26. Relationship with employee:

Every bidder should, at time of submission of bid, give a declaration as under,

"If in any Bidder Company / Firm, the interest (i.e. Shareholding in company and share in partnership firm) of any employee of the tendering Company or his / her relative as defined in section 2(77) of the Company's Act. 2013 is 10% or more, the tendering Company will not deal with such Company / Firm at all.

Tenderer therefore, must specifically disclose the fact in his technical bid. Non-disclosure of such facts would immediately disqualify the tenderer for further dealing with the tendering company."

27. Conflict of Interest among Bidders / Agents

A bidder shall not have conflict of interest with other bidders. Such conflict of interest can lead to anti-competitive practices to the detriment of Procuring Entity's interests. The bidder found to have a conflict of interest shall be disqualified. A bidder may be considered to have a conflict of interest with one or more parties in this bidding process, if:

a) they have proprietor/ partner(s)/ Director(s) in common; or

b) they receive or have received any direct or indirect subsidy/ financial stake from any of them; or

c) they have the same legal representative/ agent for purposes of this bid; or

d) they have relationship with each other, directly or through common third parties, that puts them in a position to have access to information about or influence on the bid of another bidder; or

e) bidder participates in more than one bid in this bidding process. Participation by a bidder in more than one Bid will result in the disqualification of all bids in which the parties are involved. However, this does not limit the inclusion of the components/ sub-assembly/ assemblies from one bidding manufacturer in more than one bid.

f) in cases of agents quoting in offshore procurements, on behalf of their principal manufacturers, one agent cannot represent two manufacturers or quote on their behalf in a particular tender enquiry. One manufacturer can also authorize only one agent/ dealer. There can be only one bid from the following:

1. The principal manufacturer directly or through one Indian agent on his behalf; and
2. Indian/ foreign agent on behalf of only one principal.

g) a Bidder or any of its affiliates participated as a consultant in the preparation of the design or technical specifications of the contract that is the subject of the Bid;

h) in case of a holding company having more than one independently manufacturing units, or more than one unit having common business ownership/ management, only one unit should quote. Similar restrictions would apply to closely related sister companies. Bidders must proactively declare such sister/ common business/ management units in same/ similar line of business.

i) Bidder shall not act in contravention/ violation to the provisions of competition act, as amended from time to time.

Every bidder should, at the time of submission of bid, give a declaration, that bidder shall not have conflict of interest with other bidders, as above.

28. Use of 'Call Before u Dig' (CBuD) mobile application:

Bidder is note that it is mandatory to use 'Call Before u Dig' (CBuD) mobile application for all excavators prior to any type of excavation / digging.

29. Responsibility for correctness of the information submitted in the bid lies with bidder. If any information furnished in the bid is proved to be false at a later date, GETCO reserve right to reject the bid and the bid will not only be rejected but the bidder will be BLACKLISTED as per GUVNL Policy.

30. Special conditions

* Supply of HTLS conductor equivalent size and weight that of ACSR Dog conductor having current carrying capacity of at least 550 Amp. with corresponding operating temperature not more than 210

°C with similar design that of ACSR Dog conductor and suitable for existing 66kV Towers and H-Frame of GETCO.

* Supply of all relevant hardware and accessories to match with the above conductor.
* The old line material removed from the above lines must be returned to GETCO in good condition.
* The time period of the total contract is kept as **08 months.**
* **The Guarantee Period is 5 years from date of commissioning of line.**
* The evaluation of the bids shall be done on the Total End cost of supply & erection and as per bid evaluation formula.

31. Evaluation of Price Bidding:

Based on the conductor parameters guaranteed by the bidders, average Ohmic losses for different type of conductors offered by the bidders shall be calculated as per formula in Technical Specifications.:

Average Ohmic Loss (kw) = Loss Load Factor x 3 x Line Length x No. of sub-conductors x (specified continuous operating current)2 x AC Resistance corresponding to specified continuous operating current)

The value of Average Ohmic Loss (kw) = 182.25 x Line Length (in ckm.) x Rac,

where (1) Line Length is total length of lines proposed for uprating in ckm. i.e. 3 phase
(2) Rac is the AC resistance per km. guaranteed by the bidder at temperature corresponding to the continuous operating current of 450 Amp. for proposed conductor

1. Differential price evaluation for the conductor offered by the bidders shall be carried out considering the average Ohmic losses calculated as above and considering Rs. 1,60,000 per kw.

2. The best parameter of loss (lowest Ohmic loss for conductor) corresponding to lowest AC resistance quoted among bidders by any technically responsive & qualified bidder shall be taken as basis and that quoted by the particular bidder shall be used to arrive at differential price to be applied for each bid.

3. Final Amount for differential price loading shall be added to the price quoted/offered by the particular Bidder.

4. The price derived as per above point no 3 shall be considered for evaluation of L1 Bidder. Order shall be awarded on offered price i.e. without ohmic loss.

The modality of inter-se reverse Bidding shall be as follows:

* After opening of the price bid, the bid price of each bidder shall be evaluated as mentioned above through Loss Capitalization Formula to derive the actual L-1 bidder's price and this L-1 bidder's price (after Loss Capitalization) shall be kept as Base Price for inter-se reverse Bidding.
* The bidders shall reduce their price in decrement of value as decided before start of "Interse" revised bidding" and after completion of inter-se reverse Bidding, the Loss Capitalization amount of the successful bidder shall be deducted from their final price after inter-se reverse Bidding and this calculated End cost shall be considered for award of contract.

32. 2% of estimated cost of supply portion is to be handed over as spares to concern TR division after completion of supply, installation, testing & commissioning of conversion of line with DOG

conductor into equivalent HTLS conductor (equivalent weight of DOG conductor with higher ampacity)

33. The earth wire of existing 66 kV transmission tower line shall not be removed.

34. Dismantling of existing ACSR DOG conductor rates (Hot line) as per SOR (2025-26) is considered. It is proposed to carry out single circuit stringing on D/C towers section wise so that second circuit can be kept live to avoid evacuation constraints. Hence, dismantling of existing ACSR DOG conductor on D/C tower line would be in Hotline condition.

NOTE: Nodal for payment as well as procedures related to contract closing up to final bill shall be done by Bharuch Circle.
