opinion of the Contractor, involve a claim for additional payment, the Contractor shall immediately and in no case later than thirty (30) days, after receipt of the instructions aforesaid and before carrying out the instructions, advise the Engineer to that effect. But the Engineer shall not become liable for payment of any charges in respect of any such variations, unless the instructions for the performance of the same shall be confirmed in writing by the Engineer.

20.4 If any variation in the Works results in reduction of Contract Price, the parties shall agree, in writing, so to the extent of any change in the price, before the Contractor proceeds with the change.

20.5 In all the above cases, in the event of a disagreement as to the reasonableness of the said sum, the decision of the Engineer shall prevail.

20.6 Notwithstanding anything stated above in this clause, the Engineer shall have the full power to instruct the Contractor, in writing, during the execution of the Contract to vary the quantities of the items or groups of items in accordance with the provisions of clause entitled 'Change of Quantity' in section GCC of this Volume-I. The Contractor shall carry out such variations and be bound by the same conditions as though the said variations occurred in the Contract Documents. However, the Contract Price shall be adjusted at the rates and the prices provided for the original quantities in the Contract.

21.0 ASSIGNMENT AND SUB-LE TTING OF CONTRACT:

No subletting of contract is allowed. Contractor should carry out work on his own under his or his authorized supervisor and by labours employed by him.

22.0 CHANGE OF QUANTITY

22.1 During the execution of the Contract, the Owner reserves the right to increase or decrease the quantities of items under the Contract but without any change in unit price or other terms & conditions. Such variations unless otherwise specified in the accompanying Special Conditions of Contract and/or Technical Specifications, shall not be subjected to any limitation for the individual items but **the total variations in all such items under the Contract shall be limited to a percentage of the Contract price as specified in the Special Conditions of Contract.**

22.2 The Contract price shall accordingly be adjusted based on the unit rates available in the Contract for the change in quantities as above. The base unit rates, as identified in the Contract shall however remain constant during the currency of the Contract, except as provided for in Clause 33.0 below. In case the unit rates are not available for the change in quantity, the same shall be subjected to mutual agreement.

23.0 COOPERATION WITH OTHER CONTRACTORS AND CONSULTING ENGINEERS

The Contractor shall agree to cooperate with the Owner's other Contractors and Consulting Engineers and freely exchange with them such technical information as is necessary to obtain the most efficient and economical design and to avoid unnecessary duplication of efforts. The Engineer shall be provided with three copies of all correspondence addressed by the Contractor to other Contractors and Consulting Engineers of the Owner in respect of such exchange of technical information, wherever needed.

24.0 NO WAIVER OF RIGHTS

Neither the inspection by the Owner or the Engineer or any of their officials, employees, or agents nor any order by the Owner or the Engineer for payment of money or any payment for or acceptance of, the whole or any part of the Works by the Owner or the Engineer, nor any extension of time, nor any possession taken by the Engineer shall operate as a waiver of any provision of the Contract, or of any power herein reserved to the Owner or any right to damages herein provided nor shall any waiver of any breach in the Contract be held to be a waiver of any other or subsequent breach.

25.0 CERTIFICATE NOT TO AFFECT RIGHT OF OWNER AND LIABILITY OF THE CONTRACTOR.

No interim payment certificate of the Engineer, nor any sum paid on account by the Owner, nor any extension of time for execution of the Works granted by the Engineer shall affect or prejudice the rights of the Owner against the Contractor or relieve the Contractor of his obligation for the due performance of the Contract, or be interpreted as approval of the Works done or of the equipment furnished and no certificate shall create liability for the Owner to pay for alterations, amendments, variations or additional works not ordered, in writing , by the Engineer or discharge the liability of the Contractor for the payment of damages whether due, ascertained, or certified or not or any sum against the payment of which he is bound to indemnify the Owner, nor shall any such certificate nor the acceptance by him of any sum paid on account or otherwise affect or prejudice the rights of the Owner against the Contractor.

26.0 PROGRESS REPORTS

During the various stages of the work in pursuance of the Contract, the Contractor shall at his own cost submit periodic progress reports as may be reasonably required by the Engineer with such materials as, charts, net-works, photographs, test certificates, etc. Such progress reports shall be in the form and size as may be required by the Engineer.

27.0 BAR CHARTS

The Bidder shall furnish along with the bid, the bar charts and project schedules indicating starting and completion dates of each activity. This is mandatory condition the tenders without which shall be liable to be rejected.

28.0 TAKING OVER

Upon successful completion of work of erection of tower line by the Contractor, the Engineer shall issue to the Contractor a completion Certificate as a proof of the final acceptance of the erected line. Such certificate shall not unreasonably be withheld nor will the Engineer delay the issuance thereof on account of minor omissions or defects which do not affect the commercial operation and/or cause any serious risk to the erected line. Such certificate shall not relieve the Contractor of any of his obligations which otherwise survive, by the terms and conditions of the Contract after issue of such certificate.

C. CONTRACT SECURITY AND PAYMENTS

29.0 CONTRACT PERFORMANCE GUARANTEE

The Contractor shall furnish Contract Performance Guarantee(s) for the proper fulfillment of the Contract in the prescribed form within fifteen (15) days of “Notice of Award of Contract”. The performance guarantee(s) shall be as per terms prescribed.

30.0 PAYMENT

30.1 The payment to the Contractor for the performance of the works under the Contract will be made by the Owner as per the guidelines and conditions specified herein. All payments made during the Contract shall be on account payments only. The final payment will be made on completion of all Works and on fulfillment by the Contractor of all his liabilities under the Contract.

30.2 Currency of Payment

All payments under the Contract shall be in Indian Rupees only.

30.3 Terms.

Payment terms will be as prescribed in the special conditions of contract and on fulfillment of conditions specified thereof.

31.0 Payment Schedule:

31.1 Application for Payment

31.2 The Contractor shall submit application for the payment in the prescribed proforma of the Owner. Performa for application for payment will be as prescribed.

31.3 Each such application shall state the amount claimed and shall set forth in detail, in the order of the Payment Schedule, particulars of the Works including the Works executed at Site and of the equipment shipped/brought on to the site pursuant to the Contract up to the date mentioned in the application and for the period covered since the last preceding certificate, if any.

31.4 Every interim payment certificate shall certify the Contract value of the Works executed up to the date mentioned in the application for the payment certificate, provided that no sum shall be included in any interim payment certificate in respect of the works that, according to the decision of the Engineer, does not comply with the Contract.

31.5 Mode of Payment

Payment due on completion of work shall be made by the Owner through Owner's Bank or directly to the Contractor as per the payment schedule.

31.6 All payments under the Contract shall be made as stipulated in the Special Conditions of Contract after signing the Contract Agreement.

Progressive payments linked with erection shall only be made after the issue of certificates by the Engineer, one for the quantum of work completed and the other for the successful completion of quality check points involved in the quantum of work billed.

32.0 DEDUCTIONS FROM CONTRACT PRICE

All costs, damages or expenses which the Owner may have paid, for which under the Contract the Contractor is liable, or any other retention award will be claimed by the Owner. All such claims shall be billed by the Owner to the Contractor regularly as and when they fall due. Such bills shall be supported by appropriate and certified vouchers or explanations, to enable the Contractor to properly identify such claims. Such claims shall be paid by the Contractor within thirty (30) days of the receipt of the corresponding bills and if not paid by the Contractor within the said period, the Owner may then deduct the amount, from any monies due or becoming due by him to the Contractor under the Contract or may be recovered by sections of Law or otherwise.

D. RISK DISTRIBUTION

33.0 INSURANCE

33.1 The Contractor at his cost shall arrange, secure and maintain all insurance as may be pertinent to the Works and obligatory in terms of law to protect his interest and interests of the Owner against all perils detailed herein. The form and the limit of such insurance as defined herein together with the under-writer in each case shall be acceptable to the Owner. However, irrespective of such acceptance, the responsibility to maintain adequate insurance coverage at all time during the period of Contract shall be of Contractor alone. The Contractor's failure in this regard shall not relieve him of any of his contractual responsibilities and obligations. The insurance covers to be taken by the Contractor shall be in the joint name of the Owner and the Contractor. The Contractor shall, however, be authorized to deal directly with Insurance Company or Companies and shall be responsible in regard to maintenance of all insurance covers. Further the insurance should be in freely convertible currency.

33.2 Any loss or damage to the material during handling, transportation, storage, erection, and all activities to be performed till the successful completion of commissioning of the line shall be to the account of the Contractor. The Contractor shall be responsible for preference of all claims and make good the damages or loss by way of repairs and/or replacement of the equipment, damaged or lost. The transfer of title shall not in any way relieve the Contractor of the above responsibilities during the period of Contract. The Contractor shall provide the Owner with copy of all insurance policies and documents taken out by him in pursuance of the Contract. Such copies of documents shall be submitted to the Owner immediately after such insurance coverage. The Contractor shall also inform the Owner in writing at least sixty (60) days in advance regarding the expiry/cancellation and/or change in any of such documents and ensure revalidation, renewal etc., as may be necessary well in time.

33.3 The perils required to be covered under the insurance shall include, but not be limited to fire and allied risks, miscellaneous accidents (erection risks) workman compensation risks, loss or damage in transit, theft, pilferage, riot and strikes and malicious damages, civil commotion, weather conditions, accidents of all kinds, etc. The scope of such insurance shall be adequate to cover the replacement/reinstatement cost of the equipment for all risks up to and including delivery of goods and other costs till the equipment is delivered at Site. The insurance policies to be taken should be on replacement value basis and/or incorporating escalation clause. Notwithstanding the extent of insurance cover and the amount of claim available from the underwriters, the Contractor shall be liable to make good the full replacement/rectification value of all equipment/materials and to ensure their availability as per project requirements.

33.4 All costs on account of insurance liabilities covered under the Contract will be on Contractor's account and will be included in Contract Price, However, the Owner may from time to time, during the pendency of the Contract, ask the Contractor in writing to limit the insurance coverage, risks and in such a case, the parties

to the Contract will agree for a mutual settlement, for reduction in Contract price to the extent of reduced premium amount. The Contractor, while arranging the insurance shall ensure to obtain all discounts on premium which may be available for higher volume or for reason of financing arrangement of the project.

33.5 The clause entitled 'Insurance' under the section ECC of this Volume-I, covers the additional insurance requirements for the portion of the works to be performed at the Site.

33.6 Special Conditions of Contract details out the various insurance liabilities.

34.0 LIABILITY FOR ACCIDENTS AND DAMAGES

Under the Contract, the Contractor shall be responsible for loss or damage to the plant until the successful completion of commissioning as defined elsewhere in the Bid document.

35.0 DELAYS BY OWNER OR HIS AUTHORISED AGENTS

35.1 In case the Contractor's performance is delayed due to any act of omission on the part of the Owner or his authorized agents, then the Contractor shall be given due extension of time for the completion of the Works, to the extent such omission on the part of the Owner has caused delay in the Contractor's performance of the Contract.

Regarding reasonableness or otherwise of the extension of time, the decision of the Engineer shall be final.

35.2 In addition, the Contractor shall be entitled to claim demonstrable and reasonable compensation if such delays have resulted in any increase in cost. The Owner shall examine the justification for such a request for claim and if satisfied, the extent of compensation shall be mutually agreed depending upon the circumstances at the time of such an occurrence.

36.0 DEMURRAGE, WHARFAGE, ETC.

All demurrage, warfare and other expenses incurred due to delayed clearance of the material or any other reason shall be to the account of the Contractor.

37.0 FORCE MAJEURE

37.1 Force majeure is herein defined as any cause which is beyond the control of the Contractor or the Owner as the case may be, which they could not foresee or with a reasonable amount of diligence could not have foreseen and which substantially affects the performance of the Contract, such as:

a. Natural phenomena, including but not limited to floods, droughts, earthquakes and epidemics;
b. Acts of any Government, domestic or foreign, including but not limited to war, declared or undeclared, priorities, guarantees, and embargoes.

Provided either party shall within fifteen (15) days from the occurrence of such a cause notify the other in writing of such causes.

37.2 The Contractor or the Owner shall not be liable for delays in performing his obligations resulting from any force majeure cause as referred to and/or defined above:

The date of completion will, subject to hereinafter provided, be extended by a reasonable time even though such cause may occur after Contractor's performance of obligation has been delayed due to other causes.

38.0 SUSPENSION OF WORK

38.1 The Owner reserves the right to suspend and reinstate execution of the whole or any part of the Works without invalidating the provisions of the Contract. Orders for suspension or reinstatement of the Works will be issued by the Engineer to the Contractor in writing. The time for completion of the works will be extended for a period equal to duration of the suspension.

38.2 Any necessary and demonstrable cost incurred by the Contractor as a result of such suspension of the works will be paid by the Owner, provided such costs are substantiated to the satisfaction of the Engineer. The Owner shall not be responsible for any liabilities if suspension or delay is due to some default on the part of the Contractor or his Sub-Contractor.

39.0 "RIGHTS OF THE OWNER:

Whenever any claim or claims for payment of a sum of money arises out of or under the contract against the Contractor, the Owner shall be entitled to withhold and also have a lien to retain such sum or sums in whole or in port from the security, If any, deposited by the Contractor and for the purpose aforesaid, the Owner shall be entitled to encash and withhold the amount of Performance Bank Guarantee or other security, if any, furnished as the case may be. The Owner shall also have a lien over the same pending finalization or adjudication of any such claim. In the event Of the security is insufficient to cover the claimed amount or amounts, the Owner shall be entitled to withhold and have lien to retain to the extent of the such claimed amount or amounts referred to above, from any sum or sums found payable or which at any time thereafter

may become payable to the Contractor under the same contract or any other contract with the Owner or GUVNL or its subsidiary companies pending finalization or adjudication of any such claim.

Lien in respect of Claims in other Contracts:

a) Any sum of money due and payable, to the Contractor (Including the security deposit) under the contract may be withheld or retained by way of lien by the Owner against any of its claim in respect of payment of a sum of money arising out of or under any other contract made by the Contractor with the Owner or GUVNL or any of its subsidiary companies.

b) It is on agreed that the sum of money so withheld or retained under this clause by the Owner will be kept withheld or retained as such by the Owner till its claim arising out of the same contract or any other contract is either mutually settled or determined by the arbitrator or competent court, as the case may be, and the Contractor shall have no claim for interest or damages whatsoever on this account or on any other ground in respect of any sum of money withheld or retained under this clause and as may be duly notified to the Contractor.

40.0 CONTRACTOR`S DEFAULT

40.1 If the Contractor shall neglect to execute the works with due diligence and expedition or shall refuse or neglect to comply with any reasonable order given to him, in writing by the Engineer in connection with the works or shall contravene the provisions of the Contract, the Owner may give notice in writing to the Contractor to make good the failure, neglect or contravention complained of. Should the Contractor fail to comply with the notice within thirty (30) days from the date of serving the notice, then and in such case the Owner shall be at liberty to employ other workmen and forthwith execute such part of the works as the Contractor may have neglected to do or if the Owner shall think fit, without prejudice to any other right he may have under the Contract to take the work wholly or in part out of the Contractor's hands and re-contract with any other person or persons to complete the works or any part thereof and in that event the Owner shall have free use of all Contractor's equipment that may have been at the time on the Site in connection with the works without being responsible to the Contractor for fair wear and tear thereof and to the exclusion of any right of the Contractor over the same, and If the sum that the contractor is entitled to be paid plus the costs incurred by the Owner in completing the works, exceeds the Contract Price or the entire works if entire works have been completed or the price for part of the work if part of the works have been completed, the Contractor shall be liable for such excess.

If such excess is greater than the sums due to the Contractor, the Contractor shall pay the balance to the Owner and if such excess is less than the sums due to the Contractor, Owner shall pay the balance to the Contractor. For facilitating such payment, Owner shall pay the balance to the contractor. For facilitating such payment, Owner shall encash the Bank Guarantees of Contactor available with Owner/s and retain such other payment due to the Contractor under the Contract in question or any other Contract that the Owner/s may have with the Contractor. Such payment of excess amount shall be independent of the liquidated damages for delay which the Contractor shall have to pay if the completion of works is delayed.

40.2 In addition, such action by the Owner as aforesaid shall not relieve the Contractor of his liability to pay liquidated damages for delay in completion of Works as defined in Clause 14.0 of this Section.

40.3 Such action by the Owner as aforesaid the termination of the Contract under this clause shall not entitle the Contractor to reduce the value of the Contract Performance Guarantee nor the time thereof. The Contract Performance Guarantee shall be valid for the full value and for the full period of the Contract including guarantee period.

41.0 TERMINATION OF CONTRACT ON OWNER`S INITIATIVE

41.1 The Owner reserves the right to terminate the Contract either in part or in full due to reasons other than those mentioned under clause entitled 'Contractor's Default'. The Owner shall in such an event give fifteen (15) days notice in writing to the Contractor of his decision to do so.

41.2 The Contractor upon receipt of such notice shall discontinue the work on the date and to the extent specified in the notice, make all reasonable efforts to obtain cancellation of all orders and Contracts to the extent they are related to the work terminated and terms satisfactory to the Owner, stop all further sub-contracting or purchasing activity related to the work terminated, and assist Owner in maintenance, protection, and disposition of the works acquired under the Contract by the Owner.

In the event of such a termination the Contractor shall be paid compensation, equitable and reasonable, dictated by the circumstances prevalent at the time of termination.

41.3 If the Contractor is an individual or a proprietary concern and the individual or the proprietor dies and if the Contractor is a partnership concern and one of the partners dies then unless the Owner is satisfied that the legal representatives of the individual Contractor or of the proprietor of the propriety concern and in the case of partnership, the surviving partners, are capable of carrying out and completing the Contract the Owner shall be entitled to cancel the Contract as to its incomplete part without being in any way liable to payment of any compensation to the estate of deceased Contractor and/or to the surviving partners of the Contractor's firm on account of the cancellation of the Contract. The decision of the Owner that the legal representatives of the deceased Contractor or surviving partners of the Contractor's firm cannot carry out and complete the Contract shall be final and binding on the parties. In the event of such cancellation the Owner shall not hold the estate of the deceased Contractor and/or the surviving partners of the estate of the deceased Contractor and/or the surviving partners of the Contractor's firm liable to damages for not completing the Contract.

42.0 FRUSTRATION OF CONTRACT

42.1 In the event of frustration of the Contract because of supervening impossibility in terms of Section 56 of the Indian Contract Act, parties shall be absolved of their responsibility to perform the balance portion of the Contract, subject to provisions contained in sub-clause 42.3 below.

42.2 In the event of non-availability or suspension of funds for any reasons, whatsoever (except for reason of willful or flagrant breach by the Owner) and/or Contractor then the works under the Contract shall be suspended.

Furthermore, if the Owner is unable to make satisfactory alternative arrangements for financing to the Contractor in accordance with the terms of the Contract within three months of the event, the parties hereto shall be relieved from carrying out further obligations under the Contract treating it as frustration of the Contract.

42.3 In the event referred to in sub-clauses 42.1 & 42.2 above the parties shall mutually discuss to arrive at reasonable settlement on all issues including amounts due to either party for the work already done on quantum merit basis which shall be determined by mutual agreement between the parties.

43.0 GRAFTS AND COMMISSIONS ETC.

Any graft, commission, gift or advantage given, promised or offered by or on behalf of the Contractor or his partner(s), agent(s), officer(s), director(s), employee(s) or servant(s) or any one on his or their behalf in relation to the obtaining or to the execution of this or any other Contract with the Owner, shall in addition to any criminal liability which it may incur, subject the Contractor to the cancellation of this and all other Contracts and also to payment of any loss or damage to the Owner resulting from any cancellation. The Owner shall then be entitled to deduct the amount so payable from any monies otherwise due to Contractor under the Contract.

E. RESOLUTION OF DISPUTES

44.0 SETTLEMENT OF DISPUTES

44.1 Any dispute(s) or difference(s) arising out of or in connection with the Contract shall, to the extent possible, be settled amicably between the parties.

44.2 If any dispute or difference of any kind, whatsoever, shall arise between the Owner and the Contractor, arising out of the Contract for the performance of the Works whether during the progress of the Works or after its completion or whether before or after the termination, abandonment or breach of the Contract, it shall, in the first place, be referred to and settled by the Engineer, who, within a period of thirty (30) days after being requested by either party to do so, shall give written notice of his decision to the Owner and the Contractor.

44.3 Save as hereinafter provided, such decision in respect of every matters so referred shall be final and binding upon the parties until the completion of the Works and shall forthwith be given effect to by the Contractor who shall proceed with the Works with all due diligence, whether he or the Owner requires arbitration as hereinafter provided or not.

44.4 If after the Engineer has given written notice of his decision to the parties, no claim to arbitration has been communicated to him by either party within thirty (30) days from the receipt of such notice, the said decision shall become final and binding on the parties.

44.5 In the event of the Engineer failing to notify his decision as aforesaid within thirty (30) days after being requested as aforesaid, or in the event of either the Owner or the Contractor being dissatisfied with any such decision, or within thirty (30) days after the expiry of the first mentioned period of thirty days, as the case may be, either party may require that the matters in dispute be referred to arbitration as hereinafter provided.

45.0 ARBITRATION

45.1 (1) Amicable Settlement

Any dispute, difference, controversy or claim between the Parties arising out of or relating to this contract with reference to the construction, interpretation, breach, termination or validity thereof (hereinafter referred as "the Dispute") shall, upon the written request of either Party be referred to the authorized representatives of the Disputing Parties for resolution. The authorized representatives shall promptly meet and attempt to negotiate in good faith a resolution of the Dispute within thirty days of the service of the request.

(2) Arbitration

If the parties fail to amicably resolve the disputes or differences or contrary claims as indicated herewith in sub clause (1) of Clause, arising under or in connection with the present works contracts, whether pertaining to works contracts alone or works and procurement both, the same shall be referred to arbitration under the Gujarat Public Works Contracts Disputes Arbitration Tribunal Act, 1992."

46.0 RECONCILIATION OF ACCOUNTS

The Contractor shall prepare and submit every two months, a statement covering payments claimed and the payments received vis-a-vis the works executed, for reconciliation of accounts with the Owner. The Contractor shall also prepare and submit a detailed account of Owner Issue materials received and utilized by him for reconciliation purpose in a format to be discussed & finalized with the Owner before the award of Contract.

47.0 TAKING DELIVERY AND INSURANCE

47.1 The contractor has to take delivery from construction store of Tower material, H-frame structure material, conductor & line material keeps S/S materials in safe custody and transport to the respective sites and will be fully responsible for any damage to or loss of all materials at any stage during transportation or erection or taking over of the line by GETCO.

47.2 The Contractor has to open site store and ensure for safe custody of all the stored materials at his own cost.

47.3 The Contractor shall have total responsibility for the entire tower & line materials stored, loose, semi assembled and/or erected by him at site in his custody. The Contractor shall make suitable security arrangements at his own cost to ensure the protection of all materials, equipment and works from theft, fire pilferage and any other damages and loss. It shall be the responsibility of the contractor to arrange for security till the works are finally taken over by the Corporation.

48.0 STORAGE-CUM-ERECTION INSURANCE:-

1 The contractor shall take suitable storage –cum-erection insurance cover at his cost to the extent of 100 % cost of Line or S/S materials, which are required to complete the Line or S/S, Bidder shall have to take the comprehensive Marine cum Erection (MCE) insurance policy against any loss, draft, damage, theft, pilferage, fire etc. for the complete period of storage, erection and commissioning up to the time of taking over the line or S/S by GETCO. **However, if the work is not completed within the stipulated time limit as mentioned into work order the MCE shall be extended by the contractor up to the work completion and taking over of the line or S/S by GETCO. Moreover, the charge for extension of insurance shall be borne by contractor if the delay is attributed to the contractor. The charge for extension of insurance shall be reimbursed by GETCO to the contractor on production of proof for extension of MCE if the delay is attributed on the part of GETCO.**

The contractor shall deal directly and pursue the claim with the Insurance company and shall be responsible in regard to maintenance of all insurance coverage as well as for settlement of claim. The proof of insurance policy taken by the successful contractor shall be furnished submitted to engineer-in-charge of GETCO.

No material shall be issued to bidder/erection agency in absence of such insurance policy. The risk shall be covered for lifting of materials from store to final handing over to GETCO. Further in absence of the above insurance policy, R.A. bill payment will be withheld.

2.2 Bidder shall note that storage cum erection insurance is to be taken amounting **Rs. 1.65 Crore** at his own cost to complete subjected work

2.3 In the event of any damage, theft, loss, pilferage, fire etc, Contractor will be responsible to lodge, pursue and settle all the claims with the insurance company for all items, materials and the corporation shall be kept informed about it. Contractor shall replace the lost/damaged materials/items promptly irrespective of the settlement of the claims by underwriter and ensure that the work progress is as per agreed schedule. The loss, if any, such replacement will have to be borne by the contractor and GETCO will not entertain any claim/representation in this regard. However it will be contractor's responsibility to insure the entire project till the line / sub-station or any other project / works is taken over by the GETCO.

2.4 During work duration, if any untoward incident took place and contractor claims the insurance then successful bidder will be bound to take new insurance policy having same amount for the balance period i.e up to due date of completion.

49.0 Termination of Contract:

In case of contractor fails to complete the transmission line work or part thereof within contractual period or in case the work is found not in accordance with prescribed specification the GETCO shall exercise its discretionary power either:

49.1 To recover, from the contractor as agreed, by way of penalty clause above applicable taxes (if any)

49.2 To get the work done other contractor after giving due notice to the contractor on account and at the risk of the contractor for such work executed or other similar description without canceling the contract in respect of the works not yet due for completion or

50.0 To cancel the contract.

In the event of the risk works of similar description, the opinion of the GETCO shall be final. In the event of action taken under clause (A) or (B) above, the contractor shall be liable to pay for any loss which the GETCO may sustain on that account, but the contractor shall not be entitled to have any saving on such purchases made against default.

The decision of the GETCO shall be final as regards to the acceptability of stores supplied by the contractor and the GETCO shall not be required to give any reason in writing or otherwise at any time for rejection of the stores.

51.0 LABOUR LAWS:

PART-I (ECC)
ERECTION CONDITIONS OF CONTRACT

1.0 GENERAL

1.1 The following shall supplement the conditions already contained in other parts of these specifications & document and shall govern the portion of the work of this Contract to be performed at Site.

1.2 The Contractor upon signing of the Contract shall, nominate a responsible officer as his representative at Site suitably designated for the purpose of overall responsibility and coordination of the works to be performed at Site. Such person shall function from the Site office of the Contractor during the pendency of Contract.

2.0 REGULATION OF LOCAL AUTHORITIES AND STATUTES

2.1 The Contractor shall comply with all the rules and regulations of local authorities during the performance of his field activities. He shall also comply with the Minimum Wages Act, 1948 and the Payment of Wages Act (both of the Government of India) and the rules made there under in respect of any employee or workman employed or engaged by him or his Sub-Contractor. He shall abide by labour laws and others as specified in the special conditions of contract.

2.2 All initial registration and statutory inspection fees, if any, in respect of his work pursuant to this Contract shall be to the account of the Contractor. Should any such inspection or registration need to be re-arranged due to the fault of the Contractor or his Sub Contractor, the additional fees to such inspection and/or registration also shall be borne by the Contractor.

3.0 OWNER'S LIEN ON EQUIPMENT

The Owner shall have lien on all tower, H-frame, Stringing and other line material brought to the Site for the purpose of erection, testing and commissioning of the line to be erected under the Contract. The Owner shall continue to hold the lien on all such material throughout the period of Contract. No material brought to the Site shall be removed from the Site by the Contractor and/or his Sub-Contractors without the prior written approval of the Engineer.

4.0 CONTRACTOR'S SITE ESTABLISHMENT

The Contractor shall at all times keep posted an authorized representative for the purpose of the Contract. Any written order or instruction of the Engineer or his duly authorized representative shall be communicated to the said authorized resident representative of the Contractor and the representative shall be available at a stated address for this purpose.

5.0 ACCESS TO SITE AND WORKS ON SITE

5.1 Suitable access to and possession of the Site shall be afforded to the Contractor by the Owner in reasonable time.

5.2 The works so far as it is carried out on the Owner's premises, shall be carried out at such time as the Owner may approve and the Owner shall give the Contractor reasonable facilities for carrying out the works.

5.3 In the execution of the works, no person other than the Contractor or his duly appointed representative, Sub- Contractor and workmen, shall be allowed to do work on the Site,except by the special permission, in writing of the Engineer or his representative.

6.0 CO-OPERATION WITH OTHER CONTRACTORS

6.1 The Contractor shall co-operate with all other Contractors or tradesmen of the Owner, who may be performing other works on behalf of the Owner and the workmen who may be employed by the Owner and doing work in the vicinity of the Works under the Contract. The Contractor shall also so arrange to perform his work as to minimize, to the maximum extent possible, interference with the work of other Contractors and their workmen. Any injury or damage that may be sustained by the employees of the other Contractors and the Owner, due to the Contractor's work shall promptly be made good at the Contractor's own expense.

7.0 DISCIPLINE OF WORKMEN

The Contractor shall adhere to the disciplinary procedure set by the Engineer in respect of his employees and workmen at Site. The Engineer shall be at liberty to object to the presence of any representative or employee of the Contractor at the Site, if in the opinion of the Engineer such employee has misconduct himself or is incompetent or negligent or otherwise undesirable and then the Contractor shall remove such a person objected to and provide in his place a competent replacement.

8.0 CONTRACTOR'S FIELD OPERATION

8.1 The Contractor shall keep the Engineer informed in advance regarding his field activity plans and schedules for carrying-out each part of the works. Any review of such plan or schedule or method of work by the Engineer shall not relieve the Contractor of any of his responsibilities towards the field activities. Such reviews shall also not be considered as an assumption of any risk or liability by the Engineer or the Owner or any of his representatives and no claim of the Contractor will be entertained because of the failure or inefficiency of any such plan or schedule or method of work reviewed. The Contractor shall be solely responsible for the safety, adequacy and efficiency of plant and equipment and his erection methods.

8.2 The Contractor shall have the complete responsibility for the conditions of the Work-site including the safety of all persons employed by him or his Sub–Contractor and all the properties under his custody during the performance of the work. This requirement shall apply continuously till the completion of the Contract and shall not be limited to normal working hours.

9.0 PROGRESS REPORT

9.1 The Contractor shall furnish three (3) copies each to the Engineer of progress including if any, photographs of the work done at Site.

9.2 The monthly progress report detailing-out the progress achieved on all erection activities shall highlight comparison to the schedules. The report shall also indicate the reasons for the variance between the scheduled and actual progress and the action proposed for corrective measures, wherever necessary.

10.0 MAN-POWER REPORT

10.1 The Contractor shall submit to the Engineer, on the first day of every month, a man hour's schedule for the month, detailing the man hours scheduled for the month, skill-wise and area-wise.

11.0 PROTECTION OF WORK

The Contractor shall have total responsibility for protecting his works till it is finally taken over by the Engineer. No claim will be entertained by the Owner or by the Engineer for any damage or loss to the Contractor's works and the Contractor shall be responsible for complete restoration of the damaged works to original conditions to comply with the specification and drawings.

12.0 EMPLOYMENT OF LABOUR

12.1 The Contractor will be expected to employ on the work only his regular skilled employees with experience of his particular work. No person below the age of eighteen years shall be employed.

12.2 All traveling expenses including provisions of necessary transport to and from Site, lodging, allowances and other payments to the Contractor's employees shall be the sole responsibility of the Contractor.

12.3 In case the Owner becomes liable to pay any wages or dues to Labour or any Government agency under any of the provisions of the Minimum Wages Act, Workmen Compensation Act, Contract Labour Regulation Abolition Act or any other law due to act of omission of the Contractor, the Owner may make such payment and shall recover the same from the Contractor's bills.

13.0 FACILITIES TO BE PROVIDED BY THE OWNER

13.1 Space : Land for Contractor's Store, Workshop etc.

a) The Engineer shall at his discretion and for the duration of execution of the Contract make available at site, land for construction of Contractor's field office, workshop, stores,etc. required for execution of the Contract. Any such temporary construction shall be done by the Contractor at his cost.

b) On completion of work the Contractor shall hand over the land duly cleaned to the Engineer. Until and unless the Contractor has handed over the vacant possession of land allotted to him for the above purpose, the payment of his final bill shall not be made.

13.2 Electricity:

Power supply :

The concerned Executive Engineer shall apply for temporary connection at site.Sub-division paying required service charges & deposit.Such temporary connections to be released on the name of Contractor on recommendation of the concerned Executive Engineer. The power so consumed shall be charged at the prevailing tariff rate

14.0 FACILITIES TO BE PROVIDED BY THE CONTRACTOR

14.1 Tools, tackles and scaffoldings

The Contractor shall provide all the construction equipments; tools, tackles and scaffoldings required for pre-assembly, erection, of the Towers, H-frame, string, earthing etc, covered under the Contract. He shall submit a list of all such materials to the Engineer before the commencement of work at Site. These tools and tackles shall not be removed from the Site without the written permission of the Engineer.

14.2 First-aid

The Contractor shall provide necessary first-aid facilities for all his employees, representatives and workmen working at the Site. Enough number of Contractor's personals shall be trained in administering first-aid.

14.3 Cleanliness

The Contractor shall be responsible for keeping the entire area allotted to him clean and free from rubbish, debris etc. during the period of Contract. The Contractor shall employ enough number of personnel to keep the work area clean. Materials and stores shall be so arranged to permit easy cleaning of the area. In areas where equipment might drip oil and cause damage to the floor surface, a suitable protective cover of a flame resistant, oil proof sheet shall be provided to protect the floor from such damage.

15.0 LINES AND GRADES

All the works shall be performed to the lines, grades and elevations indicated on the drawings. The Contractor shall be responsible to locate and lay-out the works. Basic horizontal and vertical control points will be established and marked by the Engineer at site at suitable points. These points shall be used as datum for the works under the Contract. The Contractor shall inform the Engineer well in advance of the times and places at which he wishes to do work in the area allotted to him so that suitable datum points may be established and checked by the Engineer to enable the Contractor to proceed with his works. Any work done without being properly located may be removed and/or dismantled by the Engineer at Contractor's expense.

16.0 FIRE PROTECTION

16.1 The work procedures that are to be used during the erection shall be those, which minimize fire hazards to the extent practicable. Combustible materials, combustible waste and rubbish shall be collected and removed from the Site at least once each day. Fuels, oils and volatile or inflammable materials shall be stored away from the construction and equipment and materials storage areas.

16.2 All the Contractor's supervisory personnel and select number of workers shall be trained for fire fighting. Enough of such trained personnel must be available at the Site during the entire period of the Contract.

17.0 SECURITY

The Contractor shall have total responsibility for all equipment and materials in his custody/stores, loose, semi-assembled and/or erected by him at Site. The Contractor shall make suitable security arrangements ensure the protection of all materials, equipment and works from theft, fire, pilferage and any other damages and loss.

18.0 MATERIALS HANDLING AND STORAGE

18.1 All the material furnished under the Contract and arriving at Site shall be promptly received, unloaded, transported and stored in the storage spaces by the Contractor.

18.2 Contractor shall be responsible for examining all the shipment and notify the Engineer immediately of any damages, storage, discrepancy etc, for the purpose of Engineer's information only. The Contractor shall submit to the Engineer every week a report detailing all the receipts during the week. However, the Contractor shall be solely responsible for any shortages or damages in transit, handling and / or in storage and erection of the equipment at Site. Any demurrage, wharf age and other such charges claimed by the transporters, railways etc, shall be to the account of the Contractor.

18.3 The Contractor shall maintain an accurate and exhaustive record detailing out the list of all equipment materials received by him for the purpose of erection and keep such record open for the inspection of the Engineer in-charge.

18.4 All material shall be handled very carefully to prevent any damage or loss. The equipment stored shall be properly protected to prevent damage either to the equipment or to the floor where they are stored. The equipment from the store shall be moved to the actual location at the appropriate time so as to avoid damage of such equipment at Site.

18.5 All material shall be protected against moisture ingress and corrosion during storage and periodically inspected

18.6 The consumable and other supplies likely to deteriorate due to storage must be thoroughly protected and stored in a suitable manner to prevent damage or deterioration in quality by storage.

18.7 All the materials stored in the open or dusty location must be covered with suitable weatherproof and flame proof covering material wherever applicable.

18.8 If the materials belonging to the Contractor are stored in areas other than those earmarked for him, the Engineer will have the right to get it moved to the area earmarked for the Contractor at the Contractor's cost.

18.9 The Contractor shall be responsible for making suitable indoor storage facilities to store all equipment, which require indoor storage. Normally, all the electrical equipment such as motors, control gears, generators, exciters and consumables like electrodes, lubricants etc. shall be stored in the closed storage space. The Engineer, in addition, may direct the Contractor to move certain other materials, which in his opinion will require indoor storage, to indoor storage areas, which the Contractor shall strictly comply with.

19.0 CONSTRUCTION MANAGEMENT

19.1 The field activities of the Contractors working at Site will be coordinated by the Engineer and the Engineer's decision shall be final in resolving any disputes or conflicts between the Contractor and other Contractors and the tradesmen of the Owner regarding scheduling and coordination of work. Such decision by the Engineer shall not be a cause for extra compensation or extension of time for the Contractor.

19.2 The Engineer shall hold weekly meetings of the Contractor at Site, at a time and place to be designated by the Engineer. The Contractor shall attend such meetings and take notes of discussions during the meeting and the decision of the Engineer and shall strictly adhere to those decisions in performing his works. In addition to the above weekly meeting, the Engineer may call for other meetings either with individual Contractors or with selected number of Contractors and in such a case the Contractors if called, will also attend such meetings.

19.3 Time is the essence of the Contract and the Contractor shall be responsible for performance of his works in accordance with the specified construction schedule. If at any time, the Contractor is falling behind the schedule, he shall take necessary action to make good for such delays by increasing his work force or by working overtime or otherwise accelerate the progress of the work to comply with the schedule and shall communicate such actions in writing to the Engineer, satisfying that his action will compensate for the delay. The Contractor shall not be allowed any extra compensation for such action.

19.4 The Engineer shall, however, not be responsible for provision of additional labour and/or materials or supply or any other services to the Contractor except for the coordination work between various Contractors if any at site.

20.0 FIELD OFFICE RECORDS

The Contractor shall maintain up to date copies of all drawings, specifications and other Contract Documents and any other supplementary data complete with all the latest revisions thereto. The Contractor shall also maintain in addition the continuous record of all changes to the above Contract Documents, drawings, specifications, and supplementary data, etc. effected at the field and on completion of his total assignment under the Contract shall incorporate all such changes on the drawings and other Engineering data to indicate as installed conditions of the equipment furnished and erected under the Contract. Such drawings and Engineering data shall be submitted to the Engineer in required number of copies.

21.0 CONTRACTOR'S MATERIALS BROUGHT TO SITE

21.1 The Contractor shall bring to Site all materials, including construction equipment, tools and tackles for the purpose of the works under intimation to the Engineer. All such goods shall, from the time of their being brought vest in the Owner, but may be used for the purpose of the works only and shall not on any account be removed or taken away by the Contractor without the written permission of the Engineer. The Contractor shall nevertheless be solely liable and responsible for any loss or destruction thereof and damage thereto.

21.2 The Owner shall have a lien on such goods for any sum or sums which may at any time be due or owing to him by the Contractor, under, in respect of or by reasons of the Contract. After giving a fifteen (15) days notice in writing of his intention to do so, the Owner shall be at liberty to sell and dispose off any such goods, in such manner as he shall think fit and to apply the proceeds in or towards the satisfaction of such sum or sums due as aforesaid.

21.3 After the completion of the Works, the Contractor shall remove from the Site under the direction of the Engineer the materials such as construction equipment, erection tools and tackles, scaffolding etc. with the written permission of the Engineer.

22.0 PROTECTION OF PROPERTY AND CONTRACTOR'S LIABILITY

22.1 The Contractor shall be responsible for any damage resulting from his operations. He shall also be responsible for protection of all persons including members of public and employees of the Owner and the employees of other Contractors and Sub-Contractors and all public and private property.

23.0 INSURANCE

23.1 In addition to the conditions covered under the Clause entitled 'Insurance' in General Terms and Conditions of Contract of this Volume-I, the following provisions will also apply to the portion of works to be done beyond the Contractor's own or his Sub-Contractor's manufacturing Works.

23.2 **Workmen's Compensation Insurance**

This insurance shall protect the Contractor against all claims applicable under the Workmen's Compensation Act, 1948 (Government of India). This policy shall also cover the Contractor against claims for injury, disability, disease or death of his or his Sub-Contractor's employee, which for any reason are not covered under the Workmen's Compensation Act, 1948. The liabilities shall not be less than:

Workmen's : As per statutory

Compensation Provisions

Employee's Liability : As per statutory Provisions

23.3 **Comprehensive General Liability Insurance**
The insurance shall protect the Contractor against all claims arising from injuries, disabilities, disease or death of members of public or damage to property of others, due to any act of omission on the part of the Contractor, his agents, his employees, his representatives and Sub-Contractors or from riots, strikes and civil commotion.

23.4 The hazards to be covered will pertain to all the works and areas where the Contractor, his Sub-Contractors, his agents and his employees have to perform work pursuant to the Contract.

23.5 The above are only illustrative list of insurance covers normally required and it will be the responsibility of the Contractors to maintain all necessary insurance coverage to the extent both in time and amount to take care of all his liabilities either direct or indirect, in pursuance of the Contract.

24.0 UNFAVOURABLE WORKING CONDITIONS

The Contractor shall confine all his field operations to those works, which can be performed without subjecting the equipment and materials to adverse effects during inclement weather conditions, like monsoon, storms etc. and during other unfavorable construction conditions. No field activities shall be performed by the Contractor under conditions, which might adversely affect the quality and efficiency thereof, unless special precautions or measures are taken by the Contractor in a proper and satisfactory manner in the performance of such Works and with the concurrence of the Engineer. Such unfavorable construction conditions will in no way relieve the Contractor of his responsibility to perform the Works as per the schedule.

25.0 PROTECTION OF MONUMENTS AND REFERENCE POINTS

The Contractor shall ensure that any finds such as relic, antiquity, coins, fossils, etc. which he may come across during the course of performance of his Works either during excavation or elsewhere, are properly protected and handed over to the Engineer. Similarly, the Contractor shall ensure that the bench marks, reference points, etc, which are marked either with the help of Engineer or by the Engineer shall not be disturbed in any way during the performance of his Works. If any work is to be performed which disturbs such reference the same shall be done only after these are transferred to other suitable locations under the direction of the Engineer. The Contractor shall provide all necessary materials and assistance for such relocation of reference points etc.

26.0 WORK & SAFETY REGULATIONS

26.1 The Contractor shall ensure proper safety of all the workmen, materials, plant and equipment belonging to him or to GETCO or to others, working at the Site. The Contractor shall also be responsible for provision of all safety notices and safety equipment required both by the relevant legislations and the Engineer, as he may deem necessary.

26.2 All equipment used in construction and erection by Contractor shall meet Indian/International Standards and where such standards do not exist, the Contractor shall ensure these to be absolutely safe. All equipment shall be strictly operated and maintained by the Contractor in accordance with manufacturer's Operation Manual and safety instructions and as per Guidelines/rules of GETCO in this regard.

26.3 Periodical examinations and all tests for all lifting/hoisting equipment & tackles shall be carried-out in accordance with the relevant provisions of Factories Act 1948, Indian Electricity Act 1910 and associated Laws/Rules in force from time to time. A register of such examinations and tests shall be properly maintained by the Contractor and will be promptly produced as and when desired by the Engineer or by the person authorized by him.

26.4 The Contractor shall provide suitable safety equipment of prescribed standard to all employees and workmen according to the need.

26.5 The Contractor shall provide safe working conditions to all workmen and employees at the Site including safe means of access, railings, stairs, ladders, scaffoldings etc. The scaffoldings shall be erected under the control and supervision of an experienced and competent person. For erection, good and standard quality of material only shall be used by the Contractor.

26.6 The Contractor shall not interfere or disturb electric fuses, wiring and other electrical equipment belonging to the Owner or other Contractors under any circumstances, whatsoever, unless expressly permitted in writing by GETCO to handle such fuses, wiring or electrical equipment

26.7 Before the Contractor connects any electrical appliances to any plug or socket belonging to the other Contractor or Owner, he shall:

a. Satisfy the Engineer that the appliance is in good working condition;
b. Inform the Engineer of the maximum current rating, voltage and phases of the appliances;
c. Obtain permission of the Engineer detailing the sockets to which the appliances may be connected.

26.8 The Engineer will not grant permission to connect until he is satisfied that;

a. The appliance is in good condition and is fitted with suitable plug;
b. The appliance is fitted with a suitable cable having two earth conductors, one of which shall be an earthed metal sheath surrounding the cores.

26.9 No electric cable in use by the Contractor/Owner will be disturbed without prior permission. No weight of any description will be imposed on any cable and no ladder or similar equipment will rest against or attached to it.

26.10 No repair work shall be carried out on any live equipment. The equipment must be declared safe by the Engineer and a permit to work shall be issued by the Engineer before any repair work is carried out by the Contractor. While working on electric lines/equipment, whether live or dead, suitable type and sufficient quantity of tools will have to he provided by the Contractor to electricians/workmen/officers.

26.11 In case any accident occurs during the construction/ erection or other associated activities undertaken by the Contractor thereby causing any minor or major or fatal injury to his employees due to any reason, whatsoever, it shall be the responsibility of the Contractor to promptly inform the same to the Engineer in prescribed form and also to all the authorities envisaged under the applicable laws.

26.12 The Engineer shall have the right at his sole discretion to stop the work, if in his opinion the work is being carried out in such a way that it may cause accidents and endanger the safety of the persons and/or property, and/or equipment. In such cases, the Contractor shall be informed in writing about the nature of hazards and possible injury/accident and he shall comply to remove shortcomings promptly. The Contractor after stopping the specific work can, if felt necessary, appeal against the order of stoppage of work to the Engineer within 3 days of such stoppage of work and decision of the Engineer in this respect shall be conclusive and binding on the Contractor.

26.13 The Contractor shall not be entitled for any damages/compensation for stoppage of work due to safety reasons as provided in Para 31.18 above and the period of such stoppage of work will not be taken as an extension of time for completion of work and will not be the ground for waiver of levy of liquidated damages.

26.14 It is mandatory for the Contractor to observe during the execution of the works, requirements of Safety Rules which would generally include but not limited to following

a) Each employee shall be provided with initial indoctrination regarding safety by the Contractor, so as to enable him to conduct his work in a safe manner.
b) No employee shall be given a new assignment of work unfamiliar to him without proper introduction as to the hazards incident thereto, both to himself and his fellow employees.
c) Employees must not leave naked fires unattended. Smoking shall not be permitted around fire prone areas and adequate fire-fighting equipment shall be provided at crucial location.
d) There shall be a suitable arrangement at every work site for rendering prompt and sufficient first aid to the injured.
e) Requirements of ventilation in underwater working to licensed and experienced divers, use of gum boots for working in slushy or in inundated conditions are essential requirements to be fulfilled.

26.15 The Contractor shall follow and comply with all GETCO Safety Rules, relevant provisions of applicable laws pertaining to the safety of workmen, employees, plant and equipment as may be prescribed from time to time without any demur, protest or contest or reservations. In case of any discrepancy between statutory requirement and GETCO Safety Rules referred above, the latter shall be binding on the Contractor unless the statutory provisions are more stringent.

a. Fatal injury or accident Causing death	Rs. 1, 00,000 + GST as applicable per person: for death	These are applicable
b. Major injuries or accident causing 25% or more permanent disablement to Workmen or employees	Rs. 20,000 + GST as applicable per person	injury to any person, whosoever.

Permanent disablement shall have same meaning as indicated in Workmen's Compensation Act. The compensation mentioned above shall be in addition to the compensation payable to the workmen/employees

under the relevant provisions of the Workmen's Compensation Act and rules framed there under or any other applicable laws as applicable from time to time. In case the Owner is made to pay such compensation then the Contractor is liable to reimburse the Owner such amount in addition to the compensation indicated above.

27.0 CODE REQUIREMENTS

The erection requirements and procedures to be followed during the installation of the equipment shall be in accordance with the relevant Codes and accepted good engineering practice, the Engineer's drawings and other applicable Indian recognized codes and laws and regulation of the Government of India.

28.0 PRE-COMMISSIONING TRIALS AND INITIAL OPERATIONS

The pre-commissioning trials and initial operations of the equipment furnished and erected by the Contractor shall be the responsibility of the Contractor as detailed in relevant clauses of Technical Specifications. The Contractor shall provide, in addition, test instruments, calibrating devices, etc and labour required for successful performance of these trials. If it is anticipated that the above test may prolong for a long time, the Contractor's workmen required for the above test shall always be present at Site during such trials.

PART-I (SCC)
SPECIAL CONDITIONS OF CONTRACT

1.0 **General Particulars :**

This part of the Bid Document relates to certain specific/special terms and conditions particular to the Contract. The provisions herein are to be read and understood in conjunction with the relevant provisions elsewhere in the Instructions to Bidders (ITB), the General Conditions of Contract (GCC) and Erection Conditions of Contract (ECC). The intent of provisions herein are specific to this contract and are, in general, supplementary to related provisions under ITB,GCC and ECC. However, in certain provisions which are contrary to those in ITB, GCC and ECC, the provisions in these Special Conditions of Contract will prevail.

2.0 Tender Fee/ Earnest Money Deposit (EMD) :

Bidders shall compulsorily pay tender fee and EMD through RTGS/NEFT only.

a) Payment of Tender fee / Earnest Money Deposit (EMD) can be accepted by RTGS/ NEFT.

For payment through RTGS/NEFT the scan copies of payment made (transaction slip of payment made) shall be uploaded online with the Tender documents on n-procure portal.

1. Bidder has to provide following detail on the same date of payment made so that receipt can be generated at below mentioned e-mail ids:
    1. decmcjmbco.getco@gebmail.com
    2. nvp.getco@gebmail.com
    3. aotr.jambuva@gebmail.com

Sr. No.	Required Details
1	Name & Postal Address of the bidder
2	Contact Detail & e-mail id of the bidder
3	Tender No. with due date
4	Mode of Payment made
5	Ref. ID with Bank Details(UTR number)
6	Amount Paid for Tender fee in Rs.
7	Amount Paid for EMD in Rs.
8	GST No.
9	Pan No.

3. GETCO Beneficiary Bank Details are as under:

Sr.No.	Particulars	Requisite Details
1	Name of Bank	BANK OF BARODA
2	Name of Branch	MAKARPURA VILLAGE BRANCH, VADODARA
3	Branch Code	0634
4	MICR Code	390012031

5	IFSC Code	BARB0MAKARP
6	Name of Account	GETCO , JAMBUVA
7	Account No.	06340200000181
8	GST No.	24AABCG4029R2ZC

2.1 The bid security is required to protect the owner against the risk of Bidder's conduct, which would warrant the guarantee forfeiture, pursuant to relevant para elsewhere The bid guarantee shall be made payable to the Owner without any condition whatsoever.

2.2 The Owner will reject any bid not secured in accordance with Para 18.1 above, as non-responsive. No exemptions are made in the furnishing of the security.

2.3 Unsuccessful Bidder's bid security/EMD will be returned/refunded on finalization of tender or three months from the date of submission of tender.

2.4 The successful bidders, Bid Security will be discharged upon, furnishing the contract Performance guarantee

2.5 The bid guarantee may be forfeited.
a) If a Bidder withdraws its bid during the period of bid validity specified by the bidder on the bid Form:
b) If a bidder refuses to accept the contract or fails to commence the works (including supplies within thirty days of letter of award of contract)

2.6 Bidders are requested to pay an earnest money deposit by RTGS/NEFT. Banker's cheque / demand draft shall not be accepted.

2.7 Tenders no accompanied by EMD shall be rejected.

2.8 If during the tender validity period, i.e. 180 days, the tenderer withdraws his tender, the EMD shall be forfeited and the tenderer may be disqualified from tendering for future works of GETCO.

2.9 The EMD will be returned promptly to the unsuccessful tenderer. The EMD will be returned to the successful tenderer after he furnishes the Security Deposit for performance and duly enters into the contract. If he fails to furnish the SD or to execute the contract for the work offered to him, his EMD shall be forfeited and the tenderer may be disqualified from tendering for further works for GETCO.

3.0 Validity period: The offers should be valid for minimum period of 180 Days from date of opening of tender (Technical Bid).

4.0 Declaration by Bidder:

The Bidder shall sign the Declaration enclosed to this SCC and not furnishing the same will make the Bid invalid.

5.0 Qualifying Requirement: As mentioned in **Qualifying requirement. Bidder shall have to upload scanned copies of original (Notarized/ self-attested copies of original-as specified in QR) online through n-procure.**
The Bidder shall submit/upload all the documents, certificates, declarations, statements and other information required under the Tender Document along with its original online bid within the stipulated date and time for submission of bids.

The Bidder shall be solely responsible for ensuring completeness, correctness, legibility and validity of all such documents.

The Technical/Qualification Requirement (QR) evaluation of the bid shall be carried out only on the basis of the Data / Details / Documents submitted/uploaded by the Bidder as part of its original online offer on or before the stipulated last date and time for submission of the bid.

After the stipulated last date and time for submission of bids, no new, additional, substitute or replacement document shall be accepted or considered for establishing or improving the eligibility, Qualification Requirement (QR), technical qualification or experience of the Bidder.

Also, refer clause no. 28,29,30 of INSTRUCTIONS TO THE BIDDERS

6.0 SCOPE OF WORK: As mentioned in Qualifying Requirement.

7.0 Price Inclusions (including Taxes & Duties):

7.1 Goods & Service tax (GST): GST & Cess as applicable shall be payable/receivable as mentioned in clause 12 of ITB.

7.2 The prices quoted shall be all inclusive of freight, transportation, loading, –unloading & stacking at site of materials supplied by Contractor as well as owner supplied item if any.

7.3 No extra payment toward any type of templates including extension & special tower and erection tools /materials will be made.

7.4 **Evaluation of the tender shall be carried out on end cost basis.**

7.5 Statutory Variations:

Any statutory increase or decrease in the taxes and duties subsequent to your offer if it takes place within the original contractual delivery date will be to the GETCO's account subject to the claim being supported by documentary evidence.However, if any decrease takes place after the contractual delivery date, the advantage will have to be passed on to the GETCO.

7.6 Income Tax

Income tax at source at the prevailing rate will be deducted from bills in accordance with the provision of Income-Tax Laws and to that effect a certificate will be issued to the contractor.

7.7 Welfare Cess:-

1. As per the Welfare Cess Act, the welfare cess @ 1% is applicable on supply and erection items for supply, erection, testing & commissioning of substation, transmission lines, EPC/Turnkey projects, and civil works.The welfare cess @ 1% shall be paid by the contractor and the same shall be reimbursed by employer on production of documentary evidence of payment.
2. Contractor shall get registered under Welfare Cess Act before commencement of work in required head as per nature of work. Office of the Factory Inspector is authorized at present as a registering authority.
3. GETCO shall pay the welfare cess by way of reimbursing to contractors on production of documentary evidence of payment. Registration charges will not be reimbursed.
4. The contracts for which supply or part supply of material are in the scope of GETCO, then contractors shall deposit welfare cess on estimated cost of supplied items to GETCO on progressive basis of utilization. As this part of welfare cess is on GETCO account, the same shall be reimbursed to the contractor on receipt of request letter along with documentary evidence of payment. For calculation of welfare cess on supply part, valuation as per MR shall be taken and informed to the contractor for payment. This will be over and above the A/T value. The modality of payment/ reimbursement of welfare cess will be as under.
5. On receipt of A/T, the contractor / bidder will get them registered under Welfare Cess Act and submit the documentary evidence to the concern office. Copy of Registration certificate shall be submitted before submission of 1st RA bill
6. Before release of payment of first R.A.Bill, the contractor has to submit the documentary evidence of registration. Only thereafter, the bill will be processed for payment.
7. Before release of payment of subsequent R.A.Bills, the contractor has to submit the documentary evidence of payment of welfare cess of previous R.A.Bill.
8. The welfare cess shall be reimbursed to the contractor on submission of copy of documentary evidence of payment by observing due formalities.
9. The Welfare cess @1% is not considered in the estimate for this project & therefore , bidders are requested not to load welfare cess in the price schedules as welfare cess @ 1 % is on reimbursement basis.

8.0 SECURITY DEPOSIT-CUM-PERFORMANCE GUARANTEE DEPOSIT

8.1 **The successful bidder has to pay 100 % security deposit (5% of the Contract) upon placement of LOI within 10 days.**

8.2 The successful bidder will be required to pay an amount equivalent to 5 % of the value of the order as a Security Deposit for satisfactory execution of the contract. Such Security Deposit will be payable either in BG/DD payable at Vadodara. Bank guarantees from following Banks will be acceptable.

(A) Guarantees issued by the following Banks will be accepted as SD on permanent basis.

1. All Nationalized Banks.

(B) Guarantees issued by following Banks will be accepted as SD for the period up to March 31, 2026. The validity cut-off date is with respect to date of issue of Bank Guarantee irrespective of date of termination of Bank Guarantee.

1. AXIS Bank
2. AU Small Finance Bank
3. Bandhan Bank
4. City Union Bank
5. CSB Bank

6. DBS Bank India Limited
7. DCB Bank
8. Dhanlaxmi Bank
9. Equitas Small Finance Bank
10. FEDERAL Bank
11. HDFC Bank
12. HSBC Bank
13. ICICI Bank
14. IDBI Bank
15. IDFC First Bank
16. IndusInd Bank
17. Jammu and Kashmir Bank
18. Jana Small Finance Bank
19. Karnataka Bank
20. Karur Vysya Bank
21. Kotak Mahindra Bank
22. RBL Bank
23. South Indian Bank
24. Standard Chartered Bank
25. Tamilnad Mercantile Bank
26. Ujjivan Small Finance Bank
27. YES Bank
28. Ahmedabad Mercantile Co-Op Bank
29. Nutan Nagrik Sahkari Bank Ltd.
30. Rajkot Nagrik Sahkari Bank Ltd
31. Saraswat Co-Operative Bank Ltd
32. SBPP Co-operative Bank Ltd.
33. SVC Co-Operative Bank Ltd.
34. The Cosmo Co-Op Bank Ltd.
35. The Gujarat State Co-Operative Bank
36. The Surat District Co-Operative Bank
37. The Surat People's Co-Op. Bank Ltd
38. The Baroda Central Co-operative Bank

40. The Kalupur Commercial Co-Op. Bank
41. The Rajkot Commercial Co-operative Bank
42. The Banaskantha Mercanttile Co-op. Bank
43. Gujarat Gramin Bank

8.3 No interest will be allowed on amount of Security deposit.

8.4 The Security Deposit- total shall be kept deposited up to 12 months from the date of charging of line. The same shall be released on receipt of N.O.C. from the concerned EE(const./ TR).

8.5 This security deposit is for the performance of contract and the same is liable to be forfeited by the GETCO in event of non fulfillment of the terms and conditions of this contract by the contractor.

8.6 The SD cum performance bank guarantee towards execution of contract will be returned only on successful execution of guarantee period (12 months from date of charging line) of the contract.

8.7 Corporate Guarantees are not admissible.

8.8 The 'Signing of Contract 'and 'Contract Agreements' will be done as per prevalent GETCO Terms and Conditions.

8.9 A/T shall be issued on receipt of Bank Guarantees, contract agreement & Indemnity Bond within 30 days of issue of LOA.

9.0 GUARANTEE PERIOD:

Total work executed shall be covered under guarantee period against any defect in materials, poor workmanship or defect/ wrong design etc. for a period of **one year** from date of charging of S/S.

10.0 **PENALTY FOR DELAY:**

The bidder should note that the completion time allowed for carrying out the work should be strictly observed. Any delay that may take place in supply and erection beyond contractual cutoff date stated as per stipulated delivery period shall be subject to the penalty ½% per week or part thereof on delayed portion

of work and / or supply value subject to ceiling of 10% of the total contract value plus GST as applicable will be imposed.

In event of failure of the Contractor to pay the amount of Penalty as demanded **the Owner shall be entitled to deduct the amount of Penalty for delay from the amounts payable to the Contractors under any bills raised under this contract of any other amount payable under any other contract with the GUVNL and its Subsidiary Companies i.e. GETCO, GUVNL, GSECL, MGVCL, DGVCL, PGVCL, UGVCL.** It is permissible for the Owner to adjust the amount of Penalty of delay against any Bank Guarantee furnished by the Contractor under this contract or any other contract with GUVNL and / or its subsidiary companies

If it is found that the work is unsatisfactory or not progressing as per the program / BARCHART / Target period, any action taken by the GETCO, as may be deemed fit, to see that work is completed as required by the GETCO, would be at the risk and cost of the contractor..

Any delay causing extension of outages shall be contractor's responsibility and appropriate amount (in term of Rupees) as decided by Ex. Engineer (AM), shall be recovered from Contractor's bill as a penalty.

The penalty will be deducted from bills payable either against this contract or from any Bank Guarantee or any other amount payable under any other contract with the GETCO.

11.0 COMPLETION PERIOD :- Overall Completion period for this Contract will be **90 Days** from the date of issue of commencement by concern EE (AM) , failing which the penalty ½% per week plus Taxes (if any) as Applicable or Part thereof on delayed portion of work and / or supply value subject to ceiling of 10% plus Taxes (if any) as applicable of the total contract value will be imposed.

The time limit for the work may be reduced and contractor should make all his efforts to complete the work within stipulated time limit as may be given by the Engineer in charge depending upon emergency of work, GETCO reserves the right to reduce the time limit without giving any notice.

12.0 Presentation of Bills

12.1 Monthly RA bills for 90% value of the supplied material and work executed including cost of material consumed is to be prepared in triplicate and submitted to Site Engineers in-charge of the work, for necessary payment. These bills shall be serially numbered with suffix SE.

12.2 Balance 10% payment shall be released only after finalization of material account and passing of final bill only. The contractor has to submit the final bill along with the material consumption statement and other required data of the work carried out within 3 months from the date of completion of work. These bills shall be serially numbered with suffix SE.

12.3 All the bills in accordance with the above clauses must be submitted with the following information:

a) Item wise work done during billing period.
b) Item wise cumulative work done.
c) Account for material consumed and balance stock.

12.4 For non-submission or part submission of above information, an additional 5% amount of the respective RA bill shall be withheld and shall only be released at the time of final bill.

13.0 Terms of Payment

The payment for work done shall be made as under only after execution of the contract documents/furnishing of Security Deposit and on execution of work.

13.1 **For erection works.**

(i) 90% payment of amount claimed covering various activity covered in subjected work against R.A. bills duly certified by EIC shall be paid within 30 days from the date of R.A. bill.

(ii) Balance 10% of erection value shall be paid against commissioning of S/S or transmission line only after settlement of material account statement of items supplied ,used, erected and successful commissioning of S/S.The same amount will be release in final bill only and payment will be made only after passing of final bill.

10% retention money will be deducted from each R.A. Bills against material issued to contractor.

10% amount of bill will be retained from each RA bill for the work executed after the scheduled date of completion and on finalization of time limit extension by competent authority, this amount will be released after deducting amount towards the time limit penalty plus applicable taxes (if any).

PAYMENT TERMS UNDER MSME ACT:

(1) You have to update your MSME detail on GETCO's website by following link https://getco.co.in/msme/ (and intimate to concern bill submitting office with copy to this office).

(2) The payment will be made within 45 days from the ***date of acceptance** or the ****date of deemed acceptance** of goods or Services i.e. After submission of all required documents as per AT Terms & time to time circular issued by GETCO's Corporate Office as well as statutory requirement to process the Bill.

*** "Date of acceptance" means**

(a) The day of actual delivery of goods or the rendering of services; or

(b) Where any objection is made in writing by the buyer regarding acceptance of goods or services, the day on which such objection is removed by the supplier;

** "**Date of deemed acceptance**" **means**

where no objection is made in writing by the buyer regarding acceptance of goods or services within fifteen days of the delivery of the goods or the rendering of services, the day of the actual delivery of goods or the rendering of services.

14.0 The contractor will have to give indemnity bond on Non-judicial Stamp paper of value Rs. 300/-to GETCO for material as per attached format. The cost of stamp paper will be born by the contractor.

15.0 Also the successful bidder will have to execute Agreement on stamp paper of value Rs.300/- at our Circle office Jambuva before commencement of works as per GETCO's prescribed Performa. The cost of stamp paper will be born by the contractor.

16.0 The contractor will have to give safety cum indemnity on Non-judicial Stamp paper of value Rs. 300/- to GETCO against any possible claim of compensation for damage to contractor's staff or any of third party during the execution of work. The cost of stamp paper will be born by the contractor.

17.0 SAFETY CLAUSE

The Contractor shall follow and comply with all GETCO Safety Rules, relevant provisions of applicable laws pertaining to the safety of workmen, employees, plant and equipment as may be prescribed from time to time without any demur, protest or contest or reservations. In case of any discrepancy between statutory requirement and GETCO Safety Rules referred above, the latter shall be binding on the Contractor unless the statutory provisions are more stringent.

Penalty :

1. In case if any safety related fatal Elect. / Mech. accident occurred to any employee of agency or outsider due to negligence or non-compliance of GETCO safety norms then in addition to the compensation and liability as per statutory requirement, contractor / agency shall be penalized as under:

Sr. No	Amount of Contract in Rs.	Penalty amount
1	Up to →1 Lac	Rs.5000/- plus applicable taxes (if any)
2	Above1 Lac to →10 Lacs	Rs.40000/- plus applicable taxes (if any)
3	10 to → 100 Lacs	Rs.100,000/- plus applicable taxes (if any)
4	> 100 Lacs	1.0 % plus applicable taxes (if any)

2. **Reporting**:-

1. The contractor shall inform concerned Ex. Engineer Const/TR in writing within 24 hours of fatal/Non-fatal accident occurred to human being.
2. The GETCO investigating officer findings in to accident shall be final and binding to the contractor /Agency.

3. **Safety Requirement**:

i) Kick off Meeting exclusively for safety shall be done in each contract in presence of contractor's site in charge and supervisor. Safety document shall be handed over and vital safety norms and key points of safety related to project shall be explained and recorded for commitment by erection contractor. Such records are mandatory for clearing first erection bill.

ii) During site visit by GETCO official of Executive Engineer and above rank, the following checks during execution of work shall be covered.
   I. Safety equipment available and utilize.
      (a) Helmet.
      (b) Safety belt.
      (c) Safety shoes.
      (d) Live line Voltage detector
   II. Safety procedure adopted.
      (a) Permit to work
      (b) Earthing at the place of work.
      (c) Adequate supervision.
   III. T & P physical Check. (Healthiness and Quality)
      (a) P.P.rope.
      (b) Wire rope and sling.
      (c) Earthing rod

iii) If above-mentioned safety requirements found violated in any of the above three conditions shall attract penalty of Rs.1000/- plus applicable taxes (if any) per occasion. (Max.Rs.3000/--for violation of three conditions)

iv) During subsequent visit, if violation is found, then double penalty applicable taxes (if any) shall be deducted from the bill of the Contractor/Agency.

18.0 <u>SAFETY INSTRUCTION & GUIDE LINE FOR CONTRACTORS DURING WORK</u>

Following safety guidelines are mandatory for all contractors operating in GETCO premises/ on transmission lines for Electrical, non-electrical &Civil works.

1. The contractors must provide advance planning of work to concerned in-charge of substation in writing.
2. The name, qualification, address & cell phone No. of supervisor.
3. The list of workers/labours with name and address.
4. The copy of group insurance policy with list of name of workers covered.
5. The list of T & P and safety equipment [PPE] having tested and checked by GETCO official at site.
6. The working procedure must be specified with timing of working hours indicating tea break & lunch break period.
7. Before starting any work whether switch yard, on line or in colony “permit to allow to work” must be taken from control room in-charge.
8. Utilizing Electrical/non-electrical equipments, safety rules must be implemented.
9. All workers/labour& supervisors must be use safety equipment [PPE] during the work.
10. If the work is to be carried out on Sunday or public holiday, the necessary permission must be taken in advance, requesting in writing.
11. Unwanted person including children of labours will not be allowed at working site in the switchyard and in the prohibited area.
12. Any electrical work or electrical connection to equipment for any other work must be carried out by certified electrician/wireman with adequate size of wire through MCB & ELCB per I.E. Rule. Ensure that all precautions are taken to prevent electrical & the installation/connection is certified by EIC.
13. No work should be done during night hours unless & until it is required under certain circumstances with the approval of next higher authority and all necessary arrangement of adequate lighting with safety precautions is made.
14. Any power line crossing, river crossing & railway crossing or any other hazards must be discussed with workers by contractor in presence of EIC.
15. Contractors must submit list of workers with name, qualification and experience who are engaged for line maintenance/rectification job.
16. Work shall be started after Line clear permit taken buy GETCO engineer on power line crossing or passing nearby for safety of workers. This must be ensured by GETCO supervisor/in-charge of substation before starting the work.
17. Contractors must arrange for Shelter and drinking water facility for the labors/workers engaged with the permission of S/S in charge.
18. The method of work required T&P and manpower should be discussed between GETCO supervisor, contractor’s supervisor and gang leaders.
19. Prior to execution of work a joint survey must be conducted by GETCO supervisor, contractor’s supervisor and DISCOM line man in order to identify that following :
    [a] HT/LT line or tap line crossing under each span of line of the work.
    [b] Isolation point of each line crossing must be checked.

[c] Each line crossing & isolation point under each span must be discussed and noted in maintenance register with sketch.

20. While execution of stringing work the identified line crossing must be isolated/ de-energized and written clearance should be obtained from concerned DISCOM supervisor.
21. The isolation of Tap line must be physically seen and verified by Contractor.
22. Contractor's supervisor must take work permit from GETCO engineer for EHV line and power line crossing.
23. AT D.O. fuse junction contractor's person should be posted to ensure that no person restore D.O. supply while work is under execution.
24. Contractor's supervisor must ensure all isolations physically prior to give clearance to gang Leader for taking up job.
25. Earthing must be done at the place of work before execution of any work.
26. Live Line Detector should be used to check de-energisation of line before start of work.
27. Earthing material and tools of contractor shall be verified before starting of work.
28. No work by contractor labour without their supervision.
29. Before starting of stringing work tightening punching, no member missing & any type of Tension tower provide back tension guy without joint & provide at appropriate depth.
30. Tree cutting should be completed before starting stringing work.

Technical Specification

Erection of equipments

1. All the equipment to be opened carefully and any damage during opening of equipment cases or during shifting at erection places will be at Contractor's cost.
2. Before erection of equipment it should be cleaned properly or if required may be washed as per instruction Engineer-in-charge.
3. Before erection initial testing of equipment whatever is required is to be done with the help of Engineer-in-charge for which no any extra charge will be paid.
4. Arrangement of erection is to be got inspected by Engineer-in-charge before erection of equipment and its structure.
5. No any extra charges are to be paid if any equipment is required to change its position as per requirement after erection.
6. Within the sub-station yard no any extra shifting charge will be paid to the Contractor for any equipment.
7. The detailed drawings of equipments can be seen from this office/concerned field/division during any working day and the equipments which are to be erected can also be seen physically at Wankaner/ Jambuva store or at store specified by the EIC during any working day and time.
8. The erection work should be carried out according to the specification as per instructions and programmed laid out by the Engineer in charge. Contractor has to ensure safe shifting and erection of all accessories/ equipments as per standard norms.
9. The contractor has to arrange for minor fabrication (if required) at free cost & follow all labour laws I.E. Rules safety rules, Insurance rules, GETCO rules at his risk & cost.

OUTDOOR / SF6 GAS CIRCUIT BREAKER:

(A)INSTALLATION:

a) Sulphur hexa-fluoride (SF6) gas circuit barker with its support structure shall be installed on foundation. Prior to erection, proper leveling of the foundation shall be checked. The equipment should be in plumb after erection.

b) All the components and sub-assemblies of the SF6 CB shall be assembled together by the bidder. The pressure and dielectric strength shall be checked after installation, if required. SF6 gas shall be filled up to the correct pressure as per supplier's manual. Anti-corrosive grease shall be applied at bimetallic connections.

c) Compressor and compressor panel shall be properly installed on the foundation with leveling, if applicable.

d) All tubing work to be complete with proper connection between Air compressor to receiver tank and Breaker (air and gas tubing.), wherever applicable.

e) All control cabling work to be done between control panel and Breaker.

(B)TESTING AND COMMISSIONING:

Testing of Breaker shall be done as per requirement of applicable Standard and Specification of GETCO. After successful testing, commissioning will be done. All the commissioning checks and testing shall be done as per the instruction manual or as per the instruction of manufacturer's representative present for commissioning.

(C)ERECTION OF CIRCUIT BREAKER :

A. The circuit breaker shall be taken delivery from the site/other stores of and transported to the work place

well in time on loading/unloading. The crates containing the insulators and important parts and accessories shall be opened carefully keeping them in their proper position. Insulator parts and other accessories shall be thoroughly cleaned for any deposits of dust or other particles.

B. The breaker shall be brought on the pedestal of masonry or steel frame as the case may be) in upright position without any inclination. The main parts of the equipments shall be assembled as per approved drawing to be submitted by. The arrange Service of commissioning engineer of circuit breaker manufacturer. However, the contractor will not remain contended with the instruction and guidelines given by the commissioning engineer and shall also use his own judgment in better erection of commissioning practice of circuit breaker.

C. After the placement of circuit breaker in position the kiosk of the breaker shall be thoroughly inspected and any lacuna found shall be reported to the Engr in charge of the work. The HT terminal connection shall be done only after the terminals of the equipment kiosk are made to the marshalling kiosk and or to the control/relay panels. Polarity of the equipments shall also be ensured before physical erection.

D. The method of erection of breaker is not dealt with in details; however, it is recommended that breaker poles shall be erected only by using telescopic crane or other suitable mechanical arrangement. The rigging should be tool proof.

E. The operating mechanism in the breaker Kiosk and contacts as well as the power supply circuits (AC/DC) shall be properly checked for its operation worthiness. All piping for gas/air shall be laid as per the approved drawing. The air receiver or compressor shall be positioned as per the relevant drawing. Minor fittings and fabrication or grouting work required to place these articles or accessories shall be done by the contractor without any extra cost to the purchaser. In case of breakers with spring mechanism the trials of the mechanism by actuating should be done to ensure its' line worthiness.

F. EHV side of the breaker should be aligned to a incoming and outgoing bus conductor. While erecting the breaker, the operating mechanism without the porcelain insulator should be laid perfectly to avoid any mal functioning of the breaker.

G. Earthing points of the breaker as well as attached Kiosk shall be connected to earth grid by means of risers already available nearby the equipment. Any other erection checks and pre-cautions indicated in the Manual furnished by the respective supplier of the equipment shall be studied well by the contractor and the provisions there of shall be implemented as far as possible.

66KV CT, PT AND PI:

(A)INSTALLATION:

1. Outdoor CTs and PTs with supporting structures shall be installed on R.C.C. foundations after checking the leveling of the foundation. The Polarity of primary terminals shall be checked and verified as per instruction of Engineer in Charge.

2. Accessories supplied loose shall be fitted on the equipments. Oil level shall be checked and if required, oil shall be filled up to the correct level.

3. Wiring of the CTs and PTs secondary box shall be checked and fuses provided shall be checked for continuity.

(B)TESTING AND COMMISSIONING:

Testing of 220 kV & 66 kV CT, PT and PI shall be done as per requirement of applicable Standard and Specification of GETCO. After successful testing, commissioning will be done.

ERECTION OF POWER TRANSFORMER

1. The power transformer shall be unloaded on the rails of the RCC plinth at the sub-station site. All the accessories/spares and transformer oil shall be transported by bidder at this location and unload at site of erection at his own cost. Contactor shall ensure that the transformer plinth with rail is made ready well in time to receive the transformer at site.
2. The bidder shall carefully open the casings/covers etc. and erect and commission the transformer as per standards.
3. After the completion of erection of above-mentioned accessories, filling of oil under vacuum should be started. Random sampling and testing of oil should be carried out before filling. The oil level in the conservator tank, condenser bushing should be checked for its desired mark. After completion of oil filling work, final filtration of oil should be done to obtain PPM and BDV values as per the requirement of IS.

The filter machine of sufficient capacity and reputed make approved by Engineer-in-charge shall be arranged by the bidder at his cost.

4. The final testing and commissioning of the transformer should be done as per the instruction of GETCO Engineer.

Erection of 66 kV GI structures

1. All the structures are to be erected in line level and in plumb as per instruction of Engineer-in-charge.
2. If any structure falls after erection but before grouting, then it will be responsibilities of Contractor to get replaced damaged members at his cost.
3. After taking delivery of the structures from GETCO stores, contractor will be fully responsible for safe custody and theft of which will be at Contractor's cost till completion of work.
4. During erection due care is to be taken for any damage to any equipment inside the S/S yard and any damage to the equipment is at Contractor's Cost.
5. Required tools, tackles, ropes, spanners and skilled labours etc. are to be arranged by the Contractor at his cost.
6. All bolt and nuts should be fixed properly and spring washer, flat, washer to be used as per drawing.
7. If any minor fabrication / modification is required during erection to the structure i.e. holes, cutting, which is to be carried out by the Contractor at free of cost.
8. Any loose materials which obstacles during the erection are to be shifted by the contractor for which no extra charges are to be paid.
9. The fabrication drawings prepared by the bidder shall indicate the size and weight of sections shown in the design drawings. All structure design shall be got approved by Engineer-in-charge, consulting engineer and their weights with reference identification (erection) marks shall be provided for purpose of dispatch and erection etc. in form of Bills of materials including quantity and length of various sizes of Bolt, Nuts, Anchor Bolts required to complete structure erection.
10. The fabrication and erection of the works shall be carried out generally in accordance with the IS - 800 as well as the stipulation contained in these specifications.
11. All steel materials shall be straight and free from bend or twists. The edges of all plates shall be perfectly straight and uniform through shearing, cropping and gas cutting.
12. Every bolt shall be provided with a steel washer under the nut so that no part of the threaded portion is bolted together. All bolts and nuts shall be of steel with well formed hexagonal heads unless specified or otherwise forged from the solid as they are made. Flat washer shall be circular and of suitable thickness. Spring washers of suitable size shall also be included for each Bolt confirming to relevant IS.

13. GALVANIZING:

A. All structural steel works shall be galvanized after fabrication. All burrs and irregular edges will be ground smooth before galvanizing.

B. The galvanized surface shall consist of a continuous and uniform thick coating of zinc, firmly adhering to the surface to steel. Members embedded in concrete shall be galvanized from the top to a point at least 300 mm below the proposed elevation of the concrete foundation. Before galvanizing, the steel section shall be thoroughly cleaned. Picking shall be very carefully done and shall be proper.

C. Galvanizing of each member shall be carried out in one complete immersion. When the steel section is removed from galvanizing kettle, excess spelter shall be removed by pumping process.

D. All members and accessories shall be treated with sodium dichromate or an approved equivalent solution after galvanizing so as to prevent white storage stains.

SOME SPECIFIC INSTRUCTION FOR INSTALLATION 11 KV VACUUM CIRCUIT BREAKER:

(A)SCOPE :

The work covered under this scope includes installation, connection, testing and commissioning of indoor VCB

(B)INSPECTION :

The VCBs shall be inspected on its arrival as per instruction manual of the supplier.

(ii) All mechanical fasteners shall be checked and tightened before installation.

(iii) The operating mechanism of circuit breaker should be checked for any damage.

(iv) All the internal wiring shall be checked upon installation of the panel.

(C)INSTALLATION:

(i) The Indoor VCB unit shall be installed as per installation manual of supplierand shall conform to relevant Indian Standards.

(ii) The Indoor VCB unit shall be installed in control room as per the suppliers drawing and instructions.

(iii) Indoor VCB unit shall be earthed by using required size of GI strip as per design and earthing installation shall conform to latest Indian Standard IS : 3043-1987 and detailed specification given under separate heading of "EARTHING" of this specification.

(D)TESTING AND COMMISSIONING:

Prior to commissioning of Indoor VCB unit, following tests shall be carried out:

(i) A mechanical endurance test shall be carried out by closing and opening of the switchgear.

(ii) Insulation resistance test shall be carried out between phases and between phase to earth.

(iii) Other tests, required for commissioning the outdoor switchgear unit shall be carried out by the bidder without any extra cost as per instruction of engineer in charge.

66KV ISOLATORS SWITCH:

(A)INSTALLATION:

A. Isolators along with supporting structure shall be installed on RCC foundation.Adequate supports for the down rod shall be provided.
B. All isolator insulators shall be installed in proper level.
C. All contact alignment to be checked for proper contact pressure.
D. Proper greasing to be done on movable contacts.
E. Isolator and earthing switch interlocking to be properly checked.
F. Complete assembly shall be checked for satisfactory 50 operations.

(B)TESTING AND COMMISSIONING:

Testing of Isolator shall be done as per requirement of applicable Standard and Specification of GETCO. At least 50 nos. of open & close operations to be done after complete installation of isolator. After successful testing, commissioning will be done. The supplier's manual shall be referred to.

(C) ERECTION OF ISOLATORS

- 220kV & 66kV isolators with structures to be supplied by the bidder including transportation the sub-station site by bidder at his own cost. All the spare parts shall be properly unpacked and cleaned.
- 220kV & 66kV isolator with EB shall be erected on the gantry structure and isolator without EB shall be erected on isolator structure already erected as per the final lay out.
- The bidder shall check the erected support structure for their alignment vertically with tightness of nut bolts, before mounting the isolators. The mounting arrangement for the operating mechanism shall be verified for the structures provided. Any modification of the structures or isolator mechanism shall be carried out free of cost by the bidder.
- The parts of the isolator like insulators, fixed and moving contacts, earthing rod, operating rod shall be handled carefully to avoid breakage or distortion during the erection. The inter locking between operating rod and earthing rod of isolator with EB should be checked.
- During the erection of isolator it should be ensured for proper alignment with respect to bus conductor or line conductors. The erected isolator shall be in plumb and its operating mechanism rod, isolator blade and rotating insulators shall be checked for their proper function. It should be ensured that movement of fixed and moving contacts and their reach is within permissible limit.
- 50 close-open operations in presence of GETCO representative should be carried out after erection

Erection and Commissioning Tools and Tackles

1. The bidder shall provide all tools/tackles, jigs and fixtures, winches, alignment tools, welding sets, testing kits, testing meters/instruments, breaker handling devices, all consumable items and construction equipments as required to install all the equipment and to complete the work in all respects, and shall necessarily include (but not be limited to) bolts, nuts, rivets, welding rods, shims, wedges, packing sheets, packing compounds, oil, flushings oil, protective greases and oils, all materials required for proper installation and protection of individual equipment in storage and during erection, testing and commissioning.
2. This shall also cover proper alignment, tag welding, tagging, laying, marking of, and connection of cables, fabrication supply and installation of all support structures for installation of various electrical equipments and cables
3. Provision of cable glands, ferrules, cable lugs, tags, sealing kits (for HT Cables) shall be arranged.
4. Supply and installation of first aid boxes, shock treatment charts, rubber mats, etc.
5. Erection, testing and commissioning of various equipments shall be done strictly as per manufacturer's instructions.

6. Successful bidder shall submit proposed test procedure to the Board for approval well in advance and shall not commence testing until approval is conveyed.
7. All plant equipments, painting of which has been damaged during transportation / erection or by corrosion shall be given two coats of paint after removal of scales, rust oil, etc.
8. All iron frame work erected shall be provided with two coat of primer and two top coats of finish paint light gray shed.
9. Cables shall be laid in GI, class 'A' pipe of suitable diameter or a support girder/channel up to 2 meters height above the floor in case of vertical run to avoid mechanical damage in the switch yard.
10. Cables shall be laid in separate racks according to voltage levels. Sufficient Horizontal clearance shall be provided.
11. Maximum cross section areas of cables passing through conduit shall not exceed 60 % of cross section of conduit.
12. Approved type of danger boards, in Gujarati, describing "ISOLATED' 'DO NOT CLOSE, MEN AT WORK" shall be provided in sufficient numbers as per the instruction of E.I.
13. Special care shall be taken to make the enclosed equipment worming proofing
14. Cables supports shall be provided at every 1000 mm along horizontal run and perforated trays shall be provided for control cables. cable Supports shall also be arranged by the contractor.
15. Erection of various equipment shall be done strictly as per manufacturer's instructions.
16. All additional iron framework erected to put the equipment in operational condition shall be provided with two coats of primer and two topcoats of finish paint.
17. Special care shall be taken to make the enclosed equipment protected against entry of rates, lizard, and creeping reptiles, which may create electrical short circuits.

Sub-station structure and equipment earthing

1. Earthing pits are to be excavated as per standard drawing and as per instruction of Engineer-in-charge of s/s.
2. Generally in rocky / soft rock strata mesh type earthing are to be provided from scrap /flat which will be given to the contractor at free of cost for which account to be submitted and necessary fabrication welding, joining with pipe is to be done by the contractor.
3. Back filling and watering of earthing pits is to be done in the presence of GETCO Supervisor only.
4. Contractor has to arrange watering in such way that resistivity of each pit should come to the required limit.
5. For laying of earthing strip inside the sub-station yard for equipment and s/s structure contractor has to be carry out as per the specification is to be laid properly by making welding joint and bolt wherever is required.
6. In case of hard strata contractor has to fill-up earthing trench after laying of strip by black cotton soil.
7. All earthing joints are to be welded with structure of equipment by means of proper welding and bolt with structure and with the earthing pits. All the welded joints are to be painted with Aluminum Paint.
8. For earthing GETCO will supply only G. I. Strip & Scrap for mesh, remaining materials such as salt-cock pipe etc. is to be supplied by the contractor.
9. All earthing joints including the earthing trench are to be made over lapped with earthing strip.
10. The earthing mat laying should be done as per drawing No: **GETCO/E/06S/STD/P-010**.
11. Arrangement of earth pit (check pit) & pipe earthing should be done as per drawing No: GETCO/E/06S/STD/P-011. (2 sheet)
12. Equipment earthing should be done as per drawing No: **GETCO/E/06S/STD/P-012 (sheet 1 to 24).**

Bus-bar and earth wire stringing

1. For stringing of conductor any size or any type is to be utilized which must be properly cut after taking correct measurement.
2. Conductor to be spread in a straight condition and no any twist is permitted if any twist is there then same is to be replaced by the Contractor at his cost.
3. No any scratches should be allowed during spreading bus conductor.
4. All disc insulators are to be cleaned and all the 'W' pin must be ensured before fixing to the conductor.
5. Before taking the tension of bus conductor on gantry beam, beam tension plate bolt, nuts to be checked and tightened. No over tension is to be allowed during tensioning of conductor and sag of conductor is to be kept as per instruction of Engineer-in-charge.
6. Wherever spacers are required, they should be provided at regular interval as per instruction of Engineer-in-charge.
7. Jumpering is to be done as per standard practice however it must be done with taking proper care of clearance between conductor and column.

Laying of control cables and termination

- Before laying of control cable proper schedule of cable showing length of each cables is to be prepared and is required to be approved by Engineer-in-charge.
- Cable should be laid in such a way that no any twisting of cables is to be found or no cable should be cut under length or over length.
- All cables are to be laid and clamped inside the cable trench as per the instruction of Engineer-in-charge.
- The required size of XLPE power cable shall be laid from power transformer to 11 KV transformer panel through cable trench and from 11 KV feeder panels to the double pole structures and station transformer.
- The ends of the control cables shall be terminated using correct size of lug and ferrules giving the identification number of various cores of the cables. The proper tools shall be used for termination to have a rigid connection of the control terminals. The LT cable shall be terminated with lug of proper size. The XLPE power cable shall be terminated with the special type of joints like heat shrinkable of any standard acceptable make or push on type. In no case compound type joint for power cable should be used
- Cable markers should be provided nearby termination at both ends.
- Wherever there is no cable trench for small equipment and having a small length about 10 meters, cable should be laid by providing half round gutters for above 10 meter. If half round gutter is required same will be supplied by the GETCO at free of cost.
- For termination of control cable required size of cable glands copper lungs ferrules tap, sleeves, etc. are to be supplied by the Contractor at his cost.
- All cables terminated inside the panel / equipment with giving proper shape and clamping and taping no any cable leads to be got earthed.
- Complete cable schedule in triplicate is to be given by the contractor with giving details of each termination of cables from one end to other end with giving cable number and size of cable and this to be approved by Engineer-in-charge. For preparing the schedule necessary drawing will be provided by the GETCO. And contractor will be paid extra charges for preparation of schedule which is to be approved by Executive Engineer.
- During testing of control wiring of panel / equipment, contractor has to witness the job and any changes is required that is to be done by the contractor without any charge.
- Any fabrication is required inside the kiosk box / panel / equipment for fixing of glands and clamps is to be done by the contractor at his cost.
- The Control wiring work should be carried out according to the specification and as per instructions and programmed laid out by the Engineer-in-charge of the work.
- The Control wiring work should be commenced immediately from the date of receipt of instructions from office and should be completed within thereafter.
- Erection of Battery Charger includes shifting in control room – bolting with side panel – leveling of Battery Charger with proper grouting as per instruction of Engineer-in-charge.

- **JOINTING OF CABLES**

The bidder shall take care to see that all the cables are laid at various locations to ensure no straight joints in the cable run. If the straight joint in cable is unavoidable due to any specified reasons, prior permission shall be obtained from the engineer- in-charge before the use of such straight joints in cable.

All end, straight and T-joints shall be of epoxy resin cast / heat shrinkable / cold push on type with jointing kits of Raychem / M-Seal/

Denson makes or of approved equivalent make. All the jointing accessories used shall be of approved jointing kit manufacturer's only. All terminal ends of conductors shall be heavily crimped to avoid unnecessary heating.

All same coloured cables shall be jointed and tested for insulation resistance and continuity before jointing commences. The seals of cables mustn't be removed until preparations for jointing are completed. Joints shall be finished on the same day as commenced and sufficient protection from the weather shall be arranged. Joints shall be made by means of suitable solder less crimping method for conductors, the conductor being firmly bottled into the connections.

The conductors shall be efficiently insulated with high voltage insulating tape and use of separators of approved size and pattern.

Cable jointing boxes shall be of appropriate size, suitable for cables of particular voltage ratings and shall be manufactured by approved make.

- **CABLE TERMINATION:**

Before making a cable end or straight joint, put the cables in proper position with support below the cable. If required, cut the top insulation in proper manner after measuring the length required for jointing. After insulation cutting, bind the cable armoured with wire binder over the armour. Turn back the armoured wire over the top insulation of the cable. Before turning of armoured wire, slip one hose clip over the outer PVC insulation of cable. Apply three layers of PVC adhesive tape over the inner PVC sheath just above the armour. Remove the inner sheath up to the PVC tape. Spread out the core. Apply three layers of PVC tape lightly over the copper tape screen at the top end of the core to present loosening of the screen. Solder one small earth braid to the copper tape screen of each core as per requirement. Connect large earth braid to the armour. Insert the hose clip from on the earth braid and tighten fully. Remove the copper tape screen as per requirement and clean the core insulation with solution given in KIT by kit supplier. Insert the jointing sleeves on the core insulation gradually and push it down. Start shrinking from down and proceed upward for end termination. Crimp the lugs, file off burrs. Bidder has to follow all instruction and special instruction given by cable end / straight joint kit manufacturer.

The entire work of the cable jointing should be carried out through a skilled and competent trained cable jointers.

- **BONDING OF CABLES:**

Where a cable enters any piece of apparatus, it shall be connected to the casing by means of an approved type of armoured clamp and gland. The clamps must grip the armouring firmly to the gland or casing, so that in the event of ground movement, no undue stress is passed on to the cable conductors

- **PROTECTION OF CABLES:**

The cable shall be protected by placing burnt bricks on two side and over the cables on the top layer of sand for the full length of underground cable. Where more than one cable is running in the same trench, the bricks shall cover all the cables and shall project a minimum of 80 mm on either side of the cables.
Cables under road crossings and any surfaces subjected to heavy traffic shall be protected by running them through Hume pipes of suitable size and proper grade.

- **CABLE INSIDE BUILDINGS:** Cables, inside buildings shall be laid either in masonry trenches or carried on cable trays, racks or brackets. Where cables run in ducts inside the building, the cables shall be adequately clamped to angle iron brackets / iron cable trays, secured to the wall as directed and approved by the engineer-in-charge. Where cables are suspended from ceilings they shall be carried over cable trays or racks as directed and approved by the engineer-in-charge. The supports shall be placed not more than 600 mm apart. All cables passing through walls shall run through stoneware pipes or Hume pipes of adequate diameter. Cables running along walls shall be supported and clamped to saddles, or hanger, rigidly anchored at close intervals. Where called for cable trenches they shall be filled with fine sand. The bidder shall ensure that hangers, brackets and other supporting arrangements for cables are placed in proper position at the time of building the walls, concrete may be carried out only with prior permission of the consultants.

- **EXCAVATION AND BACK FILLING:**

Trenches shall be dug true to line and grades. Back fill for trenches shall be filled in layers, not exceeding 250 mm. Each layer shall be properly rammed and consolidated before laying the next layer. The bidder shall restore all surfaces, roadways, side walks, curbs, walls or other works cut by excavation to their original condition satisfactory to the engineer-in-charge.

- **MARKERS AND WARNING PLATES:**

Approved CI cables markers shall be provided along the route of the cables at every 30 meter distance and at both ends of road crossing, indicating HV cables and MV cables as applicable. Special CI marker shall be provided at all buried cable joints indicating “Electrical Cable Joints”.

- **TESTING OF CABLE:**

Prior to burying cable following tests shall be carried out:

Insulation test between phase to phase and phase to earth or each length of cable before and after jointing, shall be carried out.

On completion of cable laying work and jointing, the following test shall be conducted in the presence of the engineer-in-charge.

(a) Insulation resistance test.
(b) Continuity test.
(c) Earth test
(d) High voltage test.

All tests shall be carried out in accordance with relevant Indian Standard code of practice and Indian Electricity Rules. The bidder shall provide necessary instruments, equipment, engineers and labour for the above test and shall bear all expenses in connection with such tests. All tests shall be carried out in the presence of the engineer-in-charge

INSTALLATION SPECIFICATION FOR EARTHING:

(A)GENERAL:

All the non-current metal parts of electrical installation shall be earthed properly. All metal conduits, trucking, cable sheaths, switchgear, distribution fuse boards, lighting fittings & fixtures and all other parts made of metal shall be bonded together and connected by means of specified earthing system. All earthing will be conformed to Indian Standard Specifications IS : 3043 – 1987. The bidder shall measure the resistivity of various places in the proposed sub stations and design suitable earthing system as per IEEE Standard 80-2000 and get it approved from GETCO.

(B)Installation of Earthing System for S/S under consideration

General

1. Earthing Mesh for 220KV switchyard and 66KV switchyard may be designed as per IEEE Std 80-2000 considering the resistivity and fault level given in S/S Data and laid at a depth of min.0.6 meter below the normal earth surface. Along the periphery of the mesh, at all the junction points of parallel conductors, adequate size (as design permits) of steel vertical rods should be driven 3.0 meters into the soil below the mesh.
2. Suitable size of risers brought out from the earth mesh to outside (above ground) for connection to structures and equipments.
3. Body of each equipments should be connected to its respective structure with at least one no. of 75x10 or 50x6 GI strip (as per approved earthing philosophy) and at least one no. to risers with fully welded and bolted with 12x25 mm double nut bolts.
4. Each and every structure should be connected to risers with at least two nos. of 75X10 or 50x6 GI strip (as per approved earthing philosophy) and fully welded and bolted with 12x25 mm double nut bolts.
5. Steel rods of the foundations should also be connected to the mesh with a 75X10 or 50x6 GI strip (as per approved earthing philosophy).
6. All the neutrals of transformers, LA s, CVTs, Panels should be provided with pipe type earthing as per design.
7. Power transformer neutrals should be earthed through 50x6 copper strips.
8. Check pit (Quantity as per schedule) should be provided at the suitable points jointly decided by successful bidder and GETCO Site-In-Charge at a junction points with extended vertical ground rods-raisers.Masonary chamber should be provided to these check pits.
9. Resistance value should be recorded for each check pits to verify the grid resistance with the designed value.

(C) Pipe Electrodes

Standard pipe type earthing as per IS:3043 with 100 mm (dia) CI pipe of 13 mm thickness should be carried out for the equipments stated hereunder and these electrodes shall be connected to earth mat with the help of 75x10 GI flat.

(D)EARTHING CONDUCTORS:

All earthing conductors shall be of high conductivity G.I. / Copper and shall be protected against mechanical injury or corrosion.

(E)CONNECTION OF EARTHING CONDUCTORS:

(i) Main earthing conductors shall be taken from the earth connections at the main switchboards to an earth electrode with which the connection is to be made. Sub- main earthing conductors shall run from the main switchboard to the sub- distribution boards. Final distribution boards earthing conductors shall run from sub-distribution boards.

(ii) Circuit earthing conductor shall run from the exposed metal of equipment and shall be connected to any point on the main earthing conductor or its distribution boards or to an earth leakage circuit breaker. Metal conduits, cable sheathing and armouring shall be earthed at the ends adjacent to switchboards at which they originate or otherwise at the commencement of the run by an earthing conductor in effective electrical contact with cable sheathing. Where equipment is connected by flexible cord, all exposed metal parts of the equipment shall be earthed by means of an earthing conductor enclosed with the current carrying conductors within the flexible cord. Switches, accessories, lighting fitting etc. which are rigidly secured in effective electrical contact with a run of metallic conduit shall not be considered as a part of earthing conductor for earthing purposes, even though the run of metallic conduit is earthed.

(iii) All metal clad switches and other equipment carrying single phase current, shall be connected to earth by a single connection. All metal clad switches, carrying medium voltages and high voltage shall be connected with earth by two separate and distinct connections. The earthing conductors inside the building, wherever exposed, shall be properly protected from mechanical injury by running the same in GI pipe of adequate size.

(iv) Earthing conductors, outside the building, shall be laid 600 mm below the finished ground level.

(v) In case of copper earthing strips, the cover lapping at joints (wherever required) shall be of minimum 75 mm. Sweated lugs of adequate capacity and size shall be used for ail termination of wires above 6 sq. mm size and bare copper wire above 2.5 mm dia. Lugs shall be bolted to the equipment body to be earthed after the metal body is cleaned of paint and other oily substance and properly tinned.

(vi) Neutral conductor, sprinkler pipes or pipes conveying gas, water or flammable liquid, structural steel work, metallic enclosures for cables and conductors, metallic conduits and lightning protection stem conductors shall not be used as a means of earthing an installation or even as a link in an earthing system. The electrical resistance of metallic enclosures for cables and conductors measured between earth connections at the main switchboard shall be low enough to permit the passage of current necessary to operate fuse or circuit breakers and shall not exceed one ohm

(F)PROTECTION FROM CORROSION:

Connections between copper and galvanized equipment shall be made on vertical face and protected with paint and grease. Galvanized fixing clamps shall be used for fixing earth conductors. When there is evidence that the soil is aggressive to copper, buried earthing conductors shall be protected by suitable serving and sheathing

(G)PIPE ELECTRODE EARTHING:

The pipe electrode earthing is specified in Schedule B1. The electrode shall be in one piece and no joints shall be allowed in the electrode. Wherever possible, earth electrodes shall be located close to water tap, water drain or a down take pipe. Earth electrode shall not be located in proximity to a metal fence. It shall be kept clear of the building foundations and in no case, it shall be nearer than 2 meters from the outer face of the wall.

(H)EARTH RESISTANCE:

The earth resistivity result of the soil where the earthing stations are located shall be submitted to the engineer-in-charge before the earthing work starts. If the earth resistance is too high and multiple electrode earthing does not give adequate low resistance to earth, the soil resistivity immediately surrounding the earth electrodes shall be reduced by adding sodium chloride, calcium chloride, sodium carbonate, copper sulphate, salt and soft coke or charcoal or other better earth reactivating compound in suitable proportions as required in consultation with Engineer in Charge. The resistance of each earth system shall not exceed 1 ohm.

SITE TEST AND CHECKS:

(A)General:

All the equipment shall be tested at site to know their condition and to prove suitability for required performance. The list of tests / indicated to be conducted, and all required equipment / instrument shall have to be arranged by the bidder. Any other test which is considered necessary by the manufacturer of the equipment, bidder or as mentioned in commissioning manual, shall have to be conducted at site.

In addition to the tests on individual equipment, some tests / checks are to be conducted / observed from overall system point of view to develop confidence for charging of the system / equipment. Such checks are highlighted under miscellaneous tests but these shall not be limited to as indicated, and shall be finalized in consultation with Engineer-in-charge.

All cheeks and tests shall be conducted in the presence of client's representative and test results shall be submitted in three copies, to client and one copy to Electrical Inspector. Test results shall be filled in proper Performa.

After clearance from Electrical inspector, system equipments shall be charged in step by step method. Based on the test results clear cut observation shall be indicated by testing engineer with regard to suitability for charging of the equipment or reasons for not charging, are to be brought out by the bidder.

(B) HT SWITCHGEAR

1. IR test
2. HV one-minute test
3. Measurement of BDV of oil for Transformer, CT, PT etc.
4. Test to prove inter changeability of similar parts (including breaker module).
5. Testing of relays as per supplier's commissioning manual.
6. Testing and calibration of all meters.
7. Operation of all relays by secondary injection method.
8. Testing of CT polarities and CT ratio by primary injection test.
9. IR and voltage ratio test for PTs.
10. Functional test of all circuit components for each panel / feeder.
11. Test to prove closing / tripping operation at minimum and maximum specified voltage in test and service position.
12. Check for draw out test and service position of breakers for all feeders.
13. Check for covering of all openings in the panel – check for continuity and operation of aux. contracts of breaker.
14. Check for pressure of SF6 gas and air (for SF6).

(C) ISOLATOR:

1. IR test before and after HV test.
2. Operational test.
3. Checking of interlocking with earth switch.
4. Checking of operation of earth switch.
5. Checking for tightness of earth connections.
6. Check for continuity of aux. contacts.

(D) HT CABLES

1. IR measurement before and after HT test.
2. HV test.
3. Checking tightness of bolts with torque wrench.
4. Checking for phase sequence marking.
5. Check for clearances between phase to phase and phase to earth.
6. Check for-minor damages of Insulation after laying.
7. Checking for inspection openings and accessibility for replacement of cables.
8. Check for tightness for earthing connection for armour.

(E) LT SWITCHGEAR

1. IR test.
2. HV test with 2.5 KV megger.
3. Functional test for all feeders.
4. Testing and calibration of all meters and relays.
5. Checking and calibration of overload relays.
6. Checking the local and remote operation of the contactors.
7. Checking of interlocking between incomers / and other feeders. Wherever required.
8. Test to prove interchangeability of similar parts.
9. Tests to prove correct operation of breakers at minimum and maximum specified control voltages.
10. Checking of earthing connection for neutral-earth bus, cable armour, and location of EIF CT etc. as per the scheme.

(F) TRANSFORMER :

1. IR test on each vending to ground, and between windings.
2. Turns ratio test on each tap.
3. Polarity and vector group test.
4. IR, wiring and operational tests on all control devices in control cabinet, oil level indicator, winding and oil temp. indicators, etc.

5. Checking of earthing with respect to transformer tank (flexible from top cover to tank) other parts, neutral and tank to electrodes etc.
6. Testing of buchholz relay for alarm and trip conditions.
7. For bushing CTs, tests applicable shall be as for current transformers.
8. Setting of oil / winding temperature indicators, level gauge and checking of alarm / trip circuits.
9. Checking of OLTC operation.
10. Checking of insulators for cracks.
11. Checking for oil leakage and arresting of leakages (if there)
12. Checking of operation of all valves.
13. Checking for open position of all the valves (except drain and filter valves).
14. Filtration of oil by using line filter and heater set, If required.
15. BDV test on oil samples from top, bottom, and from OLTC tank.
16. Checking of oil for acidity, water content, tan delta etc. as per IS : 335:1983, If required.
17. Measurement of magnetizing current and no load loss.
18. Checking of silica-gel breather.
19. Checking of other points given in the manufacturer's commissioning manual.
20. Checking and calibration of remote vending / oil temp. indicators, tap position indicators, annunciation system (where RTCC panel is there).
21. Checking of oil resistivity, surface tension and dissolved gas analysis. If required.
22. Stability test.

(G) CABLES AND CABLE SUPPORTING STRUCTURES:

1. Checking of continuity and IR values for all the cables before and after HV test.
2. HV test and measurement of leakage current after termination of cable kits (for HT cables).
3. Checking of earth continuity for armour and fourth core (If applicable).
4. Check for mechanical protection of cables.
5. Check for identification (tag number system) placement of cable marker, cable joint etc. as per the cable layout drawing.
6. Check for earthing of cable structures.
7. Check for proper fixing of cable structures.
8. Check for proper drainage and removal of water (if any).

(H) EARTHING:

1. Check for tightness of all earth connections.
2. Check for earthing of all metallic equipments, cable trays, busbar supporting structures, yard fencing steel structures of yard, rails, gates, building columns (if steel) all electrical equipments, gas / oil / water pipe lines etc. as per the drawing / specification.
3. Measurement of earth resistance for each electrode.
4. Measurement of total earth resistance.
5. Measurement of earth loop resistance for E/F path of biggest LT drive

(I) MISCELLANEOUS:

1. Checking of continuity of the system.
2. Checking of phase sequence from overhead line to sub-station.
3. Checking for safe accessibility of all operating points.
4. Cheek for availability of emergency lighting.
5. Check for availability of control / aux. supply.
6. Ensure availability of first aid box, fire-fighting equipments, earth discharge roads, rubber mats, rubber glove.
7. Check for oil drainage system for transformer oil in each transformer.
8. Check for filling of gravels in yard and in transformer pits.
9. Cheek the working of ventilation system for battery room-switchgear room etc.
10. Check for safe movement of operators from yard to control room switchgear etc. with respect to proper illumination, escape light, uncovered openings, provision of hand railings in stairs etc.
11. Check for proper covering of cable channels.
12. Placement of shock treatment chart, danger, boards, provision of boards indicating "Man on Work, Do not switch ON", "Do not switch OFF", "EARTHED" etc.
13. Check for proper dressing of cables, mechanical protection of cables, and placement of cable markers.

14. Check for sealing of all cable openings including conduit opening with fire resistance material.
15. Checked for sealing of all openings at bottom of elect., panels

GENERAL TECHNICAL CONDITION:

1. The erection work should be carried out according to the specification and as per instructions and programmed laid out by the Engineer in-charge of the work.
2. The contractor should employee as Supervisor with sufficient qualification and experience who can supervise the execution of work throughout. He should always be present on the site.
3. Cutting, bending, welding, brazing, wherever necessary is to be done by the contractor.
4. The contractor has to carry out all the works in accordance with revised and latest provision under I.E. Rules Act made there under and as per instruction of Engineer in charge.
5. Contractor has to co-ordinate E.I.C. for planning of outage and work schedule thereof, so as to complete all the planned work in outage. Contractor has to deploy adequate manpower accordingly.
6. In addition to the general of the construction particular, attention shall be paid to the final finish and every effort shall be made to have the entire work contented with standard of workmanship by the contractor.
7. **Electricity Rules**: -All the works shall be carried out in accordance with latest rules under Electricity Act.
8. **Testing**: - Complete installation shall be put to the necessary test as required and shall be got approved by Government Electrical Inspector.
9. **TAKING DELIVARY AND INSURANCE:-**

- The contractor has keep S/S materials in safe custody and transport to the respective sites and will be reasonable for any damages to or loss of all materials at any stage during transportation or erection or taking over of the line by GETCO.
- The Contractor has to open site store and ensure for safe custody of all the stored materials at his own cost.
- The Contractor shall have total responsibility for the entire materials stored loose, semi assembled and/or erected by him at site in his custody. The Contractor shall make suitable security arrangements is at own cost to ensure the protection of all materials, equipments and works from theft, fire pilferage and any other damages and loss, it shall be the responsibility of the contractor to arrange for security till the works are finally taken over by the Corporation.

10.0 TESTING AND COMMISSIONING:

10.1 The Contractor after completion of work will ensure that all works have been completed. These works shall be done correctly as per Indian Electricity Rules and Procedures. Any extra cost involved due to incompleteness of work or bad workmanship found out subsequently shall be set right forthwith by the Contractor at his own cost.

11.0 GENERAL:

11.1 The Contractor shall ensure that at the end of each sub-activity the surplus material is immediately removed from the work-site to avoid loss and injury to the public.

11.2 The Contractor has to reconciliation of material account and settle final bill including signature in all relevant papers required for passing of final bill within three month from the date of charging / commissioning of bay .

SPECIAL TECHNICAL CONDITION:

1. All erection work is to be carried out as per the manual of OEM (Original equipment manufacturer), FQP, approved drawing, specification and instruction of E.I.C.
2. All equipment erection charges are inclusive of shifting dragging handling of the respective equipment up to S/S erection site from its S/S site store.
3. Contractor has to ensure safe shifting dragging erection of all equipments to comply with labour laws I.E. rules etc.
4. All erection charges are inclusive of fixing of clamp connectors, all necessary accessories to the respective equipments.
5. Transformer erection charges cover shifting, dragging, handling etc. for its bushings, radiators, conservator tank and allied accessories and oil filling, filtration (if require).
6. All erection work includes erection insurance to be arranged by the contractor at his cost.
7. All the required tools and tackles like compression jointing machine for conductor, earth wire, cutting machine, welding set, drill machine, etc are to be arranged by the contractor at his cost.

8. Contractor should complete transportation within one job as per schedule if applicable. No extra payment will be given in any case other than this job.
9. If filtration of transformer is required in any case the filter machine shall be arranged by Contractor at his own cost.
10. Earthing pit activities should be done in such a way in presence of GETCO supervisor that final earthing pit resistance should be record as per standard. All expenditure like sufficient watering to maintain earth resistance up to the mark should be born by contractor.
11. All the brought out items get to be approved from DE/EE invariably for its specifications and quantity to be order out only as per instruction of EIC looking to the site condition. Payment will be given for those quantity for which clearance given from EIC and not for those which is mentioned in A/T.
12. The executions of bore are to be carried out as per soil strata in consultation with E.E.
13. The Classification of hard rock strata should be got approved from E.E. invariably.
14. Contractor has to make arrangement for site engineer and skill labours for maintaining all activities and records as per FQP. Also assisting to staff/Engineer in charge to take IR values, Earth pits values, name plate detail, oil samples etc all activities relative to commissioning of project.
15. Contractor has to make arrangement for skill labours for assisting to commissioning engineer, PLCC staff/engineer, SMS/CMS/CRM/DCRM/testing staff/Engineer, Staff of as an when require as per instruction of Engineer in charge.
16. After completion of project successful bidder has to submit all the records like battery charging report, control wiring schedule, earth pit lay out, earthing grid layout, power cable lay out, yard light pole and ckt lay out etc in hard and soft copy for handing over the project.
17. For Colony & Yard lighting and Control Room Industrial Electrical wiring works the rates quoted shall be inclusive of providing and fixing / Installation, testing and commissioning of complete Control Room lightings, Ceiling Fans, Exhaust Fans etc.
18. All items / materials shall be installed / erected in accordance with specified manuals /technical guide lines of the manufacturer and as per instruction of EIC.
19. Cable laying, Circuit distribution and Fixture fixing shall be carried out as per GETCO Standard Drg. No. GETCO/E/06S-STD/S-013 (R0) Sheet 1 to 3 of 3 and as per Instruction of Engineer In charge.
20. Control Room Wiring, Fixing of fixture, Ceiling fan & Exhaust fan etc shall be carried out as per Standard Drawing No. GETCO/E/6S-STD/S-015 (R0) Sheet No 1 & 2 of 2. and GETCO/E/6SSTD/S-013 (R0) Sheet No 1 of 3 and as per instruction of Engineer In charge.
21. For entire control Room, Office & store etc. building wiring is to be done by Providing and fixing of ISI Marked GI conduit pipes 20mm dia. & 1.6 mm wall thickness size (Minimum Size) and PVC insulated stranded copper wire of FENOLEX/ANCHOR make as per relevant IS.
22. Total tilting angle for the flood light luminaries provided on pole is considered as maximum of 45 degree, looking to the tilting angle 20 degree available with luminaries it self & supporting pipe should be fabricated & welded accordingly. Also arm for fixing of Flood light luminaries shall be fix as per required angle & direction as per instruction of EIC.
23. EE/DE will decide the make of luminaries, fan, cable, MCB, Switches etc. and same is to be inspected at authorize depot.
24. Yard light pole should be inspected at the cost of contractor.
25. Successful bidder has to appoint site engineer to maintain site register and FQP as per ISO.
26. All work should be done according to ISO & FQP and all require documents including filled FQP, testing results, etc should be submitted while handing over the project.
27. The above rates are with supply of cement by the contractor.
28. Control wiring must be executed as per standard Ferruling philosophy circulated by GETCO letter No;- CE(Engg)/PROT/V/Circular/346 dated. 14.03.2014. wiring terminations are to be made with standard Ferruling philosophy only. Only machine printed ferrules (Black letters on white tube) shall be utilized for each and every work.
29. Contractor has to make all required mechanical and electrical setting of all the isolators by deputing skill technician and offer for final inspection of all isolators.
30. All the brought out supply items shall be provided only specific make mention in schedule-B. No any alternative make shall be allowed.
31. Contractor has to submit the planning bar chart before starting the work in kickoff meeting.
32. Contractor has to complete all the work related to this title in stipulated outage period as per instruction of EIC.
33. After successful completion / commissioning of work awarded to agency in all respect, security arrangement shall be made by GETCO subjected to advance intimation at least 15 days before work completion. Till security arrangement by GETCO, contractor is responsible for security of project.
34. Ferruling should be done as per guide line given from HO as per letter NO: CE(Engg)/PROT/V/Circular/346.
35. Successful bidder has to appoint site engineer to maintain site register and FQP as per ISO.
36. Contractor has to ensure safe shifting dragging erection of all equipments to comply with labour laws I.E. rules etc.

37. Earthing pit activities should be done in such a way in presence of GETCO supervisor that final earthing pit resistance should be record as per standard. All expenditure like sufficient watering to maintain earth resistance up to the mark should be born by contractor.
38. Contractor has to make arrangement for skill labours for assisting to commissioning engineer as an when require as per instruction of Engineer in charge.
39. After completion of project successful bidder has to submit all the records like Final as build check survey, profile, clearance, foundation register, soil classification record, stringing chart, material inventory sheet etc in hard and soft copy for handing over the project.
40. All items / materials shall be installed / erected in accordance with specified manuals /technical guide lines of the manufacturer and as per instruction of EIC.
41. Successful bidder has to appoint site engineer to maintain site register and FQP as per ISO.
42. All work should be done according to ISO & FQP and all require documents including filled FQP, testing results, etc should be submitted while handing over the project.
43. Contractor has to submit the planning bar chart before starting the work in kickoff meeting.
44. Contractor has to complete all the work related to this title in stipulated outage period as per instruction of EIC.

GENERAL COMMERCIAL CONDITIONS :-

1. 10% retention money will be deducted from each R.A. Bills against material issued to contractor.
2. 10% amount of bill will be retained from each RA bill for the work executed after the scheduled date of completion and on finalization of time limit extension by competent authority; this amount will be released after deducting amount towards the time limit penalty plus GST as applicable if any.
3. As regard damage the materials, equipment and worker of the contractor, he himself will be responsible. If there is any compensation to be paid in respect of "WORKMAN" compensation act of any other statutory provisions, the same will have to be paid by the contractor direct. If he thinks fit he may take necessary insurance cover, at his cost.
4. The quantum of the work as mentioned in estimate/ schedule –'B' is tentative and it can be varied or differed as per site condition. The payment shall be made only on actual work executed or order quantity, whichever is less.
5. The tenderer will be abided by and fulfill all the terms and provisions of the "Tender & Contract" for works as applicable and incase of any default there to the GETCO shall forfeit the S.D. or any other action as may be decided by SE Circle office Jambuva
6. The cost of damages, if any will be recovered from the Contractor's bill. The assessment of which will be done by field Engineer at his sole discretion and his decision shall be binding to the contractor and shall be considered as final and unchallengeable.
7. GETCO shall deduct the GST and other taxes as per prevailing rules from each and every bill.
8. No part rate or reduced rate shall be allowed in final bill.
9. The contractor has to follow all labour laws, safety rules and regulations. The GETCO does not take any responsibility in case of accident or injury to the workers. The safety/ security of men, materials and equipments shall be sole responsibility of the contractor.
10. The compliances of all Central/ State Govt. rules, safety and insurance rules etc. and that of local body, is a must condition for the agency.
11. The Gujarat Energy Transmission Corporation Limited does not bind itself to accept the lowest or any tender. GETCO reserves the right to reject any or all tender without signing any reasons whatsoever.
12. The erection work should be commenced immediately from the date of receipt of instructions from office and should be completed within thereafter.
13. The tender includes all minor accessories and items of work which are not have been specifically mentioned in the specification schedule etc. but are essential for completion of work. The contractor will not be eligible for any extra payment in respect of such minor accessories and items of work.
14. Tenderer will be qualified only who have submitted all the required documents as mentioned in tender notice.
15. No higher rate or revised rate will be applicable for the work, if work is held up/ closed due to whatever so reasons.
16. GETCO will not pay any idle charge for any site conditions or any circumstances.
17. In case of any dispute/ doubt, the decision of SE Circle office, Jambuva shall be unchallengeable, final and binding to the contractor.
18. The contractor has to remain in close day to day contact with Engineer in charge of work i.e. **DE/JE of s/s** who will issue detailed instruction for the commencement of the work.
19. Contractor will abide by and fulfill all the terms and conditions and general terms and condition of the contract for works available in the office.
20. All other general terms and conditions as prevailing in the GETCO shall be applicable to the contract.
21. The contractor will have to complete entire job as per directive and instruction of Engineer in charge. If he fails to do so entire work will be carried out at contractor's risk and cost.
22. The contractor must engage sufficient knowledgeable persons round the clock, exclusively for oil filter machine provided by GETCO for oil filtration work. No loss of oil should occur and in case if occurs; its cost

will be recovered from contractor's bill. The contractor has to apply sufficient nos. of cycles for oil filtration works as decided by the Engineer in charge.

23. The tender shall be issued to only the experienced contractor who has completed such job of similar nature and magnitude satisfactorily in time. However, filling of on line tender, does not qualifies the tenderer to offer the bid.
24. Tender offer without payment of EMD required certificate, documents, list of tools, tackles, equipments etc. required for execution of job will be out rightly rejected without assigning any reason thereof and decision of Superintending Engineer, GETCO, Jambuva will be final and unchallengeable.
25. The Contractor will be governed by The GETCO's general conditions of works contract. The Booklet will be available in the concerned office in any working days. In the event of placing order, the contractor will have to sign this booklet along with other document and agreement. All the usual terms and conditions of the GETCO, through the same might have not been mentioned in this specification or contractor booklet will applicable to this contract, and the decision of the Superintending Engineer shall be binding on the contractor.
26. After completion of the work, all the surplus materials issued by the GETCO and dismantled materials shall be returned by you to the respective center of the GETCO as per instruction of Engineer in charge at your cost.
27. Specification in any items mentioned in tender are subject to change without any prior notice and binding to the contractor.
28. If the work is required to be carried out during fix outage then the contractor has to deploy adequate man power, material, tools etc. well in advance and has to complete the entire work during this specific outage period only, failing to which GETCO shall be at liberally to deduct the amount of revenue loss due to prolong outage.
29. If required by GETCO you shall have to provide free to and fro traveling facility to our Junior Engineer or Technical staff for the work.
30. The contractor shall not refuse to execute the work order at any time and it will be his sole responsibility to execute and complete this work as per the instruction of Engineer in charge.
31. For shortages of any materials issued by the GETCO for the work, recovery shall be made from you, on the basis of prices of the materials (prevailing on the date of settlement of materials account) plus 15% supervision charges plus GST as applicable.
32. No subcontractor, Power of Attorney shall be allowed without prior approval of competent authority.
33. All the materials issued by GETCO shall be transported to the work site on same day and to be preserved in safe custody failing to which GETCO shall initiate legal actions. Similarly as per instruction of Engineer in charge, you have to credit the material at GETCO store without any loss of time failing to which GETCO shall initiate legal action.
34. No tools, tackles, manpower, crane facilities etc. will be provided by the GETCO.
35. The contractor has to submit the list of tools, tackles, equipments with him along with his tender offer. The tender without this list and other required documents (as mentioned above herein the tender) should be rejected out rightly.
36. The contractor has to deploy minimum 8 to 10 skill labours/ fitters at site daily failing to which GETCO shall deduct 1,000/- per day plus Taxes (if any) as applicable from the bill.
37. The bidder shall specifically note that GETCO will not pay any extra amount towards any type of claim except for the description indicated in Schedule – 'B'. The party has to carry out all other/ additional required activities/ works as directed by Engineer in charge which is not mentioned in Schedule but required to be completed as per site condition and for this work no extra payment shall be made by GETCO.
38. GENERAL:-
    a) **The interpretation of specifications doubts etc**.:-In case of any doubts about what is mentioned in specification or schedule or elsewhere, the tenderer should get all doubts cleared from the Department in writing and in advance of filling in the Tender. In case of difference of opinion about interpretation of specification etc the decision of **Superintending Engineer, Circle office, GETCO, Jambuva** will be final and shall be binding to the contractor.
    b) **Accounts of Materials issued**:-The contractor shall have to maintain accurate day to day and item wise account of use of issued materials which shall be got checked from time to time by the representative of the GETCO. The contractor will be responsible for custody and preserving the issued materials till the work is handed over by the contractor after completion.
    c) The contractor has to maintain site register, covering all the daily details of material receipt and utilization, progress of work etc. This register shall be checked and signed by Engineer in charge and Executive Engineer during the site visit. Any bill without site register shall not be passed.
39. The contractor shall be responsible for breakages, losses and theft of material during transit or erection after the materials issued from the stores till the completion of work and is taken over by the GETCO.
40. The contractor will be responsible for the loss, distribution of deterioration of the materials, stores or articles supplied to him by the GETCO, even if such a loss distribution or deterioration has occurred under any

circumstances whatsoever beyond his control as if the materials, stores or articles so supplied were his property.

41. The contractor shall co-operate with the GETCO in recording measurement etc. as expeditiously as possible and he shall fulfill all the requirements which are necessary to finalize the accounts on the basis of its records and pay him such amount as if found due to him together with the amount of security deposit. If any remaining payable to him after deduction there from the amount due by him to the GETCO. The GETCO shall not entertain further claim from thereafter.
42. The competent authority can delete any item in schedule of the tender, if he feels that the rate quoted by the contractor for that item is abnormally high when compared to the estimated rates.
43. **Delivery of Material: -**All material/ equipment required for this work as per schedule shall be allotted from any store centers of GETCO and contractor has to take delivery from these stores at his own cost only. **All material/ equipment required for this work as per schedule shall be arranged by contractor.**
44. You will ensure that completion of erection work i.e. all works connected with substation having been completed correctly as per Indian Electricity Rules & procedure. Any extra cost involved due to incompleteness of work or bad workmanship found out Subsequently shall be set right forth with by you at your own cost.

INDEMNITY BOND

(Non Judicial Stamp Paper of Rs. 300/-)

KNOW ALL MEN BY THESE PRESENTS that we, Messer's _____

_____ (hereinafter called "the Contractor" which expression shall, where the context so admits, include their heirs, executors, administrators and legal representatives, successors and permitted assigns) are hereby held and firmly bind unto the Gujarat Energy Transmission Corporation Ltd (hereinafter called "the GETCO" which expression shall, where the context so admits, include its successors and assigns) to refund the full amount of materials supplied by the GETCO under the terms and conditions of A/T No. _____ _____ dated _____ against any loss damage or deterioration of whatsoever nature occurs to said materials supplied by the GETCO and which are in the custody of the contractor at their works site, on behalf of the GETCO, at (name of line) _____ , and / or if any of the said materials, when inspected by any officer authorized by the GETCO in this behalf, is found to be damaged, lost, deteriorated in quality or quantity, the contractor hereby agrees to bind himself to indemnity and at all times keep indemnified the GETCO against all loss, damage and deterioration to the any material supplied by the GETCO during his custody and shall pay in cash on demand from the GETCO within 30 days the market value of such materials which is lost, damaged or deteriorated in full to the GETCO and shall also hereby authorize the GETCO to deduct the said sum from any sum due to the contractor or any sum which may at any time become due to the contractor under the above referred contract or any other contract entered into by the contractor with the GETCO.

AND WHEREAS the contractors do hereby agree to be responsible for the safe custody and protection and preservation of the said materials against all risks, excluding war risks and against loss, damage and deterioration of whatsoever nature in respect of the said materials while it remains in the custody and possession of the contractor.

AND WHEREAS the said materials shall at all times be open for inspection by any officer authorized by the GETCO

Now the conditions of the above written bond are such that the contractor shall pay the full amount forthwith to the GETCO in the event of loss, damage or deterioration or whatsoever except due to circumstances arising out of war in respect of the materials supplied by the GETCO and shall fully and effectually indemnify and keep indemnified to the GETCO against such loss, damage and deterioration.

The contractor shall keep the said materials open at all times for inspection by the officers authorized by the GETCO and produce at any time when demanded.

SAFETY CUM INDEMNITY BOND

(On Non-judicial Stamp paper of value not less than Rs. 300.00)

KNOW ALL MEN BY THESE PRESENTS that we, _____ by this SAFETY CUM INDEMNITY BOND Executed on this _____ Day of _____ 2026. We Having Registered Office _____(herein after called "THE CONTRACTOR" which expression shall mean and includes my /our heirs, executors, administrators and legal representatives, successors and permitted assigns) do hereby binds myself/ourselves and also our company/firms after having the power to bind by this promise and undertaking in favour of the Gujarat Energy Transmission Corporation Limited (GETCO), Vadodara a State Transmission Utility under The Electricity Act, 2003 having its registered office at Sardar Patel Vidyut Bhavan, Race course, Vadodara.(hereinafter called as GETCO, which expression shall mean and include its legal representative, administrators assigns) has agreed under the terms and conditions of the contract no._____ dated_____made between _____ and _____for the contract of the _____value of Rs. _____ interalia on production of Safety Cum Indemnity Bond.

We do hereby undertake and agree to Indemnify and keep Indemnified GETCO from time to time to the extent of Rs._____ Rupees_____only against any losses or damages, costs, charges and expenses caused to or suffered by reason of the CONTRACTOR while Project, R&M, O&M work including work carried out by outsourcing agency, failing to take proper care or not complying the guidelines given hereunder as per Annexure-A and instructions which may be given from time to time during the continuance of the contract and we further undertake to unconditionally pay the amount claimed by the GETCO on demand and without demur to the extent aforesaid.

Whereas the CONTRACTOR has/have been awarded to execute the job/works under order no._____, dated _____ for _____._____ issued by the GETCO after having observing necessary formalities, the details of which is described in the order no._____ dated _____ and whereas the said job/works will be /likely to be done in places covered under Employees' State Insurance Act,1948 (ESI) and /or the Workmen Compensation Act,1923 and /or other laws relating to the Labour Management and Welfare Act. (Respective Amendments)

And whereas according to the condition of the Contract the CONTRACTOR is under obligation to execute this Safety cum Indemnity Bond before the commencement of actual execution of work.

Now the indenture witnesses that I/We the CONTRACTOR do hereby undertake to follow the guidelines as per Annexure-A prepared by the GETCO.

Further we the CONTRACTOR agree that the GETCO shall be sole judge of and as to whether there has been any breach of the guidelines as per Annexure-A of this bond and as to the extent of the loss, damages, costs, charges and expenses caused to or suffered by the GETCO.

We the CONTRACTOR further agree that our liability under this bond shall not be discharged because of the change in the constitution of the GETCO or for the extension of the time limit or for any other reason.

We the CONTRACTOR further agrees to the given terms and conditions:

a. That the CONTRACTOR undertakes /undertake to indemnify and keep harmless the GETCO from all claims, actions, proceedings and risk, damage danger to any person whether belonging or not belonging to the. CONTRACTOR.

b. That the CONTRACTOR shall keep harmless the GETCO from all claims, compensation, damages any proceedings in respect of any of its employee / workmen under the Workmen Compensation Act or any other laws for the time being in force.

c. That, if during the course of execution of work as stated in the contract order mentioned hereinabove issued by the OBLIGEE, it is found that the CONTRACTOR has not complied with guidelines as per Annexure-A or terms and conditions / formalities within the meaning of Employees' State Insurance Act,1948 (ESI) or Workmen Compensation Act 1923 or any other laws relating to the Labour Welfare for the time being in force, and also has not observed the safety norms in accordance with the law prevailing at the place of work/job to the satisfaction of the GETCO, the GETCO shall have the right to stop the execution of work/job and the period of such stoppage shall not be taken into account for the calculation of the total period of completion of work for which the CONTRACTOR is responsible to complete the work/job and it will be deemed that discontinuance was due to default of the CONTRACTOR .

d. That, if any time, due to exigency, GETCO as the Principle Employer, becomes liable to pay any such compensation mentioned hereinabove, whether on failure of the CONTRACTOR or for any other reason, the GETCO shall have the right to recover the said amount from any amount receivable by GETCO or any bank guarantee deposited or anything payable whether in connection with this contract \ or other contract by the CONTRACTOR to the OBLIGEE.

e. That the CONTRACTOR is/are aware and accept that for the persistent or repeated violation of any guidelines as per Annexure-A and terms and conditions mentioned in this Safety cum Indemnity Bond, GETCO shall have right to terminate the contract of work issued to the CONTRACTOR .
f. In case if any safety related fatal Electrical / Mechanical accident occurred to any employee of agency or outsider due to negligence or non-compliance of GETCO safety norms then in addition to the compensation and liability as per statutory requirement, contractor / agency is hereby agreed to pay the penalty amount as given below:

Sr. no	Amount of Contract in Rs.	Penalty amount
1	Up to 1 Lac	Rs. 5000/- + applicable taxes (if any)
2	Above 1 Lac to 10 Lacs	Rs. 40,000/- + applicable taxes (if any)
3	10 Lacs to 100 Lacs	Rs. 1,00,000/- + applicable taxes (if any)
4	More than 100 Lacs	1.0 % of contract value + applicable taxes (if any)

g. I/We the CONTRACTOR hereby confirm that in case of any dispute/difference for settlement of claims under this Safety Cum Indemnity bond the courts in Gujarat State wherever job/work is performed or as per GETCO norms shall have the jurisdiction to decide the rights & liabilities of the parties while adjudicating the matter of claims under this Safety Cum Indemnity Bond.
h. This Safety cum Indemnity Bond shall continue and hold good until it is released by the GETCO in Writing on the CONTRACTOR's application after the Contractor has discharged all his obligations under the order mentioned hereinabove and submitted a "NO DEMAND CERTIFICATE" from the GETCO under the said order. The Safety cum Indemnity Bond shall be valid for a CONTRACT PERIOD and renewable thereof (Claim Period).

i. This Safety cum Indemnity Bond and the guidelines as per Annexure-A herein contained are in addition to And not by way of limitation or substitution for any other guarantee, indemnities Hereto before given to the GETCO by the

CONTRACTOR and this Indemnity does not Revoke or limit such indemnities or guarantees. IN WITNESS WHERE OF the Parties hereto have executed this indenture the day the year First hereinabove written.

BANK GUARANTEE FOR SECURITY DEPOSIT/PERFORMANCE

In consideration of the …….. [Insert name of the Supplier / Contractor / Agency, Address] who have entered into a contract for works specified below :

L.O.I./L.O.A No._____dated_____with Gujarat Energy Transmission Corporation Limited (herein after referred to as GETCO), We …… [Insert name and address of the bank issuing the guarantee and address of the Registered office] (hereinafter referred to as "Guarantor Bank") hereby agrees unequivocally, irrevocably and unconditionally to pay to the GETCO at Circle Office, Jambuva forthwith on demand in writing from the GETCO or any Officer authorized by it in this behalf, any amount up to and not exceeding Rupees ……only [Insert the amount of the bank guarantee].

This Bank Guarantee shall be valid and binding on the Guarantor Bank up to _____with a right to seek encashment for a period up to 30 days from the said Date (Date of Expiry of BG) and shall in no event be terminable by notice or any change in the constitution of the Bank or the term of the Agreement or by any other reasons whatsoever and our liability hereunder shall not be impaired or discharged by any extension of time or variations or alternations made, given, or agreed with or without our knowledge or consent, by or between parties to the respective agreement.

Our liability under this Guarantee is restricted to Rupees… (Rs. …….. only). Our Guarantee shall remain in force until …… [Insert Date of Expiry of BG]. The GETCO shall be entitled to invoke this Guarantee any time up to thirty (30) days of the last date of the validity of this Guarantee i.e_____ [Date of Expiry of BG + 30 days] by issuance of a written demand to invoke this guarantee.

The BANK GUARANTEE can also be presented at the _____ [hereinafter referred to as Local Branch at Vadodara] of the _____ (Issuing Bank of BG) for its Invocation.

The Guarantor Bank hereby expressly agrees that it shall not require any proof in addition to the written demand from the GETCO, made in any format, raised at the above mentioned address or local branch at Vadodara of the Guarantor Bank, in order to make the said payment to the GETCO at Vadodara. The Guarantor Bank shall make payment hereunder on first demand without demur and without raising any restriction or conditions and notwithstanding any objection by, …… [Insert name of Contractor/Supplier/Agency] and/or any other person.

The Guarantor Bank shall not require the GETCO to justify the invocation of this BANK GUARANTEE, nor shall the Guarantor Bank have any recourse against the GETCO in respect of any payment made hereunder.

This BANK GUARANTEE shall be a primary obligation of the Guarantor Bank and accordingly the GETCO shall not be obliged before enforcing this BANK GUARANTEE to take any action in any court or arbitral proceedings against the _____(Name of party) to make any claim against or any demand on the _____(Name of party) or to give any notice to the _____(Name of party) or to enforce any security held by GETCO or to exercise, levy or enforce any distress, diligence or other process against _____(Name of party)
This BANK GUARANTEE shall be interpreted in accordance with the laws of India and the courts at Vadodara shall have exclusive jurisdiction.

The Guarantor Bank represents that this BANK GUARANTEE has been established in such form and with such content that it is fully enforceable in accordance with its terms as against the Guarantor Bank in the manner provided herein.

This BANK GUARANTEE shall not be affected in any manner by reason of merger, amalgamation, restructuring, liquidation, winding up, dissolution or any other change in the constitution of the Guarantor Bank.

The Guarantor Bank hereby agrees and acknowledges that the GETCO shall have a right to invoke this Bank Guarantee either in part or in full, as it may deem fit.

Any Demand made by GETCO on the Guarantor Bank or its Local Branch at Vadodara shall be conclusive and binding not withstanding any difference between GETCO and _____[Name of Supplier/Contractor/Agency] or any dispute pending before any Court, Tribunal, Arbitrator or any other Authority.

Notwithstanding anything contained hereinabove, our liability under this Guarantee is restricted to Rs. …….. (Rupees. …….. only) and it shall remain in force until ……[Insert date of validity of BG], with an additional claim period of thirty (30) days of the last date of the validity of this Guarantee i.e_____ [Date of Expiry of BG + 30 days]. We are liable to pay the guaranteed amount or any part thereof under this Bank Guarantee only if the GETCO serves upon us a written claim or demand.

In witness whereof the Bank, through its authorized officer, has set its hand and stamp on this …….. day of …… at ……

ANNEXURE-A

OUR ENDEVOUR - Safety a habit

To create environment where Business Confidence is built through Best Business Practices and is fostered in an atmosphere of trust and respect between providers of goods and services and their users for the ultimate benefit of society a the nation, safety guidelines are agreed upon by the agency as under.

Safety is our prime concern and zero accident is our goal. In order to prevent the accident, while execution of works in indoor and outdoor systems of GETCO, the following guideline and preventive measures are identified.

Indoor safety precaution	Outdoor safety precaution
The method of work required T&P and manpower should be discussed between GETCO supervisor, contractor's supervisor and gang leaders.	The method of work required T&P and manpower should be discussed between GETCO supervisor, contractor's supervisor and gang leaders.
Prior to execution of work a joint survey must be conducted by GETCO supervisor, and contractor's supervisor for risk assessment.	Prior to execution of work a joint survey must be conducted by GETCO supervisor, and contractor's supervisor and DISCOM line man in order to identify the following.
• Clearly identify the work location, to distinguish between the equipment that is dead and other equipment / part that may be live. • Disconnect the equipment from supply. • Protect against other live parts. • Take special precautions when close to the bare conductors/bus bar	a.HT/LT line or tap line crossing under each span of line of the work. that b. Isolation point of each line crossing. c.Each line crossing & isolation point under each span must be discussed and noted in maintenance register with sketch
Following safety guidelines are mandatory for all contractors operating in GETCO premises for Electrical, non-electrical & civil works. 1) The contractors must provide advance planning of work to concerned in-charge of substation in writing. 2. Before starting any work whether switch yard, "permit to allow to work" must be taken from control room in-charge. 3. Utilizing Electrical / non-electrical . equipments, safety rules must be implemented. 4. If the work is to be carried out on Sunday or public holiday, the necessary permission must be taken in advance, requesting in writing. 5. Unwanted person including children of labours will not be allowed at working site/ in the switchyard and in the prohibited area. 6. Any electrical work or electrical connections to equipment for any other work must be carried out by certified electrician/wiremen with adequate size of wire through MCB as per I.E. Rule.	Contractor's supervisor and GETCO Supervisor must ensure all isolations physically with adequate earthing technically prior to give clearance to gang leader for taking up job. While execution of stringing work, the identified line crossing must be isolated / de-energized and written clearance should . be obtained from concerned DISCOM supervisor. The isolation of Tap line must be physically seen and verified by Contractor and GETCO supervisor. At D.O. fuse junction contractors person should be posted to ensure that no person restore D.O. supply while work is under execution. Contractor's supervisor must ensure that concern officer take LCP for EHV line and power line crossing.

- Live penal area / bus bar must be isolated and sealed / bifurcated with red colour tape for visible warning. - Display Board must hang on LCP panel. - Transformer must be switched off whenever and wherever contractor and line workers are not satisfied with isolation, earthing or any equipment performance of GETCO, it will be pointed out and work shall begin only after resolution. Contractor shall not take up job in absence of GETCO authorized person. All wire temporary connection & material whenever erection activity has any connection and disconnection work of bus bar, string bus.	
All workers / labour of contractor & supervisors must use personal protective equipment (PPE) during the work like gloves, safety belt, Safety shoes, Helmet, earthing rods, etc, duly approved by GETCO.	All workers / labour of contractor & supervisors must use personal protective equipment (PPE) during the work like , gloves, safety belt, Safety shoes, Helmet, earthing rods, Live line detector etc, duly . approved by GETCO.
The local earthing must be done at the place of work before execution of any work.	The local earthing must be done at the place of work before execution of any work.
11 kV breaker in panel must be switched off and racked out only after ensuring no voltage in breaker and without door opening.	Circuit breaker opening is not an isolation and isolator on either side must be opened. No work during rains and cloudy weather condition.
	Transmission line activities. 1) Used of Voltage detector to ensure outage. 2) Earthing at three point, local, left & right side of bus bar / string bus. 3) Match line colour code with colour of wrist band.
	Local earthing of electrical equipments like filter M/c, welding machine, testing kits etc. is must. Crane shall only be used for material handling and erection. Working platform shall only be used for work in switchyard.

Jambuva – 390014.

Ref: Tender Notice No……

With reference to above your tender Notice No……..
For the work of……

We do not have any type of relationship with any current employees of GETCO.

Yours Faithfully,
(Signature of the Tenderer)

(This Performa should be submitted along with Tech. Bid)

To, Date:
The Superintending Engineer
Transmission Circle,
GETCO, Jambuva

Sub: - Application for refund of EMD

Respected Sir,

I request your good self to refund my EMD for the tender mentioned below .The details are as under :

Sr. No.	Description	Detail to be submitted by party.
1	Tender No.	
2	Tender ID	
3	Name of Work/Subject	Work for height raising of Control Room with dismantling of old 11 kV VCB Panels, 66 KV C&R Panels, battery charger, LT panel etc. & Erection of new 11kV VCB Panels on newly height raised CR floor, erection of old 66 kV C&R Panels, battery charger, LT panel etc. at new location at 66kV Atladra SS under Gotri AM Division in respect to mitigate the waterlogging issue during monsoon under R & M Plan 25-26 RE
4	EMD Amount	
5	EMD DD No., Date of EMD & Name ofBank	
6	Name of Bidder	
7	Contact No.	
8	E-mail address	

Thanking you,

Faithfully yours,

(Name & Seal of Bidder)

(To be submitted on firms letter-head. Duly stamped & signed)

Ref. No. Date :

To,
Superintending Engineer
Gujarat Energy Transmission Corporation Ltd
Circle Office, **Jambuva**
Jambuva – 390014

Sub: **Letter of acceptance of LOI**

Ref: AT/LOI No: _____ , dated _____

We hereby agree, admit and acknowledge the receipt of your above referred Acceptance of Tender for the **Work for height raising of Control Room with dismantling of old 11 kV VCB Panels, 66 KV C&R Panels, battery charger, LT panel etc. & Erection of new 11kV VCB Panels on newly height raised CR floor, erection of old 66 kV C&R Panels, battery charger, LT panel etc. at new location at 66kV Atladra SS under Gotri AM Division in respect to mitigate the waterlogging issue during monsoon under R & M Plan 25-26 RE**." We hereby further agree to all the terms and conditions mentioned in the tender, LOI and A/T unconditionally.

Thanking You,
Yours faithfully,

for _____

Seal & Signature of Bidder

Placing Vendors/Contractors for Purchase/Works in a Stop deal/Banned for business dealing/blacklisting:

1.1. Stop deal / banned for business dealing / blacklist means debarment of parties from participating in the tendering process.

1.1.1. Firm will mean Bidder / Licensor / Tenderer / Consultant / Vendor / Contractor.

1.1.2. Reasons for Putting a Firm on Stop deal / banned for business dealing / blacklisting, is to protect the GUVNL and its subsidiary Companies from dealing with undesirable firm.

1.2. The list of indicative reasons for placing the firm in a Stop deal / banned for business dealing / blacklist are as Under.

A Firm will be placed in a Stop deal / banned for business dealing / blacklist, if the Firm-

1.2.1. Has submitted fake, false or forged documents / certificates,

1.2.2. Has revised / withdrawn price bid after opening of Techno – commercial bid, until and unless it is sought for,

1.2.3. Has tampered with the stipulated tendering procedure.

1.2.4. Has refused to accept letter of Acceptance / purchase Order / Work Order after the same is issued by the Company within the validity period and as per agreed terms and conditions,

1.2.5. Has committed breach of contract or has failed to perform a contract or has abandoned the contract,

1.2.6. Has failed to provide suitable expertise for the work as per per-scheduled program.

1.2.7. Has failed to submit all the necessary tests reports / documents within time schedule / as per company's time limit, as mentioned in the LOI, if the letter of Acceptance (LOA) is placed subject to submission of type reports / documents to the firm.

1.2.8. Has indulged in construction and erection of defective works.

1.2.9. Has supplied inferior quality / defective materials and refused to replace with stipulated time frame, as specified by the company,

1.2.10. Has substituted materials in lieu of materials supplied by the company or has not returned or has short returned or has unauthorisely disposed of materials / documents / drawings / tools or plants or equipment supplied by the Company,

1.2.11. Has involved in malpractices such as bribery, corruption, fraud, canvassing and pilferage,

1.2.12. Has unauthorisely obtained official company information or copies of documents, in relation the tender / Contract.

1.2.13. Has failed to follow the stipulated mode of communication, if specified by the tendering authority / purchaser.

1.2.14. Has parted with, leaked or provided confidential / proprietary information of the Company given to the firm only for its use (in discharge of its obligation against an order) to any third party without prior consent of the Company,

1.2.15. Any other ground for which in opinion of the company makes it undesirable to deal with the Firm, and

1.2.16. In case the State Government directs the Company to place a firm in stop dealing / banned for business dealing / banned for business dealing / blacklisting.

1.3. Every bidder should at the time of submission of bid, give a declaration that bidder and / or proprietor / partner / Director of the firm has not been placed on stop dealing / banned for business dealing / blacklisting by GUVNL and It's any subsidiary Companies as per **ANNEXURE-13**

PRICE BID- JTC / 26-27 / n-177
Schedule-B

Work for height raising of Control Room with dismantling of old 11 kV VCB Panels, 66 KV C&R Panels, battery charger, LT panel etc. & Erection of new 11kV VCB Panels on newly height raised CR floor, erection of old 66 kV C&R Panels, battery charger, LT panel etc. at new location at 66kV Atladra SS under Gotri AM Division in respect to mitigate the waterlogging issue during monsoon under R & M Plan 25-26 RE

Sr. No.	SOR2025-26	Description	Unit	Qty.	Rate	Amount
1	Part D, Sr.No.13	Laying of any size of 11/22kV XLPE cable including excavation of trench 300 mm wide & 600 mm deep including laying and filling up sand of 100 mm layer from bottom & bricks on three side of cable & refilling the trench with murram/soil & ramming etc. Required bricks, sand, power cable marker/ C.I. /G.I. plate etc. will have to be supplied by the contractor. Rates are inclusive of shifting of cable drum to the site from S/S site store. Drum should be handled only by jacking to avoid damage to cables.	Mtr	250.00	138.00	34,500.00
2	Part-D, Sr.No.13 50% of Rate	Removing of any size of 11/22kV XLPE cable including excavation of trench 300 mm wide & 600 mm deep including laying and filling up sand of 100 mm layer from bottom & bricks on three side of cable & refilling the trench with murram/soil & ramming etc. Required bricks, sand, power cable marker/ C.I. /G.I. plate etc. will have to be supplied by the contractor. Rates are inclusive of shifting of cable drum to the site from S/S site store. Drum should be handled only by jacking to avoid damage to cables.	Mtr	200.00	69.00	13,800.00
3	Part-D, Sr.No.14	Laying of any size of 11/22kV XLPE cable in ready made cable trench or in open space. Rates are inclusive of shifting of cable drum to the site from S/S site store. Drum should be handled only by jacking to avoid damage to cables.	Mtr	650.00	63.00	40,950.00
4	Part-D, Sr.No.14 50% Rate	Removing of any size of 11/22kV XLPE cable in ready made cable trench or in open space. Rates are inclusive of shifting of cable drum to the site from S/S site store. Drum should be handled only by jacking to avoid damage to cables.	Mtr	400.00	31.50	12,600.00

5	Part-D, Sr.No.24b	Installation of earthing strips / MS round bar ***in any kind of soil except Rocky(HR/SR) Soil*** as per earthing philosophy of GETCO **Earthing Grid:** 1) Including digging of 600mm depth and 450mm wide trench. 2) Cutting, bending, laying and fixing of Earthing grid conductor. 3) 75x10mm / 50x6mm GI strips: Fixing of two bolt at each straight joints and lap welding, removing oxide films formed during welding, applying two coats of red oxide and black powder after welding and applying zinc rich paint on welded joints. 4) 25/32/36/40MM dia MS Rod: Lap welding at each straight & cross joints, removing oxide films formed during welding, applying two coats of red oxide and black powder after welding and applying zinc rich paint on welded joints. 5) Including supply of red oxide paint, black powder, HDGI Nuts & bolts as per specification.6) Back filling of the trench with yellow/ Normal soil. Structure & Equipment earthing: 1) Including digging of 600mm depth and 450mm wide trench. 2) Cutting, bending as per required shape, laying and fixing of risers from Grid to structures and Equipments. 3) Lap welding, removing oxide films formed during welding, applying two coats of red oxide and black powder after welding and applying zinc rich paint on welded joints including supply of HDGI Nuts & bolts for all connections including suporting to structures etc as per specification. 4) Back filling of the trench with yellow/ Normal soil. **b) 50 x 6 mm GI strip**	Mtr	255.00	43.00	10,965.00
6	Part-D, Sr.No.27c	(c) Supply,Installation,Testing and commissioning of maintenance free treated earth electrodes suitable for NORMAL SOIL as per drawing No.. GETCO/E/STD/P-021 (1 OF 2) R3 dated 29-05-2020 and technical specifications GETCO/E/TS-Maintenance free earth pits/R1 dated 04-06-15 for 132,220 & 400 kV substations with ground enhancement material/ back fill / grounding compound as per IEEE 80-2000 Clause 14.5 (d) and as per part-7 of IEC-62561 Using Copper bonded earth electrode (with 250 micron copper coating) having 38 mm dia (min) and 3000 mm length which shall be capable of handling STC of 40 KA-1 sec.	No.	5.00	18,171.00	90,855.00

		work also includes Providing BB masonary inspection chamber(manhole) incl. light type CI cover.				
7	Part-D, Sr.No.31	Fabrication for erection of any Equipment/Structure/panel or anywhere in s/s & F.B. at other endas per Inst. Of E.I.C.	L.S	1.00	4,992.00	4,992.00
8	Part D Sr.no 44	Providing and fixing of Radium sticker for outdoor and Indoor Equipment Identification like LA, Isolator, Circuit Breaker, Transformer, CT, PT, MK Box, C&R Panels, 11kV Panel borad etc	Sq. inch	3,000.00	2.00	6,000.00
9	Part-D, Sr.No.47	Labour charge for **fixing of 11kV XLPE Indoor/Outdoor cable kit** of any make for 11kV, 3C x 95 sqmm to 300 sq.mm XLPE power cable. Cable kit will be provided by GETCO.	No.	34.00	748.00	25,432.00
10	Part-D, Sr.No.49	Providing & Fixing of RAYCEM/MSEAL/CABSEAL or equivalent approved make from GETCO heat shrinkable type **11kV XLPE straight through joint kit** suitable for 11kV, 3C x 95 sqmm to 300 sq.mm XLPE power cable.	No.	18.00	3,310.00	59,580.00
11	Part-H, Sr.No.1d	Erection of control panel relay panel or C/R panel or RTC panel including grouting of panel, jointing with adjoining panels including required fabrication for entry of control cables and complete vermin proofing. Job includes supply of required bolts, nuts etc. and shifting of panel from S/S site store to work site. d) 66 kV	Per No.	9.00	691.00	6,219.00
12	Part-H, Sr.No.1d 50% Rate	Dism. of control panel relay panel or C/R panel or RTC panel including grouting of panel, jointing with adjoining panels including required fabrication for entry of control cables and complete vermin proofing. Job includes supply of required bolts, nuts etc. and shifting of panel from S/S site store to work site. d) 66 kV	Per No.	9.00	345.50	3,109.50
13	Part-H, Sr.No.2	Erection of 11KV CB panel of any make including grouting, jointing with adjoining panels & horizontal , vertical levelling including required fabrication in control panel or required stone cutting in flooring for entry of power cable, control cable, including interpanel wiring and complete vermin proofing. Job includes supply of required bolts, nuts etc. and shifting of panel from S/S site store to work site.	Per No.	29.00	2,076.00	60,204.00
14	Part-H, Sr.No.2 50% Rate	Dismantling of 11 KV CB panel of any make and shifting of panel from S/S site.	Per No.	25.00	1,038.00	25,950.00

15	Part-H, Sr.No.3	Erection of 11 KV CB panel of any make including grouting, jointing with adjoining panels & horizontal, vertical leveling including required fabrication for entry of power cable,, control cable and complete vermin proofing , job includes supply of required bolts, nuts etc and shifting of panel at work site. **For LT panel GETCO including fixing of all switches bus bars etc.**	Per No.	1.00	968.00	968.00
16	Part-H, Sr.No.3 50% Rate	Dismentalling of 11 KV CB panel of any make including grouting, jointing with adjoining panels & horizontal, vertical leveling including required fabrication for entry of power cable,, control cable and complete vermin proofing , job includes supply of required bolts, nuts etc and shifting of panel at work site. **For LT panel GETCO including fixing of all switches bus bars etc.**	Per No.	1.00	484.00	484.00
17	Part-H, Sr.No.4	Erection of battery charger of any make as per manufacture 's instruction manual including grouting , vermin proofing	Per No.	1.00	968.00	968.00
18	Part-H, Sr.No.4 50% Rate	Dismentalling of battery charger of any make as per manufacture 's instruction manual including grouting , vermin proofing	Per No.	1.00	484.00	484.00
19		Laying of 1.1 KV PVC armored copper/ aluminum cable inside Hume pipe/cable trench including binding/clamping of cable with GI wire as per requirement including supply and fixing of identification tags on both ends and at distance every **10** mtr for following size.				
	Part-H, Sr.No.7a	a)2C × 2.5 mm^2 ,2 C × 3.5 mm^2 , 4C x 2.5 mm^2, 7C × 2.5 mm^2, 4C x 4 mm^2 copper control cable or any equivalent size of all LT cable.	Per RMtr.	1,065.00	6.00	6,390.00
	Part-H, Sr.No.7b	b) 12C x 2.5 mm^2, 12C x 6 mm^2, 19C x 2.5 mm^2, 27C x 2.5 mm^2, copper control cable, 3.5 C or 4 C x 10 mm^2, 70 mm^2 aluminum armored or unarmored LT power cable.	Per RMtr.	1,105.00	10.00	11,050.00
20		Laying of 1.1 KV PVC armored copper /aluminum cable in ground by digging trench of suitable width and 450 mm depth in any type of soil including supply and fixing of identification tag on both end and at distance every 10 mtr for following size				
	Part-H, Sr.No.8a	a)2C × 2.5 mm^2 ,2 C × 3.5 mm^2 , 4C x 2.5 mm^2, 7C × 2.5 mm^2, 4C x 4 mm^2 copper control cable or any equivalent size of all LT cable.	Per RMtr.	54.00	21.00	1,134.00
	Part-H, Sr.No.8b	b) 12C x 2.5 mm^2, 12C x 6 mm^2, 19C x 2.5 mm^2, 27C x 2.5 mm^2, copper control cable, 3.5 C or 4 C x 10 mm^2, 70 mm^2 aluminum armored or unarmored LT power cable.	Per RMtr.	77.00	26.00	2,002.00

21	Part-H, Sr.No.11a	**Termination** of Control Cable at Panel / M.K./ Equipments including supply of required size of **double compression type metal glands**, lugs, ferrules, PVC Binding Tape, Buttons, **Cable ties**, etc. for **following size of cables. a) Up to 7 Core Control Cable.,**	End	6.00	199.00	1,194.00
22	Part-H, Sr.No.11b	**Termination** of Control Cable at Panel / M.K./ Equipments including supply of required size of **double compression type metal glands**, lugs, ferrules, PVC Binding Tape, Buttons, **Cable ties**, etc. for **following size of cables. b) As above but for Above 7 Core Control Cable.,**	End	24.00	349.00	8,376.00
23	Part-H, Sr.No.12	Providing & installation and commissioning of remote control switch board for ON/OFF control of all 11kv panel at operator table with supply of good quality metal sheet box (18 SWG) size 450 x 450 x 125 mm with door, 20 nos standard ISI make and rating industrial push botton, indication lamp(LED), **terminal connectors fixed on c-type channel, etc.** with installing accept/reset arrangement with required ISI marked copper flexible wire size 2.5 Sq. mm including complete wiring in PVC pipe and fixing on wall as per inst. of EIC.only 19/27 core x 2.5 sqmm cable supply by GETCO.	Job	3.00	6,489.00	19,467.00
24	Part L. (1)	Transportation of Girder, Rail, All types of substation / tower structures, conductor, Insulator, Cables, Hardware, G. I. Strips, Earthwire, Staywire, Furniture, Transformer oil, Breaker, CT, PT LA, Panels, Battery set, Battery charger, PLCC equipment, Isolator, Testing equipment, etc from GETCO's nearest / any Store Centre/ Substation to another destination including loading and unloading.				
	Part L. (1) i	up to 70 KMs (Upto 6 MT) - Lumsum (To be executed / considered for a particular Job / Lot while weight is not increasing 6 MT per Trip like transportation of 03 Nos. of 66kV CT)	Job / Lot	5.00	16,848.00	84,240.00
	Part L.(1) (iii)	Beyond 70KMs*	per MT/KM	1,200.00	22.00	26,400.00
					A) Total Rs.	**5,58,313.50**
					B) Percentage above / below =_____ % of (A) above/Below Amount Rs.	
					C) Total quoted price (C = A+B) Rs.	
					D) GST @ 18 % on (C) in Rs.	
					E) Grand Total in Rs. (E= C + D) Rs.	

	NOTES :-
1	All the activities related to erection, testing and commissioning work shall be carried out as per the manual of OEM (Original equipment manufacturer), standard FQP and instruction of engineer-in-charge .

2	All equipment erection charges are inclusive of shifting dragging handling of the respective equipment up to S/S erection site from its S/S site store but exclusive of GST.
3	Contractor has to ensure safe shifting, dragging & erection of all equipments to comply with labour laws & I.E. rules etc.
4	All erection charges are inclusive of fixing of clamp connectors, all necessary accessories to the respective equipment
5	Transformer erection charges cover shifting dragging, handling etc. for its bushings radiators conservator tank and allied accessories.
6	All erection work includes erection insurance to be arranged by the contractor at his cost.
7	**STORAGE CUM ERECTION INSURANCE** :- Bidder shall note that storage cum erection insurance is to be taken at his own cost amounting **Rs.1.65 Crore** to complete subjected work
8	Bidder shall have to take the comprehensive Marine cum Erection (MCE) insurance policy against any loss, damage, theft, pilferage, fire etc. for the complete period of storage, erection and commissioning up to the time of taking over the line or S/S by GETCO.
9	All the required tools and tackles like conductor, earth wire compression, jointing machine, cutting machine, welding set etc, are to be arranged by the contractor at his cost.
10	Contractor should complete transportation within one job as per above schedule. No extra payment will be given in any case other than this job.
11	For power transformer oil filtration the filter machine shall be arranged by Contractor at his own cost.
12	Earthing pit activities should be done in such a way in presence of GETCO supervisor that final earthing pit resistance should be record as per standard. All expenditure like sufficient watering to maintain earth resistance up to the mark should be borne by contractor.
13	All the brought out items get to be approved from DE/EE invariably.
14	The execution of bore are to be carried out as per soil strata in consultation with E.E. .
15	The Classification of hard rock strata should be got approved from E.E. invariably.
16	Contractor has to make arrangement for site engineer and skill labors for maintaining all activities and records as per FQP. also assisting to staff/Engineer in charge to take IR values, Earth pits values, name plate detail, oil samples etc all activities relative to commissioning of project.
17	Contractor has to make arrangement for skill labors for assisting to commissioning engineer, PLCC staff/engineer, SMS/testing staff/Engineer as an when require as per instruction of Engineer in charge.
18	All items / materials shall be installed / erected in accordance with specified manuals /technical guide lines of the manufacturer and as per instruction of EIC.
19	Successful bidder has to appoint site engineer to maintain site register and FQP as per ISO
20	All work should be done according to ISO & FQP and all require documents including filled FQP, testing results, etc. should be submitted while handing over the s/s.
21	The above rates are with supply of cement by the contractor.
22	Transportation Work shall be implemented as per Project / job /lot requirement
23	Illustrative Examples against Sr. No. 40 is shown as under
i	Weight: 4.5 MT, Distance transported: 52 KM Total Payment = Rate as per (i) up to 70KMs = Rs. 16, 848/-
ii	Weight: 10.5 MT, Distance transported: 65 KM Total Payment = Rate as per (ii) up to 70KMs X Unit per MT Rate = 10.5 MT X Rs. 2,782 per MT = Rs. 29, 484/-
iii	Weight: 3 MT, Distance transported: 95 KM Total Payment = (Rate as per (i) up to 70KMs) + {As per (iii)KM transported beyond 70 KM x Unit Rate of 3 MT} = Rs. 16, 848 + {25 KM x 3 MT x Rs. 22.00 per MT/KM) = Rs. 16, 848 + Rs. 1,650 = Rs. 18, 498/-
iv	Weight: 14 MT, Distance transported: 105 KM Total Payment = Rate as per (ii) up to 70KMs X Unit per MT Rate + {As per (iii)KM transported beyond 70 KM x Unit Rate of 14 MT} = 14 MT X Rs. 2,808 per MT + {35 KM x 14 MT x Rs. 22.00 per MT/KM) = Rs. 39,312 + Rs. 10,780 = Rs. 50, 092/-
